MISS SAUNDERS ON WOMEN'S FUTURE

National Secretary of Y. W. C. A.
Addresses Women's Canadian Club on Problems Arising During and After the War

The opening meeting of the season of the Women's Canadian Club, which was held yesterday afternoon in the Knights of Columbus hall, was addressed by Miss Una Saunders, national secretary of the Y. W. C. A. The meeting also took the form of a reception to the wives of the officers of the 52nd Battalion. Several new members were elected.

Miss Saunders, who is a strikingly clear speaker, was especially interesting in her references to the part that women would have to take in the war and after. She thought that the great work of the eight international unions of women would be reduced after the war. Their links would be stronger than ever.

"But now over and above the sending of our men to the war it is the women's part to keep up their courage and to keep up even more the high ideals of the nation," Miss Saunders then touched on the wastage of life in infant mortality and girls' industrialism.

"Those girls are to be the mothers of the next generation and it is a matter of immense importance that they be brought up fit for the vocation of motherhood. We do not yet get ourselves to see that the girls, the industrial worker and the domestic servant as well as the girls in our own circle are physically developed for mothering the best and strongest type. We should have more gymnastics, more basket ball, swimming and other games for girls so that their whole life should be strengthened."

"One of the most important factors, too, is to give the girls an interest and not let them go with empty minds. It is a serious menace to any country that women who are seeking an outlet for their energies and devotion should find, as many will find before the war is over, that what they had looked for has gone and that they will be growing up to thirty-five and forty unmarried and with nothing to fill their lives. I believe there is a motherhood other than the purely physical one, the spiritual one, and we need to open up to our girls who may not marry the best of spiritual motherhood."

Miss Saunders pointed out how much, too, the social life of the working girl or office or in factory was neglected in Canada and passed on to say that the men of the nation were now seeing the great sternities face the same old things as before, satisfied with the same old trivialities, the same smallnesses. We should set ourselves to live life on a higher level to be able to meet the men when they come back. We are called upon to dedicate the nation to higher, to serve the home life, the intellectual, the physical, social and spiritual life so that the empire may still be an empire of the highest and best and the greatest ideals and aims."

A vote of thanks to Miss Saunders was moved by Mrs. Monahan and carried by acclamation. Tea was then served. Mrs. T. G. Armstrong and Mrs. Alex. Wilson poured and those in charge were Mrs. Powell, Mrs. L. P. D. Tilley, Mrs. R. O'Brien and Mrs. Jas. H. Frank.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe To Restore Color, Gloss and Thickness

Hair that loses its color and lustre, or then it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value their even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

SECRET SKIN DISEASES

A famous physician states that scores of patients come to him suffering from skin diseases of most terrible form, which would have never passed the early stages had some suitable ointment been applied. Zam-Buk, which is a most powerful disinfectant and germicide, applied to skin diseases at their first outbreak, would save hours of pain and prevent disfigurement and scarring.

Every city contains hundreds of people who have some secret skin disease—some eruptions, some blennies, some open sores, ulcers, or varicose patches. There is naturally a disinclination to reveal such blemishes, and often they are neglected entirely, or some inferior and cheap ointment containing mineral coloring matter is applied, which but aggravates the sore places, and makes matters worse. From day to day, week to week, this continues, the sufferer in the meantime enduring great pain.

Now all this can be avoided by timely use of Zam-Buk. Why otherwise has Zam-Buk come to be the world's most widely used balm? For that secret sore, that itching, that burning, that open wound—there is nothing in the whole world of medicine better adapted than the heral essence and juices that go to make up Zam-Buk. Not only is Zam-Buk a great healer, but it is a certain germ-killer, and prevents infection, supuration and inflammation. If you have some skin disease, which has hitherto defied everything you have tried, don't dally longer—apply Zam-Buk. Zam-Buk is so popular that it is widely imitated, so be sure to see the name Zam-Buk (protected by law) on the box before buying. If you are in doubt, buy from the Zam-Buk Co., Toronto, who will send a box post free upon receipt of fifty cents.

