

naked with the devil chasing him back on his own sawdust trail and laying on the 117 stripes less one by Christ's three ply ash unbraided.

God! you see, has given the devil permission to provoke Billy and test him like Job. Now the reason given for only 117 stripes is this, God takes Billy to himself with the last clip of the whip making 120 lashes—120 years Noah's ark was in building, equal 360 of all time tumbled. (See quotation of Oration Hosea 6: 2.) After two days will He receive us, he said, and say He will raise us up and we shall live in His strength.

The next picture would show Billy coming up out of Jordan and as the waters flowed on he saw the Holy Ghost would flow into his heart and he would get his good blessing. The last picture would show him a Holy Roller and a Salvation Army officer in jail or the asylum, with Peter's angel walking him out to preach again the old Jerusalem gospel in the heathen swaddling clothes of the state penitentiary. Now Billy has been thoroughly converted and can preach a mechanical hell as well as an ethereal hell. He finds in the Bible dancing. The heathen striped preacher provoked him to good works from the heathenish Nickelodian pulpit. Now you see how our Presbyterian heathen beaver converted Alexander Campbell by a beaver's tooth and trowel. He saw why there was much water at Salem Knoll near Jordan above the theological dam that animals in the form of men make.

False dogmas are in all creeds, and dual purpose destructive cancerous germs destroy all bodies. They are not self-existent. Mechanical Revelations show how to choose good and evil, but it cannot exclude the Good of all life from any material. It limits Christ's power as the spirit and Father's only begotten agency. We cannot keep God the Son, God the Holy Ghost, out of Mary's virgin womb by letting or monkey evolution falsely called science. Mechanical Revelations of Geometry is a failure in this titanic attempt. Billy's troubles will end when his mechanical hell is taught in all theological schools to the destruction of those homed men with a theological tale longer than a Texas steer's horns.

Get Wesley's anxious seat back in the churches. Learn like Campbell to bury above this animal dam and don't get thrown into a mechanical hell fire like the three Hebrew children. Be sure your theological saw and dehorning clippers clip both ends, so your destructive critics will know the fourth witness from heaven walking in the very furnace here and hereafter. Castigate and dehorn; use Israel's striped sticks in your theological drinking troughs and the best Jersey or Hereford or Rome sires like Peter, John and Paul.

The new school globe, the charts, and the spider web snow-drake rightly taught in our schools measure Baulism out of the Everlasting Spirit Realm and saints into it. This man's and angel's measuring reed we donate unto the Y. M. C. A.

Joseph, the dead dreamer, thus speaks to you from an Egyptian grave etc.

What Science Should Do.

See if coal and cold storage meat from a tropical clime ever existed about the south pole before Noah's glacial flood. This would lead to ask if God ever changed the solar axis from Aaron's right shoulder to his left by the mineral diameter? If so, the solar centre revolved on a 45° axis, or over two or four poles of
