ville.

#### A WRONG SYSTEM

Business in Dawson during the winter just ending has been very quiet, largely on account of the fact that the amount of money necessary for commercial requirements has not been in the country. This condition has arisen from the practice, coming the bulk of the returns from of personal ambitions. their mining operations out of the

A great many claim owners who are perfectly solvent and who possess Nugget for the reason that a severe sufficient ready means for conducting their work upon a cash basis, have outside and press their local credit particular that had any bearing upfor the wherewithal to operate on the guilt of the accused man. A through the winter

As a result of this policy the merchant in Dawson has been forced to allow his goods to go out on a bed rock basis or keep them on his shelves. Such a condition of affairs is not only unfair to the business men of the community, but it is unnecessary from the standpoint of a very large proportion of claim own- be furnished a more comprehensive ers. It is a noticeable fact that the record of local affairs than usual, claims which are operated upon a which will serve in a measure to cash basis throughout the year, yield compensate for the loss of our telea far greater proportionate return graph service. The wire has done over the matter. than those whose owners rely upon such splendid service throughout the the local commercial concerns to carry them through. The man who pays spot cash for what he buys will save in the long run big interest on the amount of money involved.

On the other hand, the man who makes his purchases in September with the expectation of making his settlements at clean-up expects to pay, and invariably does pay, an advanced price for his goods. These are facts which cannot be disputed and which the Nugget has no hesitation in suggesting should be given careful consideration by every claim owner in planning his future operations.

There is no reason why there should be a lack of money in this community at any season of the year. There is business to be done the full twelve months and there should at all times be sufficient money in circulation to keep the wheels of trade properly lubricated

It is announced from the war office in London the Lord Kitchener will take the field in person and endeavor to run DeHet down at the earliest possible date. For the past several months Kitchener has been acting almost entirely in an administrative capacity, and it is a noticeable fact

that during that period the Boers have displayed renewed and successful activity. With Kitchener again in the saddle, it is altogether probable that events will shortly take an altogether different term.

#### A FOOLISH COURSE

From far and near come newspaper reports, based upon the exaggerated yarns which filled the pages of the News for several days, that Dawson has gone to pieces and is being rapidly deserted. A late issue of the Cincinnatti Inquirer contains the same jumble of falsehoods and misrepresentations which we have besetofore noted as appearing in various outside papers. The responsibility for this widespread libel rests upon the shoulders of the News, and may be he repeatedly decried every attempt made to secure deliberate and unbiased consideration of the Treadpossible occasion on exaggerating and musical director. The full cast will which followed him with much permisrepresenting the actual facts in

Every article that appeared in the News was distorted and overdrawn in a manner that in the light of events can neither be explained nor extenuated. The result is what might easily have been anticipated. A false imprseeion calculated to work almost irreparable injury to the Pinafore-Mr. C. S. W. Barwell. community has gone abroad and nothing has been accomplished that would not have followed from a clear, concise and unprejudiced pre-

sentation of the actual facts. The News entirely lost its head in dealing with the Treadgold matter, just as it has done in attempting to handle almost every other question of public import that has come before the community.

in harm only. Its utterances in the one of the three nights will reply in future must of necessity be discredited and its espousal of any cause nights. > The evidence in the Brophy case was reported exhaustively in the seemed desirable that the public careful perusal of the report as published will, we think, convince anyone that the findings of the jury and the sentence of the court were in every respect right and just.

The Dominion telegraph line is again down and may remain in that condition for an indefinite period. Meanwhile readers of the Nugget will winter that the present mishap may readily be overlooked.

In view of the fact that Mr. Brophy will serve a life term in prison, it will be quite possible to give Mr. Tomerlin some leniency and still put him out of harm's way for a considerable length of time.

too late. Aside from the fact that the performance of itself, from an artistic should be informed of every minute point of view, will merit the entire approbation of the most critical, the fact that the proceeds are to be given to a charitable and deserving institution will no doubt help to swell the receipts so that when the counts are checked up a large sum will be turned over to the Good Samaritan hospital to aid the good work being done for the sick at that worthy institution.

