NOTICES.

A NEW IMPLEMENT FOUNDRY.—Notice of application for incorporation has been given in the Manitoba Gazette of a company to be known as "The John Clayton Plow Company, Limited." It is said the company intends building a large agricultural implement foundry on a site just outside the limits of the corporation of Winnipeg.

INVITATION TO BONSPIELERS.—In another column appears an invitation from the American-Abell Company inviting all visitors to the bonspiel to examine their Dewey portable and Donaldson traction steam engines at their warehouses on Main street. This company have shown great interest in the most popular sporting event of Manitoba, and have placed their large warehouses at the disposal of the bonspiel directors, who have thereby been enabled to construct a mammoth ring, the largest of its kind in Canada.

AN INTERESTING EXHIBIT at the recent International Exposition at Chicago was that of fifty guinea pigs by Parke, Davis & Co., Walkerville, Ont., manufacturers of "Blacklegoids," a vaccine for the prevention of blackleg in cattle. The little animals on exhibition were selected from about 4,000 which the company keep on hand for what they call the "physiological test." This consists in testing the vaccine upon living animals as a means of proving its efficiency, and guinea pigs are the most convenient for the purpose. This company vaccinated several head of cattle at the exhibition.

THE HANCOCK DISK PLOW ASSOCIATION.—An organization of special interest to the trade, known as the Hancock Disk Plow Association, was formed at Chicago, December 2nd, when all the licensees manufacturing under the Hancock patents perfected the arrangements. The licensees are as follows: Chattanooga (Tenn.) Plow Co.; Long & Alstetter Co., Hamilton, O.; Hapgood Plow Co., Alton, Ill.; Sattley Mfg. Co., Springfield, Ill.; Baker & Hamilton, San Francisco, Cal.; Joseph Maw & Co., Winnipeg, Manitoba. These houses, it is said, do an aggregate business of fully \$10,000,000.00 per annum, and employ a capital of \$2,500,000.00. The purposes of the organization are to promote unity of action in matters pertaining to the manufacture and sale of Hancock Plows, the protection of the Hancock patents, purchase of materials, and similar objects.
