THESE ARE TROUBLE Matthews. DAYS FOR COAL MEN

Drifts in Yards Block Teams

Extra Demand Comes at

Awkward Time

The huge snow drifts which have piled up in the city streets and filled back yards have played havoc with the delivery of coal and in many places it has been practically impossible to reach houses with teams, it was reported this morning at the office of a local coal company. The coal demand at present was also above normal, it was said, due chiefly to the fact that was said, due chiefly to the fact that many people had kept putting off buyng coal when they were getting short collowing the storms about two weeks ago and now when completely out they wanted it at once.

wanted it at once.

The company's trucks were unable to operate and the horse teams were kept busy handling orders. Already the heavy going and difficulty in reaching houses had caused them to be two days behind in their deliveries. In many cases they had taken coal to a customer only to find that the back yard and alleyway were piled high with snow. The coal would be taken elsewhere, where delivery could be made. Customers should have the snow cleared away before ordering coal it was said as it was impossible for the men to take the time at each house to tunnel their way in. Meanwhile every effort was being made to hasten deliveries and within the next few days it was expected the situation would be relieved unless more snow fell.

L. O. B. A., met last evening at the home of Mrs. E. Everett, Main street. After engaging in sewing, a social hour was enjoyed, which included a sing-song, for which Mrs. E. Everett acted as accompanist. Dainty refreshments were served by the hostess, assisted by Mrs. G. Gallagher. The next meeting will be held at the home of Mrs. Frank Lodge, St. James street. Those present were Mrs. James Brown, Mrs. H. Stacy, Mrs. T. Vallis, Mrs. H. Logan, Mrs. H. Stacy, Mrs. T. Vallis, Mrs. H. Logan, Mrs. Lillian Clark, Mrs. Arthur Brown, Mrs. W. Totten, Mrs. B.
