### A Real Razor—made Safe

A guarded razor that won't cut your face—that won't heat your skin because it has no wire edge. It gives you a smooth, cool, comfortable shave. And if you compare it with the straight razor you'll find that its blade is detachable and

PARTLY NATURE'S FAULT. Mankind is not altogether to blame for the present prevalence of defective sight as contrary to the common idea, most children are born with more or less defective eyes, some of them so slight that proper conditions would never give trouble. Science saves sight. Our method of testing is the most scientific yet known.

### LOCAL VETERANS MAKE REQUEST FOR BONUS

At a meeting of the G. W. V. A. last evening a resolution was passed, on motion of W. J. Brown, asking that the federal government grant to the soldiers who have served overseas during the war a bonus to cover the extra cost of living for that period.

Believing that a little song before work is a good thing, a dry goods company of Bridgeport has arranged to have choral and community singing by its employees one-half hour before opening time every Thursday and Monday. The entire crew of workers will be assembled on the main floor and, under the direction of skilled leaders, pour out a song of cheer.
