LADY'S DEATH LIFE TRAGEDY.

Mr. Grey, the British Foreign Minister, is
a statesman who find any relief from
his office in social life. Mr. Glad-
stone dined-out and loved the theatre
in a theatre when the news of Gor-

own home when not at his office
days of the week. But at the end
of a week-end he is always
in his little cottage he has built for
himself in the stream where he may
break in upon his solitude.

His wife a few weeks after he had
his high office left him one of the
most solitary men in the world. There
were no children born during those years
of despatch and love, and when Lady
Grey died to close forever the doors of his
home he intruded as he kept to himself.

Deaths of Lady Grey's death were to
be even the losing of her. She
lived in her park on his estate in Northumber-
land. She got out of hand and bolted
against a tree. Sir Edward hap-
pened on state affairs at the time
she reached him he rushed to North-
umberland the night on a special train, only
conscious, in which state she remained
until she died. He gave it out that
the infirmity made it to him and return-
ing against all the lights and clamor
which would now be unbearable with-
out the intensest application to him

TROUBLE OVER COPPER
IS AMICABLY SETTLEDGreat Britain and Other Nations to
Get Together to Straighten
Out the Tangle

DULLNESS IN MARKET

European Demand is Present and Russia is in the
Market but the Shipping Situation Continues
Unsettled.

New York, November 10.—Copper interests are of
the opinion that difficulties growing out of the se-
lection of vessels carrying cargoes of copper destined
for the neutral countries will be amicably settled and
that shipments of the metal to Italy, Holland and
other ports in dispute would be resumed.

The opinion is expressed that Great Britain, Italy,
France, Holland and other nations will get together
in an effort to straighten out the tangle.

It is probable a settlement will be reached under
an agreement with neutral countries that copper im-
ported from the United States or elsewhere for the
export will not be exported to Germany and Austria.

Agencies report continued dullness in the copper
market.

Prices are unstable and definite quotations are not
to be had except in individual transactions. A dealer
quotes 11 1/2 cents as an approximate price of the
metal.

European demand is present and Russia is in the
market for the metal but the shipping situation con-
tinues unsettled.

A shipper reports that on last Friday he paid 17 1/2
cents a 100 pounds for war risk insurance on a ship-
ment to Sweden equivalent to slightly more than 1 1/2
cents at the present price of the metal.

GERMAN MARKS OFFERED

Dealers in New York Do Not Like Turn of Events
in the War Region.

New York, November 10.—Pronounced weakness in
the exchange market was the leading feature in the foreign
exchange market. Owing to recent war developments
unfavorable to the German side some local dealers
in marks offered them freely and their action put
the rate for checks down to 87 7/16 lowest point on
the movement. Cable transfers declined to 87 1/2 to
87 1/4.

The sterling market began with a downward ten-
dency but developed a better tone on fair inquiry.
Demand bills hovered around 4.90 1/4 to 4.90 1/2, and
cables at 4.90 1/4.

Supply of cotton bill offerings showed falling off
from volume which appeared on Monday. France
was quoted 5 1/16 and 5 1/16 for checks and cables re-
spectively.

Lines were 3 1/4 for checks and 3 1/4 for cables.

hours per week.

COUNTER-CLAIM IN CASE

Toronto, Ontario, November 10.—J. C. Laird, Canadian
manager of the National Cash Register Company, is
suing the Taxicabs, Limited, for \$5,000 and costs for
damages done to his car in a collision in High Park
September, 1913, which he claims was due to the
negligence of the driver of one of the vehicles of the
Taxicabs, Limited. Taxicabs, Limited, has entered
a counter-claim for \$1,000.

FINANCIER GRANTED PEERAGE.

London, November 10.—The King has conferred a
peerage on Walter Cunliffe, governor of the Bank of
England, for services during the financial crisis.

New York, November 10.—Adrian H. Muller and
sons on Wednesday will offer at auction the follow-
ing securities: 15 shares Phelps Dodge Company; 10
shares Manhattan Rubber Company; 800 shares Uni-
on Verde Extension Mfg. Company; 200 shares
Hawthorne Shoshone Company; 3 shares Calumet

D. C.; 15 shares Owl Commercial Company preferred

road first mortgage 5 per cent. bonds, September 1914
coupon off.

These auctioneers have not held a public auction
of securities since the Stock Exchange closed July
30th. However, not long since they announced that
they would sell at auction any Stock Exchange se-
curities which were placed in their hands for sale.

PITTSBURG TRUST COMPANY

Pittsburgh, November 10.—The statement of the
Pittsburgh Trust Company, made public to-day, shows
a reduction of \$2,702,456 in surplus and undivided
profits between August 27 and November 2, caused
by the financial crisis.

The announcement that B. F. Jones, Jr., president
of the board also attracted the attention of
the financial community. In explanation of this in-
cident it is stated that Mr. Jones intends to retire from
the board of all financial institutions with which
he is connected.

On August 27, the date of the last previous state-
ment, the company reported capital of \$2,000,000,
surplus of \$2,000,000 and undivided profits of \$207-
1/2.

The current statement shows capital of \$2,000,000,
surplus of \$1,000,000 and undivided profits of \$905,207.
The reduction in surplus between the two statements
was \$1,099,000 and in undivided profits \$1,702,456.

