WESTON

Councillor Wright Urges Appointment of Postman

The regular meeting of the town council was held Monday evening in the town hall, Mayor Chalmers presiding. The minutes of the previous meeting being read, a great deal of discussion ensued on the point of financing the construction of the water main to the Russell Motor plant at Weston. The matter was referred to the power and light committee.

Mr. Wright urged the appointment of a postman for the town, stating that there were 400 mail boxes in the post office, for the upkeep of which the people were paying from \$200 to \$400. This money could be saved, he believed. He also advocated the installation of another mail box at each end of the town. It was decided to leave the matter in the hands of a committee, composed of Councillors Macklem and Harris Huggell.

The committee will submit its report in the form of a petition to Ottawa. An application from Mr. Longstaff for the use of water from the lower hydrant was referred to Councillor Macklem.

A communication from the British Red Cross was received and various matters of business were discussed. The matter will be brought before the ratepayers at next Tuesday's meeting.

A report from Mr. Crooks of the garbage and sewage department, was received and considered. On motion of Councillor Macklem, it was decided to raise the salary of Mr. Crooks from \$55 to \$60 a month.

Drainage and other smaller topics were also discussed.

AGINCOURT

Think More Men Should Be Placed on Kennedy Road

The long delay in the completion of the Kennedy road between Ellegmore and Agincourt is said by the farmers living along the mile and a quarter most vitally affected to be inexcusable, and fears are entertained that the work may not be finished before cold weather renders it impossible. It is claimed by the Scarborough people that more men ought to be placed on the job and so hurry it to completion. The work was let by contract and when finished will provide a fine roadway between Markham Village on the east and a mile and a half north of Unionville.

YORK TOWNSHIP

CANADIAN NORTHERN TO USE N. TORONTO STATION

Company Asks York Township Council to Approve Plans.

That the Canadian Northern Railway is contemplating an early entrance into the new C.P.R.-C.N.R. terminus, North Toronto, was made manifest in an application yesterday before the York Township Council for confirmation of the plans for a spur line running from Duncan to a point on the C.P.R. It was stated that the matter will shortly come before the Dominion Railway Board. The distance is approximately 3 miles, and the building of the spur, which has long been contemplated and for which plans in respect to a terminus are already provided for, will give a quick up-town service, the new line paralleling the C. P. R. from a point of junction into the new station. The building of the new line will greatly benefit the northern part of the city, and among the business men last night there was keen satisfaction at the proposed advent of the Canadian Northern. The building of the road entails a number of crossings over the public highway and these will be inspected Thursday by the reeve and council together with the engineer.

A big deportation from Oakwood asked for the installation of water services in their houses, the parties interested living just outside the city limits but well within the 500 feet limit. The mains already pass their properties, but Commissioner Harris refuses to allow the main to be tapped unless through the medium of the township council, the latter agreeing to hold themselves responsible for the collection of the water rates. An arrangement will be arrived at in the near future and connection granted.

Commissioner Harris has notified the township council in reply to requests for water from the Danforth section that until the putting down of another main across the Don River no further extension of the city water system east will be considered.

Strongly Opposes Change in Duplex Avenue Scheme

At Saturday night's meeting of the North Toronto Ratepayers' Association, with Capt. Thorne presiding, Ald. Risk, in replying to some criticism of the action of the board of works in suggesting that the Duplex avenue scheme stop south of Chaplin avenue, asked the association to defer any definite action until the official report was submitted, which is expected to be this week. D. D. Field strongly opposed any change in the original plan, claiming that an alternative road offered the only plan to bring the Metropolitan Railway to time. W. L. Cattel gave notice of motion to allow the Metropolitan Railway Co. to double track Yonge street on consideration of reduced fares for passengers.
