

HER IDEAL FULFILLED, CARRIE CHAPMAN CATT, "Citizen of World," Prepares To Retire

(By Don E. P. Drohan.)
Cleveland.—Mrs. Carrie Chapman Catt, apostle of world-wide women's suffrage, announces she is ready to retire.
She has won her fight. Nearly two-score countries have accepted her creed. She has earned the title, "citizen of the world."
This former girl superintendent of schools and wife of a weekly newspaper editor in a little Iowa town has carried her gospel to practically every corner of the universe.
On three oceans and in North and South America, Europe, Asia—even Africa—she has preached the doctrine of equal rights for all women.
Thirty-six nations with full suffrage and three more with partial suffrage for her sisters remain as enduring monuments to Mrs. Catt's devotion to the cause she loves.
Of course a few barriers remain. But these merely are legal technicalities in man-made constitutions. Mrs. Catt points out. They will be obliterated in a few years, she believes.
Mrs. Catt actually left the front lines two years ago, when she resigned the presidency of the International Woman's Suffrage Alliance, which she held 29 years.
But she didn't leave the public eye. Since her return from a European trip she has been "stumping" for peace, pleading with men and women to outlaw all war forever.
She believes she has helped sway public sentiment in that direction, too. "I have made my last peace talk," she declares.

NEW LAMP BURNS 94 AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 88 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. common kerosene (coal oil).
The inventor, O. K. Johnson, 248 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$220 to \$600 per month.

Nemo Editorial on Corsets

NO. 1—WHY EVERY WOMAN SHOULD KNOW OF IT.

From this illustration, you would never suspect how the Wonderlift Corset helps women to remain healthy. The health-giving features are all underneath, so do not interfere with graceful lines.

Medical authorities and directors of public health unreservedly endorse it because it gives correct abdominal support and improves the lines of the figure.

There is a Wonderlift Corset for every woman; each model has hygienic features which lift up and support the delicate organs. Prices \$7.25 to \$13.00. No. 560 (illustrated)—\$8.00.

They Paid \$200,000,000 for Studebaker cars last year

Find out why folks did it

LAST year 145,000 people paid over \$200,000,000 for Studebaker cars. The demand for these cars has almost trebled in three years. It has become the sensation of Modorism.
There is a new situation in the fine-car field. You should learn what it means to you.

Studebaker had to lead in this field. This concern has led in its lines for two generations. Any other place would be unfitting. This is how we became the world's largest builders of quality cars.

\$90,000,000 assets
Studebaker has \$90,000,000 of assets. Of this \$50,000,000 is invested in modern plants and equipment.

We have spent \$32,000,000 for new plants and equipment during the last five years. So they are modern and efficient. They contain 12,500 up-to-date machines.

We have \$8,000,000 in drop forge plants. \$10,000,000 more in body plants. So we build complete cars without paying other makers' profits.

We spend \$500,000 yearly on an engineering staff. There are 125 skilled men employed in our department of Research and Experiment. They make 500,000 tests per year.

We employ 1,200 inspectors. Each car must pass 30,000 inspections during manufacture before it leaves the factory.

Those enormous facilities enabled us to produce the utmost in a car. And we had the will to do it.

No stinted costs

We never stint on costs. Every steel used is the best steel for its purpose, regardless of the price. Then on some steels we pay makers a 15 per cent bonus to insure exactness in them.

Every Studebaker car is Timken-equipped. The Special-Six and the Big-Six have more Timken bearings than any car selling under \$5,600 in the United States. The Light-Six more than any competitive car within \$1,000 of its price.

We use genuine leather upholstery in our open models. We use Chase Mohair for the closed car upholstery. Some good upholstery would cost \$100 less per car.

To curb vibration, we machine all surfaces of crank shafts, as was done in Liberty Airplane Motors. Very few cars do that.

How such prices?

How can we give such extra values—scores of them—yet sell at our low prices? Because these values brought us buyers—145,000 last year. The major extra costs are divided by enormous output.

Let us show you the extras you get, because of these matchless facilities.

Learn Why 145,162 Bought Studebakers in 1923

Studebakers hold the top place in the fine car field today.

In 1919, the public paid over \$80,000,000 for 39,356 Studebaker cars.

In 1920, the public paid over \$100,000,000 for 51,474 Studebaker cars, an increase of 31% over 1919.

In 1921, the public paid over \$120,000,000 for 66,643 Studebaker cars, an increase of 29% over 1920.

In 1922, the public paid over \$155,000,000 for 110,269 Studebaker cars, an increase of 66% over 1921.

In 1923, the public paid over \$201,000,000 for 145,162 Studebaker cars, an increase of 32% over 1922.

In 1924, business has opened with Studebaker as never before.