MONTREAL GAS COMPANY.

Montreal, Ont., November 10.—The National Gas
Company, which last fall was given a city franchise
to lay mains throughout the streets, will be in a
position to offer a service to several west-end resi-
dents in a few months, according to an official of the
company.

The company will, as soon as tenders are accepted,
commence construction on sixteen miles of the main
trunk from Blackheath to Hamilton, and will lay
seven and one-half miles of pipe in the city.

J. H. PLUMMER,
President of the Dominion Steel Corporation, which
has just issued its semi-annual statement.

SEMI-ANNUAL STEEL REPORT

The report of the Dominion Steel Corporation for
six months ended September 30th, show net earnings
of \$694,084 after allowance for depreciation, sinking
funds and all fixed charges.

This amount compared with the corresponding
period of 1913 shows a decrease of \$854,819, or about
55 per cent.

While the corporation maintained the dividend on
its own preference stock and on the preferred stock of
the Dominion Coal Company, the preferred dividend
of the Dominion Steel Company was deferred. In
view of this it is interesting to note that despite the
poor showing in respect to earnings, the preferred
dividend of the Steel Company was earned, if not
paid.

The official statement of earnings, given below, is
preceded by the following statement from the direc-
tors:

"The directors of the Dominion Steel Corporation,
Limited, present the audited statement of the results
of the operations for the half year ended September
30, 1914, of the corporation and its subsidiary com-
panies. All inventories reviewed with reference to
the financial and trade conditions now existing, and
the special provisions which have been deemed nec-
essary on account thereof have been charged against
the operations of the half year.

FAKE CANADIAN AGENTS.

Ottawa, Ont., November 10.—Sir George Foster,
Minister of Trade and Commerce, said to-night that
it had come to the attention of his department that
certain parties in the United States are falsely re-
presenting themselves as agents of the Canadian and
British Governments for the purchase of war supplies.
In many cases commissions are thus unlawfully ex-
tracted from wholesale houses.

Manufacturers are warned to deal only with those
who can prove that they are bona fide agents.

REBATES ON IMPORTED GOODS.

Washington, November 10.—Arguments in the case
of rebates on goods imported in American ships
are expected to last two days. There are three sides
to the controversy.

The Board of General Appraisers upheld the validity
of the law so far as it applied to American vessels.
Importers demand that rebate shall be made ap-
plicable to imports coming in any vessel and the Gov-
ernment opposes granting it to any ships.

NO COPPER PRODUCED.

New York, November 10.—Mines of the Greene
Cananea Copper Company in Mexico are still idle. No
copper is being produced due to war conditions, pre-
vailing in the Republic. The closing of the Greene
Cananea mines is taking around 50,000,000 pounds
of copper annually from the market.

Copper production for third quarter totalled 11-

LARGE STOCK DIVIDEND.

New York, November 10.—In connection with the
advance in United Profit Sharing Company, it is per-
sistently reported that plans are under way for the
distribution of a large stock dividend.

Those in a position to know point out that the
present capital of slightly over \$300,000 is out of
all proportion to the present big business being done.
Contracts already secured mean the use of over
four billion United Profit Sharing Company's coupons
by manufacturers of this country next year.

MontrealEND OF GOLD SHIPMENTS
TO OTTAWA IS IN SIGHT

New York, November 10.—At least a couple of Wall
Street brokerage firms have recently negotiated time
loans in London on a favorable basis, and it is not
improbable that there will be further borrowing at
that centre in the comparatively near future.

The purpose of Wall Street houses in securing loans
in the London market is partly as an act of pre-
paration for resumption of business on the Stock
Exchange.

The houses desiring to place themselves in a posi-
tion to buy stocks in the event that bargains can
be secured when active trading is resumed.

The amount of borrowings done so far by Wall
Street in the London market is only a symptom,
probably not exceeding \$3,000,000, but it is never-
theless encouraging as an indication of a diminished
eagerness on the part of British financial interests to
secure payment of the present indebtedness and of a
willingness to use part of their credits in making
loans to Americans who can furnish right kind of
security.

It is not expected that shipments of gold to Ot-
tawa will cease immediately, but the beginning of the
end of the movement is believed to be in sight.

THE HIDE MARKET

New York, November 10.—There was an absence
of new developments in the hide situation yesterday.
According to brokers, there was little inquiry for com-
mon dry hides, and no sales were reported. The
tone of the market remained firm, and previous quo-
tations were repeated. There were no changes in wet
or dry salted hides.

THE COTTON POOL.

Chicago, November 10.—The Cotton Pool Committee
has reported that although the directors of some of
the smaller banks had not ratified the action of the
officers in making subscriptions to loan deficiency of

Committee meeting by two local National Banks so
that Chicago's full quota of \$12,000,000 is now guar-
anteed.

THE HOP MARKET

New York, November 10.—Pacific coast hop mar-
kets are quiet with best grades firm, others easy.

New York State markets continue very quiet,
with but little demand and that confined to the best
lots only.

during the week ended November 6th at the port of
New York alone amounting to 1,017 bales.

New York market and an advance is usually obtain-
ed from dealers to brewers:
