CROSS TO SAFETY ON IRONING BOARD
Narrow Bridge from Burning Tenement Crossed by 33 Trapped People.

New York, Aug. 29.—Thirty persons trapped on the fifth floor of a burning tenement house, were rescued by a narrow bridge from burning tenement, which was held on the edges of two roofs, while the endangered people, among them a woman seventy years of age and crippled from paralysis, crawled across. The helpless woman was pushed over by firemen.

Meanwhile from below and from adjoining windows, firemen sent up two walls of water to keep the rescued and rescuers from choking with smoke and to keep the flames from destroying their precarious bridge. After it was thought everybody had been taken over the roofs, it was found that one woman was missing. Firemen found her unconscious on the floor of her bedroom and carried her over the ironing-board bridge to safety.

STRANGER NOT FRIENDLY, SO HE PUMMELS HIM
Sturgeon Falls, Aug. 29.—Because a fellow traveler he met on a road near here did not reply to his salutation of "Good-night," Omer Girard jumped on the other man and threw him to the ground, and otherwise mistreated him. Girard was fined \$10 and costs for assault when he appeared in police court here.

FRANCE IN DANGER FROM ASIA'S PEST
Has Not Adequate Sanitary Inspection to Keep Out Plague from East.

Paris, Aug. 29.—With 2,000 miles of frontier and the rest of Europe alarmed over the spread of cholera and typhus, France's health experts are beginning to worry over the fact that this country has not yet established a system of sanitary inspection of immigrants, which would prevent the spreading westward into French territory of the plague which is sweeping Russia. At French frontier stations passports are still examined, but the gendarmes never think of observing whether a traveler shows external signs of contagious or infectious disease.

The ministry of hygiene insists that the government is not able to appropriate a fund necessary to carry on more than the most meagre health propaganda. Therefore, the proposal that the follow the lead of the United States, England and Germany and institute a rigid system of sanitary inspection along her borders has fallen on deaf ears.

While the spread of disease from Russia may be arrested by German sanitary measures, France's great danger is to be found in the constant arrival in this country of persons from Spain, Madagascar and Poland.

Official reports received here from Senegal and Madagascar state that the Asiatic plague has appeared there, in Senegal one town reporting 200 deaths in a single week. Despite her rigid preventive measure, Warsaw also is reported to have several cases of plague, brought in by refugees from the Volga region of Russia, where the disease is one of the direct results of the famine.

KILLS LITTLE GRANDCHILD WHILE CUTTING UP WOOD
Wellandport, Ont., Aug. 29.—Mary Piper, the two-year-old daughter of Mr. and Mrs. Frank Piper, was instantly killed when she was accidentally struck

over the head with an axe by her grandfather, Daniel Horton. The latter, who is about seventy years of age and almost blind, did not see the child, who got in his way as he was splitting wood in the back yard, and he was not aware that he had struck her until Mary's little sister screamed. The victim was the youngest of three sisters and an unusually pretty child. Her grandfather was overcome by the tragedy, and was found hours afterward wandering about aimlessly.

FIND GOLD NEAR AUSTRALIAN CITIES
Melbourne, July 18.—(Associated Press by Mail)—Prospecting for gold is one of the most alluring charms of life in Australia. It may be enjoyed only a few miles beyond the boundaries of the larger cities, and there are still many eager adventurers on the trail for surface gold. This is attested by the frequent success.

Thirty miles from this city two prospectors in June, 1920, discovered approximately \$1,200 worth of gold, obtained from the quartz; and during their journey on the one site realized \$8,000 worth of the precious metal.

Precious stones are also available. During June large deposits of sapphires were discovered in the basalt country of New South Wales. Two syndicates are
