

[No. 12.]

BY-LAWS SUGGESTED

FOR THE

GUIDANCE OF MUNICIPAL COUNCILS

IN ESTABLISHING

LOCAL BOARDS OF HEALTH.

It is hoped that during the ensuing year many new Local Boards of Health will be established. In order to assist in accomplishing this very desirable object, and to meet enquiries, the following proposed By-laws and Rules relating to Public Health are submitted for reference, and attention is also directed to the *"Memorandum Concerning the Powers and Duties of Municipal Authorities," issued last year by the Provincial Board of Health.

Many Municipal Councils throughout the Province have already adopted some of the clauses recommended in this pamphlet.

It has been thought advisable, however, to frame and distribute a systematic code of regulations in order to secure, if possible, uniformity and efficiency in the method of administering the Public Health Service of the Province.

This code of health regulations may be modified, as deemed necessary in the opinion of municipal authorities, to suit local requirements and to accomplish the desired result.

BY-LAW No.

A By-law respecting the Public Health.

Whereas it is expedient and necessary for the preservation of the public health to make provision therefor by adopting a series of rules and regulations to be observed by the inhabitants resident within the Municipality of the (town of) or other persons owning or occupying lands within the said Municipality.

* Article IV., page 74, First Annual Report of the Provincial Board of Health.
