Nearly 100 Were Engaged, But Many Secured Their Safety by

Going Through Man-holes--Ja-

maica Authorities to Make Strict

Investigation.

Kingston, Ja, June 27-Thirty-three per-sons were killed by an accident which took place near Spanishown (ten miles west of Kingston) this morning in the main con-duit of the West India Electric Company, which operates the street cars from Kings-ton and the shareholders of which are prin-cipally Canadians. Mearly 100 laborers had been detailed to re-move the sand from the enormous pipe which is a mile long and which conveys the turbines of the power house. The work had practically been completed when orders were given to allow a small quantity of water to enter the conduit. Through misap-prehension, accident or carelessness, the full force of water was turned on and a mad struggle to escape by means of the man-holes ensued with the result that thirty three persons were killed. The tragedy has cast a gloom over the cause is now progress.
