

"IT SAVED MY LIFE"

PREMIER SCOTT IS HOME AGAIN

HEAVENLY RECOVERED HIS STRENGTH

From Thursday's Morning Leader. Premier Scott, accompanied by Mrs. Scott, returned to the capital yesterday morning after a long absence in the south where he sought to regain strength after his serious illness. He was warmly welcomed by a group of friends on the depot platform and driven direct to his residence.

"Before I wrote to you, I had been ill for a long time. I had lost my appetite and was unable to take any food. My doctor had given me up, but I had heard of your medicine and I decided to try it. It is a wonderful medicine and it has saved my life. I am now well and strong and I can do my work as usual. I am very grateful to you for your medicine. I have written to your publisher to tell them of my experience and I hope that many other people will be benefited by your medicine. I am, dear Mrs. Willadsen, your most grateful friend, Mrs. T.C. Willadsen."

When women are troubled with irregular or painful periods, or with bearing-down feeling, inflammation, headache, faintness, general debility, indigestion or nervous prostration, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, at once removes such troubles.

No other female medicine in the world has received such widespread and enthusiastic endorsement. Because of its safety, it is used by the most delicate and feeble. For twenty-five years Mrs. Pinkham's daughter-in-law, Lydia E. Pinkham, has used her direction, and since then, her name has become a household word. Address, Lynn, Mass.

SHAGBESSY INTERVIEWED REPORT CROP PROSPECTS ROSY

WINNIPEG, Man., June 19.—Sir Thomas Shagbessy, interviewed today, said "do not expect a bumper crop in the west, but it will be a much better one than in the past."

The subject of constant comment, Sir Thomas said there was a fall of snow in New York which was the cause of the crop prospects for another bumper crop in the west, and that it was his opinion that the crop in Ontario, in view of the fact that there was almost certain that there was a heavy yield in the west would mean big things for the west.

Two open letters have been printed by the newspaper India, published at Gujranwala (Punjab), which address the King-Empress again and again in insulting terms. In one place they say: "Even if the entire white population of England, 300,000,000 of Indians could drive them out of the country with the aid of sticks."

The European Defense Association of Calcutta, representing the non-official white community of the capital, today publishes an address to the government of India calling its attention to the continued boycott of British goods in Eastern Bengal and the racial friction which is still being stirred up, and demanding that government action be not deferred to a point where illegal license becomes more and more difficult to resist.

HEAVENLY RECOVERED HIS STRENGTH

From Thursday's Morning Leader. Premier Scott, accompanied by Mrs. Scott, returned to the capital yesterday morning after a long absence in the south where he sought to regain strength after his serious illness. He was warmly welcomed by a group of friends on the depot platform and driven direct to his residence.

It is half a year since Mr. Scott was taken ill with pneumonia, and nearly four months since he left Regina. Seen by a representative of the Leader last evening the Premier stated that he was feeling first rate. He felt as strong as he ever did and had almost recovered his normal weight. He is, however, that he took cold more easily than before he was taken ill and would have to exercise care in this regard.

Mr. Scott's trip to the south was expressed himself as delighted to be back in Saskatchewan. During his absence he visited Bermuda, Cuba and several of the southern states. He was particularly pleased with the Bahama, and enjoyed exceedingly his three weeks' stay there. Mr. Scott naturally paid attention to the weather, and he stated that all over the south the weather was unusually cold and it was a relief to him to be back in Regina.

ACCIDENT DURING PARISIAN

Paris, June 18.—Few sovereigns have ever visited Paris as have our King and Queen. A narrow stone bridge crosses a deep stream in the Trianon park. The Queen and Mrs. Falliers were being driven over it when the rear wheel of their carriage struck the low parapet, the sudden jerk throwing one of the horses over the edge. Kicking furiously to release itself, the animal fell, and the Queen's carriage was struck and its rider's leg was broken.

LONGSHOREMEN'S STRIKE REPORT

REPORT OF LONGSHOREMEN'S STRIKE ISSUED BY DEPARTMENT OF LABOR. OTTAWA, June 18.—The report of the conciliation board into the Longshoremen's strike at Montreal has been received by the department of labor. Both parties to the dispute declined to make a statement covering the whole of the strike. The board has had to deal with facts and make recommendations accordingly. The board's findings are that the cause of the trouble was largely due to the lack of tact and consideration shown by the parties in their dealings with one another. It was shown that the nature of the work was strenuous and hazardous and that the longshoremen had lived up to their agreement from 1902 and that shipping agents suffered in loss from the men quitting work in the past and engaging in other pursuits. For these and other considerations the board decided that the rate of 2 1/2 cents per hour already granted should remain the rate for the present season, but that its further increase should be deferred until the next year, when it should be granted to the men by way of a bonus, from July 1st last. The board also recommended that the men engage to work for the shipping companies after July and continue to work until the close of the season for the season of 1908 the rate will be 30 cents an hour day, and 45 cents per hour night, and both parties are expected to enter into an agreement to this effect. This practically means that the men got what they asked for.
