

WALL STREET IS IN BULLISH MOOD

Public Again Enters Market and Transactions Are Unusually Heavy.

U. S. STEEL A LEADER

Stock at Highest Point in Years—Reading Leads Railway List.

NEW YORK, Aug. 22.—The volume of business on the stock market today was larger with few exceptions than on any other day this year, the overturn reaching 1,800,000 shares.

U. S. Steel was the commanding feature, outdistancing all other stocks in point of activity on its extreme advance of 3 1/2 points to 37 1/2, a new record.

Other stocks, including industrial equipments and war issues, rose one to four points, with unusual activity in Bethlehem Steel, which gained 1 1/2 points at 48.

Reading led the railway list on its gain of 1/2 point to 10 1/2, the balance of the list holding back until the final hour, when that entire division, including the transcontinentals, westerns and northwesterns, and coalers registered gains ranging from 1 to 3 points.

Altho the speculative element is not strong in the Toronto stock market at the present time and the hot weather has retarded trading on a large scale, yet the local issues are showing the effects of the bull market in New York and on small trading yesterday some moderate gains were registered.

Local issues also showed a further advance of 1 1/4 points to 29 1/4, closing at 29, while the preferred went back to 26. Smelters opened at 38 7/8 and went up to 39, but lost the gain later, closing at 35 3/4. Brazil was fairly active, selling up to 53 3/4, an advance of 5-6 points.

WINNIPEG, Aug. 22.—Wheat today declined 2 1/2 on October, 3c in December, and 1/2c in May. Onis were 4c for barley for October, and 3/4c for May. The general trade during the day suffered a lot from unwillingness of the world and local buyers to help the weakness here. The trade, however, was mostly local and mostly professional. Towards the close the market became somewhat unsettled and a heavy volume of business was done. A large amount of wheat changed hands in the first half hour. After that exporters bought a little wheat on the drop. In spite of the rumors of big export demand, there is little export business being worked through the local market. Cattle grain was steady.

MINING MARKET DULL BUT HELD STEADY

Newray Gained a Point, Making New High Record—West Dome Higher.

The hot weather was an adverse factor in the mining market at the Standard Stock Exchange yesterday, the volume of business being small and the market dull, with little change in prices.

The fact, however, that the stocks are holding as well as they are during the admittedly dull period of the summer months speaks well for the underlying condition of the market, and when the usual big fall trading develops it ought to supply some interesting features.

Added to an advance in Newray to a new high record at 68 and the upturn in West Dome Consolidated there was little of interest in yesterday's trading. Silver went up 1/16 to 66 1/4, but this did not prove a very powerful factor in the Cobalt issues.

The demand for Tock Hughes continued and a gain of 3-4 was made for the day on the close at 53 3/4. West Dome Consolidated displayed renewed strength, advancing at 39 1/4, Newray made a new high figure at 68.

The silver issues were very dull. Timiskaming held steady at 59 to 60; McKinley-Darragh sold at 59 1/2; Peterson Lake closed 1-4 down at 22 3/4, and Chambers-Perland was easier at 17. Lorrain was steady at 37.

WINNIPEG, Aug. 22.—Wheat today declined 2 1/2 on October, 3c in December, and 1/2c in May. Onis were 4c for barley for October, and 3/4c for May. The general trade during the day suffered a lot from unwillingness of the world and local buyers to help the weakness here. The trade, however, was mostly local and mostly professional. BUSINESS WAS SLOW ON WHOLESALE MARKET

Tomatoes Slumped in Price and Demand for Cucumbers is Nil.

PEACHES PLENTIFUL Quality and Quantity of Other Fruits Varied at Average Prices.

Business was very slow on the wholesale market yesterday, partly caused by a great portion of the Italian buyers being absent at their annual picnic, held at Scarborough Beach.

Tomatoes again slumped in price, as they arrived in very poor condition, 75 per cent being blistered with the intense heat. The bulk of the best sold at 40c to 50c per 11-quart, an odd basket of choice bringing 75c, while poor ones sold at low as 25c per 11-quart.

Cucumbers are a glut on the market, as there is no demand for them, the 11-quarts selling at 17 1/2c to 40c, and an odd one of extra choice quality at 6c.

Carrots and beets are coming in more freely, and are slightly cheaper in price, selling at 40c to 50c per 11-quart. Asparagus remained about stationary in price.

Corn was slow at 12c to 20c per bushel, only a very small quantity of the best being offered. Peaches came in freely, the six-quarts ranging from 20c to 60c, according to quality, and the 11 1/2-quarts, with a very few extra choice quality reaching 75c.

Plums were not quite as good quality yesterday, the six-quarts selling at 30c to 40c, and the 11 1/2-quarts at 25c to 35c. Lawton berries showed considerable appetite, and declined in price, selling at 30c to 40c per bushel.

Apples continue to be very low-grade, the 11-quarts selling at 20c to 40c, with some choice ones in 11-quart lots bringing 60c to 75c.
