The

Adventures of Paul and the Apostles,

And

THE MOST INTERESTING EVENTS IN THE PROGRESS OF CHRISTIANITY, FROM THE EARLIEST PERIOD TO THE PRESENT TIME.

BY JOHN S. C. ABBOTT.

The above indicates the design and scope of the volume. I cannot give a better idea of the work, than to quote from the author's preface.

"The author of this volume has for many years, at intervals, been engaged in its preparation. It has long seemed to him very desirable, that a brief, comprehensive, and readable narration of the origin of Christianity, and of its struggles and triumphs, should be prepared, adapted to the masses of the people. The writer is not aware that there is any popular history of the extraordinary events involved in the progress of Christianity which can lure the attention of men, even of Christians, whose minds are engrossed by the agitations of busy life. And yet there is no theme more full of sublime, exciting and instructive interest. All the heroism which the annals of civil history record, pale into insignificance in the presence of the heroism with which the battles of the Cross have been fought, and with which Christians, in devotion to the interests of humanity, have met, undaunted, the most terrible doom. It has not been the object of the writer to urge any new views, or to discuss controverted questions of church, polity or theology. This is a HISTORY OF FACTS, not a philosophical or theological discussion of the principles which these facts may involve. No one, however, can read this narrative without the conviction that the religion of Jesus, notwithstanding the occasional perversions of human depravity or credulity, has remained essentially one and the same during all the centuries. We need no additional revelations. The Gospel of Christ is the power of God and the wisdom of God."

In presenting such a work to the public, I do it in confidence, and with the full assurance that it will fill a place never before occupied, and that an appreciative people will welcome it to their homes and read it at their firesides, and that it will also find its way into the classic libraries of the country.

The writer is admirably fitted for the task. Having written the histories of Russia, Prussia, Austria Italy and Spain, he has of necessity traversed the scenes of religious conflict; and then his pen invest every subject upon which he writes, with that peculiar charm which not only interests, but instruct the reader. It is safe to say that no man in this country is better informed upon this important subject.