### Redmond's Views.

London, Feb. 22 .- The Irish party attaches great significance to the eviction of the tenants on forty of Canada and those of the other farms of Lord Defreyen's estate in Rosscommon country, Ireland, for refusal to pay rent, and intends to make a fierce parliamentary struggle the United Kingdom to make such

John Redmond, chairman of Irish parliamentary party, said to a representative of the Associated

"Not only are forty tenants now sold out, but many hundreds of others are being proceeded against. The country thereabouts is alive with police, who patrol the roads day and night, force tnemselves into people's houses and in every way create a reign of terror. Fifteen representative public men of the district have been imprisoned merely for taking part in meetings of a peaceable nature, and many others are being prosecuted. Everything has been peaceable so far, but the proceedings of the government are so extraordinary that we cannot help feeling anxious lest violence occurs. The cause of all the trouble is the government's refusal to face the unanimous demand of the Irish people that it pass legislation giving compulsory powers to put out Irish landlords, and thus restore to the Irish people their land.

### Final Separation.

London, Feb. 25 .- Lord Rosebery's announcement of his final separation from Sir Henry Campbell-Bannerman's section of the Liberal party, announced by the former in a letter to the London Times this morning, forms a fruitful topic for afternoon editorials and for discussion in all quarters of Great Britain.

One of the most noticeable phases is the curious effect the letter produced on the working of the Times

editorial on the subject. Its friendliness to the ex-Premier might easily be explained on the ground of Unionopposition ranks. Its declaration that "what the country wants is not a brand new/set of principles, but a new set of men capable of replacing the present set, without upsetting For Production of H. M. the policy of the Empire," precedes the significant demand that Lord Rosebery's party must prove that they can be trusted to infuse business," energy and capacity into the

prosecution of an Imperial policy. Concluding, the Times says : the fruition of efforts in that direction may seem to be remote, we can only say it may come sooner than anybody expects.

This cryptic utterance has started rumors, of a new coalition between the Unionists and Imperial Liberals under the leadership of the Duke of Devonshire and Lord Rosebery, besides the possible defection of the Times in its support of the present government.

#### A Serpent's Appetite.

From a gentleman who was at one time a resident of Brazil comes a remarkable story about a snake that he encountered in the woods one day

"Sitting on a stump, I became aware of the approach of a huge snake," writes this gentleman. "He must have been fifteen feet in length There was no doubt the snake was about to attack me.

"Without hesitating for a moment I discharged my two barrets. For a short time the reptile raged furiously and I climbed a nearby tree. I had barely reached the first boughs when I saw the snake approaching the tree and it climbed up behind me.

"Higher and higher I went. Higher and higher came the serpent. My heavy rubber boots had hindered me in my climbing, so I tried to get rid This will be the first production of of them. I took one off and dropped opera ever given in Dawson and the it, and just as I had the second in

Then the snake made a dash and the negative, so that a crowded them of the adventure I had and rode house is assured for each of the three home minus one rubber boot. Of his

"A few weeks later on another tickets until the last moment will cut it open and found, to our astonishment, my rubber boot not in the

### Confederation Act.

Quebec, Feb. 22 .- The following notice of motion has been given in the legislature by Mr. Perault, member

'That in the opinion of this House the revenues aflotted to the various provinces by the British North America Act are insufficient to allow of their meeting the requirements public service, and at the same time of giving necessary aid to colonization, to agriculture, to the development of our industries, and the improvement of our educational system; that the interpretation given to various clauses of the constitution has endangered the existence of our local institutions, and that the government provinces should be invited to join the government of the province of Quebec in asking the parliament of changes in the Confederation act as may alter the basis on which the federal subsidy is calculated, to secure to the provinces an exclusive control over their imposing export duties on products of their forests and mines, and to confer upon the government of Great Britain the right of disallowng provincial laws now exercised by that of Canada."
