If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever." But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired worn-out nerves leave us languid, listless, and without spirit or ambition. A few doses of Dr. Shoop's Restorative will absolutely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot." Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spoutful than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by all Dealers.

The construction of a granolithic walk on Henry street, from Main to the station, is very desirable, and if the property owners on both sides of the street would join in the undertaking the work might be accomplished. Members of the I.O.F. are watching with intense interest the proceedings of the Supreme Court of the order, which opened in special session at Toronto on Tuesday. The proposal to increase the rates of old members and penalize them for not having paid a higher rate in the past is being vigorously opposed, and it is hardly likely to go through. The plan proposed by a committee that has met general approval is to bring the rates for old members up to the rates for new, but—herein differing from Mr Stevenson's—they refuse to penalize the old members for the low rates of the past. These will be charged up to "loss and gain," and all in future be on the same footing. It is quite possible that the Supreme Chief may be pried away from his \$10,000 per year office as a result of his fathering this game of freeze out.

The Reason Why Zutoo Is Used by Thousands.

It would probably surprise you to know how many thousands of people are using Zutoo Tablets who had never before used a headache cure.

This is due to three facts. They tried the tablets. The tablets cured their headaches. The tablets did not hurt them.

Like sensible people, they do not suffer from headache any more. They either let Zutoo ward off the headache—nip it in the bud—or assist nature in stopping it. Which do you do? Do you suffer from headache or do you take Zutoo?
