

50,000 More Starving Russian Children

have been allotted to the Save the Children Fund workers in the famine area about Saratov, by the All-British Committee.

At present, the generosity of the Canadian people has enabled the Canadian Committee of the Save the Children Fund to provide sufficient food for 75,000 children in Russia, who would otherwise have died from starvation.

Now that the Russian Relief Fund (including the British Red Cross), the Friends' Relief Mission and the British and Canadian Save the Children Funds have been united under the direction of Sir Benjamin Robertson, more work is being undertaken and there is a corresponding increase in the demand for funds.

There is absolutely no hope that Russian children can be helped by Russia itself, until the harvest which comes at the end of August. So it is imperative that money and food continue to be sent through the Canadian and British Organizations right through the summer.

Will you give something?

25c. will feed a child for a week. \$1. will ensure sufficient food for one child for a month. \$500. will establish a kitchen in the famine district and feed 100 children until the next harvest.

Cheques and money orders may be forwarded through the local committee, your bank or sent direct to Sir George Burn, Treasurer, Save the Children Fund, Elgin Building, Ottawa.

All subscriptions are expended in Canada on Canadian Foodstuffs.

They Want what they read about

The standards of living for the average family in Canada grow higher each year. The luxuries of yesterday are the necessities of to-day. People in the smaller towns and on farms want the newer things they read about.

Dry Goods Stores, Grocers, Shoe, Hardware and Paint Stores, in the smaller towns, all find they can show the newest things by carrying small stocks of them and re-ordering by Long Distance. The jobber or manufacturer's warehouse is at their elbow — their order departments are alert for telephone trade!

Shipments are often made the same day. Up-to-date merchandise is no longer confined to the big city stores — and large sums are not locked up in stock.

Try it. Have a big store in a small town. "Use the Bell to Sell" — and to Buy.

PROPOSED CONNECTING LINK FOR PROVINCIAL HIGHWAYS

Road map of part of West Middlesex and part of West Elgin, showing it is claimed, the Mosa-Ekfrid townline and Aldborough-Dunwich townline connection over the Walker bridge as the most direct and best linking connection between the Longwoods Provincial Highway and the Talbot Provincial Highway; also the most direct, shortest and best connection between West Lorne and Glencoe, and while not the shortest, is the best connection between Dutton and Glencoe.

Notice, marked in heavy lines, the direct connection between the Talbot Provincial Highway through Alvinston to Sarnia. Note the Parkhill connection and the Strathroy connection with the Mosa-Ekfrid townline. Note the County Provincial road between Dutton and West Lorne intersecting the Aldborough-Dunwich townline, which will divert most of the traffic either to West Lorne or Dutton.

The Mosa-Ekfrid townline and Aldborough-Dunwich townline connection via Walker bridge can be made the best road for the least construction and maintenance cost:

(1) Because the Mosa-Ekfrid townline is an improved county road without hills or jogs and is the best connection north from the Longwoods Provincial Highway.

(2) Because the Walker bridge crossing over the Thames River is a straight crossing and can with 500 feet of fill be made a high water crossing with grades of 3 per cent. on the Aldborough side and 3½ per cent. on the Mosa side. Mr. Fred Simpson will donate sufficient land on the Mosa side and Mr. Andrew Newbigging will donate sufficient land on the Dunwich side to make

possible round corners where the river-crossing road connects with the Simpson road in Mosa and the townline in Elgin, making a connection without hills or square corners. The Walker bridge is one of the strongest cement-floored steel bridges on the River Thames.

(3) Because the Aldborough-Dunwich townline is well graded through well-drained country, has no square jogs or short bends, and only three small straight hills, which can be filled at small cost and made slight grades.

The linking up of the Mosa-Ekfrid townline and the Aldborough-Dunwich townline via Walker bridge makes possible a road extending 24 miles north from Lake Erie, having only slight grades with one 100-acre jog at Walker bridge crossing with round corners and one 100-acre jog at Strathroy with square corners.

THIS IS THE ONE cross-country connecting link between the Provincial Highways where there are no crooked, river crossings, no crooked hills, no jogs except 100-acre jog at Strathroy with square corners. THIS IS THE ONE cross-country road connection that links up the most good roads, that connects the most towns and serves the most people. This is the cross-country connection motorists have been seeking to connect the Provincial Highways, making possible round-about trips from London, from St. Thomas and from Chatham, taking in the towns of West Lorne and Dutton, crossing the Thames River without hills, through some of the most beautiful sections of the Thames Valley, where there may be no limit to speed over roads and where life is safe.

The Mosa-Ekfrid townline from Strathroy north has been designated Provincial County Road by the Middlesex County Council, but has not been accepted by the Department. Petitions are in circulation, petitioning the Middlesex County Council to take over as Provincial County Road the road leading from the Walker bridge over the Thames River to the Longwoods Provincial Highway, and petitioning the Elgin County Council to take over as Provincial County Road the townline between Aldborough and Dunwich from Lake Erie to the River Thames.

Petitions are also in circulation in Middlesex County, petitioning our West Middlesex member, Mr. J. G. Lethbridge, to use his influence in having the townline between Mosa and Metcalfe and the townline between Mosa and Ekfrid, now designated as Provincial County Road by the Department, and petitioning our West Elgin member, Mr. P. G. Cameron, to use his influence in having the Department designate as Provincial County Road the Aldborough-Dunwich townline from Lake Erie to the River Thames.

More people have taken Tanlac and praised it than any other medicine in the world. There's one reason only—merit.—P. E. Lumley.

"Never sprinkle the flower beds or garden plot," says a wise horticulturist, "unless you can make the watering thorough enough to soak the ground to a depth of several inches." A light sprinkling is worse than none. It brings to the surface the little feeding roots, and after the sun has dried up the surface the rootlets are worse off than before.
