FOUND—ON THURSDAY AFTERNOON, on Gilbert Lane, near Park Station, a gold watch. Telephone 2-11-77.

FOR SALE

FOR SALE—AT HALF PRICE, 4x5 Plate Camera. Telephone 2-11-77.

THE CHILE EARTHQUAKE

Valparaiso, Chile, Aug. 19—At 7.52 o'clock last Thursday evening Valparaiso experienced an earthquake of great severity, and during that night 82 shocks were felt. Most of the buildings of the city either were ruined or damaged. The loss will be enormous, probably reaching \$250,000,000. Two thousand persons killed is considered to be a fair estimate of the casualties. Vina Del Mar (three miles from Valparaiso and having a population of over 10,000); Quilme (235 miles to the southward, with a population of 2,000); Salto; Limache (15 miles to the northwest with a population of 6,000); Quillota (25 miles to the northwest with a population of 10,000) and villages all around were destroyed. Most of the damage was due to fire, which started immediately after the first shock. The whole population is sleeping in the hills, the parks or the streets. Food is very scarce. Milk costs two Chilean dollars a litre and it is almost impossible to obtain meat even at high prices. The railroads are all destroyed. Rain, which began to fall immediately after the first shock, stopped an hour afterwards. The nights are very cold and windy and the people sleeping in the open are suffering greatly. The captain of a steamship which has arrived from San Francisco says that the situation here is worse than that following the disaster at San Francisco. Santiago de Chile, Aug. 19—It is known that at least eight lives were lost in this city by the earthquake, but it is believed that others were killed by the falling buildings, and that their bodies will be discovered later. Several persons became so panic-stricken during the trembling of the earth that they threw themselves from the balconies of their homes and were killed. The first which followed the earthquake in this city were promptly extinguished, but while they lasted they greatly augmented the terror of the people. As all telegraph and telephone lines were more or less damaged the exact situation throughout the country is not yet known, but it is believed that the towns of Rengo, San Fernando, Quilme and San Antonio, and many villages are in ruins. All railway service in the central zone is either interrupted entirely or greatly delayed, and commerce is practically at a standstill. In the city of Santiago much damage was done. Many public buildings were practically destroyed, and several churches were dismantled. The buildings of congress, the municipal buildings, the Normal School, the courts, the Peruvian legation, the residence of President Riey, the central market, the prefecture of police and the national telegraph office were all seriously damaged. The lines of the electric tramway system and the electric light wires were short circuited, interrupting street car travel and plunging the city into darkness. The scenes at the earthquake and the prisoners during the excitement were distressing in the extreme. The prisoners tried to escape, and an inspection of all houses left standing has been ordered, and directions have been issued for the distribution of relief supplies to those in need. A troop of cavalry has been sent to re-establish communication with Valparaiso. The alarming news first received by the government from Valparaiso, that the situation in that city, has not been confirmed, but it is known that numerous buildings in the vicinity of the port were destroyed and that there have been severe fires in the Alameda quarter. The mayor of Valparaiso sent word that he did not know the number of killed or injured, but believed that they were numerous. Firemen left Santiago yesterday for Valparaiso to aid in extinguishing the fires there. The customs house in Valparaiso is reported to be burning. Several travelers who have just arrived from Valparaiso say that reports of the situation in that city were exaggerated. An employee of the telegraph service sent word from Valparaiso, confirming the news of the serious situation in that city, that the Spanish Itauan Bank building of Valparaiso was destroyed by the earthquake. A traveler who came here by express train tells that when the train was near Las Vegas, about half way between Valparaiso and Santiago, the cars were shaken violently and the engine nearly left the track. A stop was made, and the terrified passengers alighted. Later they were informed that the engine had found its way almost to ruins. All lines of railway to the north and the line to Talca are greatly damaged. In the city of Santiago a majority of the victims of the disaster were residents of the poorer sections of the city, where many small houses were thrown to the ground. Several deaths from nervous excitement and heart disease are reported. An argument was continued Saturday before Justice Barker and Justice McCleod in the matter of the application for postponement of the sale of Cushing Sulphite Fibre Co., Ltd., property. Messrs. Fugge, Haas and Barnhill appeared for the liquidators and Messrs. Earle, Powell, and Sackville, and White, of Sussex, for the Eastern Trust Company. The court ordered the sale of the pulp mill postponed until October 20, and the sale of the equity of redemption postponed until Sept. 20. Mrs. Mulochy, wife of Capt. Mulochy, has gone to England with her husband on the steamer Eretica.

AMUSEMENTS

Opera House

August 20, 21 and 22. Leslie Waterman, ch. g. (Highway)..... 24 6 W. W. NEWCOMER. Presents Wm. B. Gray's Masterpiece. The Beautiful Pastoral Drama.
