In the meantime on their immediate left a battalion from British Columbia was performing a feat of arms which has hardly as yet been equalled in this war.

"After a difficult advance of nearly 500 yards the men of this regiment, with a characteristically impetuous charge, broke into the greater part of their objective there, and killed or captured the entire German garrison and then settled down with grim determination to hold what they had taken. Early in the morning their western flank becoming exposed the survivors of the regiment on their left were pressed back by hostile counter-attacks and a few of them moved eastwards. "Distress reigns in all countries. The prices in English markets speak a clear language. Bread in England is dearer than it is with us. More than one million children in England are underted so greatly that they are unable to follow instructions in the schools. From France the most pitiful complaints are heard. Italy suffers from famine already. Russia had better not be mentioned."

Count Westarp, the Conservative leader, stated that the objects of the war as proclaimed by the Socialist party were acceptable to him.

"We must have territorial integrity, political indepandence and free sconomic evolution for Germany," declared Count Westarp. He then protested against Herr Scheidemann's declared from that the French could have peace without losing one square foot of territory." The Conservative leader, de-

NO JOBS IN CIVIL SERVICE FOR MEN WHO SHOULD BE IN KHAKI

Ottawa, Oct. 12.—"During the war no man of military age may be cointed to either the inside or the outside civil service unless a badge has been issued to him," is the significant statement in an order in-co council which was issued today. The possession of such a badge means that the possessor has offered to enlist and has been exempted from military service. About a year age the government instructed the heads of the various departments that preference was to be given in nts to men who had been on service overseas. A further order has been passed to ensure effective operation of the policy and to prevent the appointment of men eligible for military service to govern nents to either the inside or the outside civil service preference must be given to men of overseas service who have been honorably discharged and more especially those who through disability are unable to resume their former occupations.

Monday and Tuesday's advance on the Somme is the most decisive event that has occurred on the Western front since the Battle of the Maine. Victory is a word that one hesitates to apply to any tactical success, however great. It has much too great an air of finality. Yet the Allied achievements this week on the Somme can hardly be described otherwise. They have changed the whole situation in our favor, and have demonstrated our final mastery in the siege-warfare that has prevailed on the West since late September 1914. At Yerdun the Germans put forth their whole effort to the last ounce, but they achieved nothing like this. Our effort, so far from being at its height, is growing in weight, day by day and though there are probably many months of hard and bitter fighting before us, there is no longer any need to limit our expectations,
