

WANT SALOONS CLOSED AT 6 P. M. No Liquor to be Sold Near Churches or Public Buildings. BARS OPEN TO VIEW. Such Were Some of the Demands Made by the Temperance People of the Local Government Yesterday—Matter Taken Into Consideration.

Fredericton, March 28.—Rev. C. W. Hamilton, G. W. P. of New Brunswick, and E. A. Everett, grand scribe, met the government at 1 o'clock today in reference to the temperance question. Mr. Hamilton addressed the government at some length, speaking in strong condemnation of the liquor traffic and in favor of restriction and prohibition.

The government received the delegation favorably and said they would take the matter under consideration. The premier said he was sorry that the session was so far advanced, as the matter might be more fully gone into; also that they had not met the delegation previously at St. John.

WE, the undersigned, on behalf of leading temperance men in the city of St. John, beg to direct the attention of the government to the necessity for stronger legislation for the restriction and prohibition of the liquor traffic, which accompany it, and for the promotion of industry, health and the general welfare. There is no doubt that the sentiment of the province is overwhelmingly in favor of a prohibition of the sale of intoxicating liquors. This is evidenced by the fact that in a very large majority of the counties and towns of the province so far as local option laws have been passed, the Temperance Act, etc., can give it to them.

trade. We propose further a strict regulation by which it will be illegal for a wholesaler to sell to any one except the holder of a license under the act. This, we hope, will have a tendency to cut off the supply of illicit liquor in licensed districts and to prevent the sale of liquor to violators of the law in districts where the Canadian Temperance Act is in force.

Under section 25 of the Liquor License Act of 1896 too many extensions of licenses have been granted and the scope of that section so as to make those re-extensions impossible. We are credibly informed that in the greater part of the taverns in the city of St. John so small a stock of liquors is carried that the tavern keepers have to get along for a week without applying to the wholesaler for supplies, and under these conditions there is no doubt that in the majority of cases where it is proposed to stop a license to a tavern keeper an extension gives him more than ample time to dispose of his stock and in many cases there is probably no case where the one extension would not be fully sufficient.

The proposed changes under the heading "Restriction of Licenses" in the Liquor License Act of 1896 are for the purpose of making it easier to ascertain what is being done by the commission and other bodies for the enforcement of the law.

Deranged Nerves Weak Spells. "GET A BOX OF MILBURN'S HEART AND NERVE PILLS."

"I have been ailing for about a year from nervous prostration, and very weak spells would come on me and be so bad that sometimes I thought I would be unable to survive. I have been treated by doctors and have taken numerous prescriptions, but none of them helped me in the least. I finally got a box of Milburn's Heart and Nerve Pills. Before taking them I did not feel able to do any work, but now I can work as well as ever, thanks to one box of your pills. They have made a new man of me, and my advice to any person troubled as I was, is to get a box of Milburn's Heart and Nerve Pills."
