Auction Sales of Real Estate Are Not Helping the on, But Are Tending to Make It Worse,

Real estate auction sales are becoming quite the se dave and thing these cays and ambitious traders advertished sales of lots and property which must be sold at once at the cheapest price and terms ever heard of once at the cheapest price and terms ever heard of but such real estate offers can only do one thing, and ads, that is tend to further down prices of real estate in the city, and although in some cases it may be justified, in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in many instances it is on a par with the man field in the man fie fled, in many instances it is on a par with the man who rushes to draw his gold from the banks, and is equally unpatriotic. Evidently realizing this in a coming real estate auction, it has been decided to grant one dollar from every sale of land to the patriotic fund. This is certainly one form of patriotism.

#### WORK FOR UNEMPLOYED.

Washington, October 17 .- George J. Eads Howe. the millionaire hobo, suggested to the Senate Committee on Education and Labor that the army of unemployed be used to help out the cotton industry of the counity. He proposed that the government take over the cotton milis and operate them to full caparicity, making up raw cotton into fabrics. He also suggested that the government operate coal mines where they are not now operated and build public roads. Howe said there were 150,000 men out of work in New York and about 100,000 in Philedalphia.

The so-called millionaire hobe supeared with a employed be used to help out the cotton industry of AN IDEAL INCOME
