It has been decided not to pay the return freight on Paris exhibits, except in very special cases, the under-standing being that exhibitors will make every effort to dispose of their goods in Europe. QUEBEC, March 10 .- The legislature was prorogued this evening. Just before prorogation Mr. Gouin asked the premier if he intended to introd ce a resolution supporting the Laurier policy of senate reform. The opposition member asked the same question last night, and the premier refused to reply. This afternoon he was ready to answer it for one of his supporters lie said it was too late in the session to introduce a resolution now, but the government intend-ed doing so next session. There is a big sensation in civic circles, Mayor Payment having suspended City Engineer Galt for having usurped the authority of council by calling for the resignation of Assistant Engineer Perrault. When Galt was appointed the council gave him full power over his subordinates. It

looks as if the mayor was animated by national prejudice. TO KILL M'KINLEY.

ened to Shoot the President of the United States.

MONTREAL, March 13.-Frank Muller, German, an old United States soldier, was arrested here today, charged with threatening to kill President McKinley. Muller has been here for some time. Some time ago he wrote President Angell of the University of Michigan that he was going to Washington and if he could not slay anyone else, he intended to kill President McKinley. Angell sent the letter on to Washington, and the result was that Consul General Bittinger received instructions from Washington to look into the case. He did so, and Muller was arrested this afternoon. The man is crazy. He says McKinley is antagonistic to the German element. He also wants the Canadian government to compel the United States government to take

back the pension they are paying him and send him back to Germany. NEWFOUNDLAND.

(From Tuesday's Daily Sun.) There was a good congregation at the Waterloo streat Free Baptist church last evening. The meeting began with a service of song, led by Mr. Britton and the choir. Rev. Dr. McLeod read the 14th chapter of Luke and Rev. Mr. Clark offered prayer. Rev. Dr. McLeod took as his text the 10th chapter, 17th verse of Luke: "And when he was gone forth into the way there came one running and kneeled to him, and asked him, Good Master, what shall I do that I may inherit eternal life?" Our first thought is the willingness of Jesus to stop and listen to any question we may bring to Him. no matter how busy He may be, and to give us the help that we need, if we comply with His conditions. This young man was a fair representative of the young men of today. He had a knowledge of his need, and any think-ing young man of today has a knowledge of the need of sumething which he does not possess. He believed that Christ could help him, and every young man who has been brought up in a Christian home helieves the same. He was rather self-righteous. He thought his good works ought to have something to do with his salvation, and a good many today try to save

themselves in the same way. We learn from the story of this young man that good desires will not save us unless they are put into actions. We must be willing to give up everything to Christ, and then He will save us. This young man was willing to give up all but his riches. Those he could not let go. Therefore he went away sorrow-ful, and it will be the same with us unless we are willing to let all go and ot ey all of Christs commands. We cannot purchase salvation; it is the gift of God.

THE LATE ARCHDEACON BRIG-STOCKE.

The Ven. Edwyn S. W. Pentreath, Archileacon of Columbia, preaching in Christ church, Vancouver, for Rev. L. N. Tucker on the morning of March 5th, said in allusion 'to the death of Archdeacon Brigstocke: "By the shores of the Bay of Funday today there is a sorrowing congregation. The Ven. F. H. J. Brigstocke, Archdeacon of St. John, and rector of the old church of the Loyalists in that city, was called suddenly to his rest. night before last, in the prime of his physical and mental powers. He will be sorely missed in the councils of the church and by the congregation which he served so devotedly for over twenty-five years. In 1874, when I was rector of St. George's, Moncton, he personally went with me and helped me to get \$400 as the first con-tribution to the rebuilding of my church. I have known him ever since he came to New Brunswick. Although for seventeen years my lot has been cast in the west his kindly friendship has never abated. Ouly
