

A Large Part Of the Harvest Work Is done in The Kitchen

A good Cook Stove is as necessary in its way as a good binder. If your wife needs a new stove she'll need it most during the hot summer days when harvest brings the heaviest kitchen work of the year. Get the new stove now. A good quick baking range with plenty of cooling holes and a roomy oven makes kitchen work ever so much lighter. A range of this class with modern improvements costs you very little at EATON'S PRICES.

THE OLD HOMESTEAD

A Large Heavy Duty Range ONLY \$45.00

This range is built to stand heavy and continuous usage. It will meet the needs of the largest family and is just the range to have when extra help is on the farm. It has six cooking holes, a large oven, roomy warming closet, 11-gallon reservoir and will burn any kind of fuel. You can tell by its weight, 575 pounds, that it is of extra strong construction. Bought in the old way, through jobbers and middlemen, a range of this class would cost \$60.00 or more. Our price asks you only one profit on the foundry cost. We take the yearly output of two large foundries and we sell every stove direct to our customers. No middleman adds a dollar to the price of an EATON Stove. That explains why the OLD HOMESTEAD RANGE costs you only \$45.00.

We have other ranges in different styles, some as low as \$20.00 in price. Full particulars on pages 261 to 266 of our large Spring and Summer Catalogue.

FARMER

ROYAL FARM FENCING

Since February 1 of this year the Sarnia Fence Company sold direct to the farmers of Canada over 350 car-loads of Royal Fence.

Our enormous capacity, which is the largest in the Dominion, has been taxed to its utmost to fill the demand for Royal Fence. We have, by working night and day, kept to our standard of shipment the same day order was received, and every order has been shipped promptly, and we are in receipt of thousands of letters from farmers in every part of the Dominion to the effect that Royal Fence is the most perfectly woven, the best wire and the best value they ever received. They tell us how many dollars they saved by purchasing direct from the factory. Don't you think you have been supporting agents long enough? Here is an opportunity to save for yourself dealers' profits and agents' commissions. We know our fence is right both in perfection of weaving and quality of wire. We know that our method of direct from factory to farmer means one-third saved on your fence purchases. We are justified in offering a more liberal guarantee with our fence than is offered by any other fence company because we know our fence is better. Every bale of Royal Fence is shipped with the following guarantee:—

"If you find for any reason that the fence received by you is not of the best wire, full government gauge No. 9, the best galvanizing, the most perfectly woven fence you ever purchased at any price, you are at liberty to return it and we will pay charges both ways and refund every cent of your money."

By opposing the renewal of the Steel Bounties by refusing to join the fence combine and publishing our direct to the farmer prices, we have saved the farmers of Canada many thousands of dollars. We want your support, we want your order and we want your neighbor's order, and in return we will give you the best fence value in Canada. The following styles are carried in 20, 30 and 40 rod bale only, and shipment will be made same day order is received:—

- | | | |
|---|--|---|
| <p>5-40-0—Has 5 line wires, 40-in. high, 9 stays to the rod. All No. 9 hard steel wire. Spacing 10, 10, 10. Price per rod 17c</p> <p>6-40-0—Has 6 line wires, 40-in. high, 9 stays to the rod. Waterproof and sanitary. Get your pair now. Catalogue free. SCOTTISH WHOLESALE SPECIALTY CO., Princess St., Winnipeg.

REGINA SWEEP BY CYCLONE

Regina, July 1.—Twenty-eight persons are dead, twelve missing and scores seriously injured as the result of a terrific hurricane which swept over Regina on Sunday afternoon, making two thousand people homeless, wrecking elevators, churches, public buildings and business houses. The damage is estimated at \$10,000,000. It is feared that the death list will reach nearly seventy victims. Large and substantial buildings crumbled like paper before the sudden onslaught of wind, burying people in the ruins. One man was carried bodily for half a mile and escaped alive, while the wreckage is strewn on the prairie for miles around.