ALL WORKING PAY MAY BE CUT OFF

Tradesmen in Uniform to Get Only Regular Pay After First of Year—No Extras For Specialists

(Toronto Mail and Empire)

Tradesmen of all sorts, including mechanics, cooks, bakers, butchers, and such like, now enlisted with overseas units or to be enlisted hereafter, will do so from the beginning of the year on the same basis as all other men who offer themselves for overseas service, and will no longer receive the extra pay heretofore given them because of their special work. If a recommendation from the minister of militia to the privy council be approved. The recommendation is based on the fact that tradesmen have usually less dangerous and less difficult work than the men in the trenches, and on the further ground that no difficulty is anticipated in enlisting men for the various trades under the proposed arrangement. The matter has been submitted by the committee of the privy council to the various divisional officers for their approval, having been concerned in by the committee. The order-in-council is in substance as follows:

"The committee of the privy council have had before them a report from the minister of militia and defence with reference to the order-in-council of September 8, 1914, fixing rates of pay for the Canadian Expeditionary Force, pointing out that at that time the rates of pay were being considered for cooks, tailors, bakers, butchers, motor car drivers, mechanics, smiths, fitters, wheelers, and such like, it was thought necessary to give in addition to the regular pay of a soldier working pay varying from 50 cents to \$1 per day in order to induce the men of these trades as soon as possible to take their discharge as soon as their places can be filled."

"In the light of further experience, however, it is now considered advisable to cancel this working pay, as those who are drawing it have as a rule easier and less dangerous tasks to perform than the men in the trenches who do not receive it. Furthermore, no difficulty is now anticipated in recruiting men of these trades."

"The minister therefore recommends that, beginning with January 1, 1916, the part of the original order-in-council authorizing working pay be cancelled, and those in receipt of it who are unwilling to continue on the ordinary rates be allowed to take their discharge as soon as their places can be filled."

While considerable objection is expected to the proposed change from tradesmen now receiving the extra pay, the general opinion among all ranks is that the change works no unfairness to these men, particularly as they are allowed to withdraw if they do not like the order. It is pointed out that at the present time tens of thousands of men throughout Canada are giving up their regular employment and enlisting at the regular rate of pay, though in doing so they are making considerable financial sacrifices. This is equally true of all ranks, many officers also having given up their businesses and accepted salaries far below their usual income. The suggestion of the minister of militia is felt to be in line with the general demand for economy where this can be exercised with fairness.

IS SENIOR CHAPLAIN

Rev. C. W. Gordon (Ralph Connor), has been promoted to the rank of major and appointed senior chaplain of the Canadian forces in England.

B. R. Macaulay.

John Keefe presided at the Mill street office meeting last evening and the chief speaker was B. R. Macaulay, who has sons on active service. He made a plain speech of short duration saying that he was not going to tell anyone that he should enlist but he did say that it was a matter for his own conscience. "If you think you can justify yourself to your own conscience by letting others go and fight for you then you remain, but I do not think that any man with British blood can do that."

"Don't be neutral; we have had enough of people and individuals who are neutral. There is Greece as an example. Get off the fence. There are plenty of good staunch men in the loyalist city who are ready to make the sacrifice and scarcely any man has gone who has not made

some sacrifice or other, left a good position or some one dear to him. Mr. Macaulay then referred to the impetus that had been given to recruiting in London that day adding that those nearer the scene understood the need best and it was for St. John to take the lead from them here. Only by men going could the liberties of the race be kept. He said it was almost needless to speak to men now; all read the newspapers and could see the need for men. It was to be a wearing out game and that could only be done by more and more men. In this Canada was asked to take her part.

Call from the Front.

The chairman added his testimony that the men in the trenches, from where he heard every week, were calling out for more men. It was up to the boys of St. John to respond to their comrades. He could see every day boys who were well fitted for work at the front still hanging about the streets of the city. Yet those who had gone were as dear to their own people as any who stayed at home. They broke through the ties that held them and others could do the same. A. M. Belding spoke briefly and the

meeting closed with the National Anthem.

At the Carleton drill hall there was again a large gathering for the weekly meeting. Capt. A. J. Mulcahy presided and there were addresses by Major Allen, of the 52nd Battalion, J. C. Ferguson and A. W. Baird, while Captain L. P. D. Tilley, recruiting officer for New Brunswick, was on the platform. Major Allen made a fine soldier's recruiting speech and stated that the 52nd would be able to take on 45 men. Some of the men who enrolled expressed a desire to go in that unit.

The band of the 104th (the old Carleton Cornet Band) was in attendance. Mr. Baird gave a patriotic recitation. As stated, four men enrolled and will be sworn in this morning at Mill street.

CALL TO PARISHIONERS

A call has been extended to Rev. Dr. J. P. Foley of Dalhousie, by the congregation of St. James Presbyterian church at Parrsboro. The call is a unanimous one and has been forwarded to the Presbytery of Miramichi by the Presbytery of Wallace.
