

LABOR AND THE LIQUOR TRAFFIC

The following letter was received from Mr. J. B. McLachlan, Secretary of the United Mine Workers of America, Nova Scotia Branch. It is addressed to Rev. H. R. Grant, and dated:

September 6, 1920.
Today I am in receipt of your favor of the 3rd inst. asking me for "an expression of opinion as to the benefits that would result from the suppression of the liquor traffic."

Let me say that at a Convention of miners held in Sydney, N. S., Nov. 19-23, 1918, in a reconstruction program drawn up, the fifth item on the program read as follows:

"Temperance Reform in the shape of an absolute Prohibition Act Dominion wide."

This item was passed by that Convention by a majority of four to one.

I have been actively engaged in the Labor Movement during the last thirty years, and know of nothing that is better calculated to upset the best efforts of Labor men and Labor Unions than a drinking member.

I hate the liquor traffic with a whole hearted hatred because I have seen it used over and over again to dash the hopes of working men when they were on the eve of doing something useful for themselves. I am,

Yours truly,
J. B. McLachlan.

CANNING NOTES

Mr. A. S. Burgess, of Canning, has returned from the hospital at Montreal, where he has been undergoing treatment for the past two months.

Rev. Harry Barbour, Baptist minister exchanged pulpits with Rev. Mr. Lezenby, of Kingsport, on Sunday evening.

The Canning United Baptist church has been renovated, and is having a new pipeless furnace installed, in the main auditorium. This is the first one of this kind to be put in, in this district, and is considered one of the latest inventions for heating churches.

Harold Woodworth of Wildermere, has been appointed Government Apple Inspector.

CASPEREAU NOTES

Mr. Otis Schofield, who has been out on a hunting party, was fortunate enough to shoot a nice large moose.

Miss MacDougall, the supervisor of the Women's Institute of Nova Scotia, speaks to the women of the Valley this Friday afternoon at 2.30. All ladies of the Valley are cordially invited to attend.

Although being so late in securing a teacher for the Advanced Department, Miss Smith of Lunenburg, has at last been secured.

"You can talk about gramophones all you want to," explained the American visitor, "but we can whip you at that. I've heard a gramophone in New York that you could hear clear to Chicago."

"That's nothing," retorted a quiet Britisher. "In our regiment there was a bugler who blew a call in 1914, and they heard it in the States at the end of 1917."

Don't believe all you hear—especially when it is about yourself.

Rheumatic People

Can Only Find Relief by Enriching the Blood

Rheumatism is a disorder of the blood. It attacks people when the blood is overcharged with acid and impurities, thus setting up inflammation in the muscles and joints. Wet weather or cold weather may start the tortures of rheumatism, but is not the cause. The cause is in the blood and the blood only. Victims of this malady have every reason to fear the first dull ache in the limbs and joints, followed by sharp pains through the flesh muscles; these are the symptoms of poison in the blood which will shortly leave the victim pain-racked and helpless.

There is only one way to cure rheumatism, and that is through the blood. Liniments, hot applications, and rubbing may give temporary ease, but cannot possibly root the trouble out of the system. That can only be done by the rich, red blood which Dr. Williams' Pink Pills make. This new blood drives out the poisonous acids and impurities, and the rheumatism disappears. If you are a sufferer from this painful malady begin the use of Dr. Williams' Pink Pills and see how soon the pains and stiffness of the joints fade away, leaving behind new energy and new health.

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

BRITISH CAPITALISTS AFTER OIL IN WEST

EDMONTON, Alta.—According to D. B. Dowling, Dominion geologist, the most extensive explorations for oil ever undertaken in the West, save by the Imperial Oil Company, will be conducted next year by the Whitehall Oil Company of England. The company is composed of a group of British Capitalists, of whom Lord Cowdray is the chief. A number of experts from the Dominion Geological Survey Branch have been loaned to the company and are making extensive surveys in the foothill area of Alberta and also up in the extreme north. A great deal of machinery and drilling equipment will be introduced next spring.

An immediate expenditure of several million dollars is to be made by the Empire Silica Company in the development of silica properties near Whyococmagh, and in the manufacture of brick of various kinds as well as lime and cement products, according to one of the directors of the company who is also the owner of the newly acquired property. The land consists of 60,000 acres and the brick plant to be erected will, it is stated, give employment to more than 1,000 men.

THE REBUILDING OF KING'S COLLEGE

In response to the repeated inquiries concerning the rebuilding of King's College, the Windsor Tribune states that at last the powers have been moved to action, and there is reasonable ground to hope that in as short a time as possible, the grand old University building swept out of existence last year by fire will be replaced by a handsome new structure of red brick with white stone trimmings.

At an executive meeting at the office of President Boyle, and presided over by His Grace Archbishop Worrell, the contract for constructing a concrete foundation for the centre unit was awarded to Mr. Bedwin, of Halifax, work to begin immediately.

The building will consist of three units. The centre unit will be the first part constructed. It will contain lecture rooms, offices, the Halliburton room and students' reading room. The top floor will be used for a time as a residence, until the end units are erected.

The corner stone will be laid in a few weeks. It is hoped that the Governor-General of Canada may be here for that purpose, but he may not be able to grant this request. It is, however, assured that the erection of this occasion will be delivered by Dr. Nicholas Murray Butler, President of Columbia.

THE WAVE OF LOWER PRICES

(From the Baltimore American.)

After having travelled so long and arduously under the desert sun of high prices, with the skies above them brazen with hopelessness, it may be too much for the housewives of America to believe when told that within thirty days there will be an average drop in the price of groceries of 15 per cent. Yet this is the word that comes from the watchtower agents of the Federal Reserve Board. These who look abroad over the land and can readily detect the dust of the approaching columns of reduced price declare that in seven districts groceries show a heavy decline in respect to the volume of trade transactions during the past four weeks. What does this mean in the terminology of the table? It means that both wholesalers and retailers are more cautious about making purchases. With the geometric sixth sense that business men must develop if they are not to go to the wall, they have discerned the movement of prices downward and are governing themselves accordingly.

On account of the present pulpwood situation, 27 Western Canadian publications have been forced to close.

Twenty-three thousand men are employed in Canadian shipyards.

SECURITY

WHERE neither fire nor thief can gain a foothold and there is no room for carelessness, there is a small box prepared to receive your deeds, securities, and other valuable possessions.

For a small fee you can rent this Safety-Deposit-Box in the vaults of this Bank.

Would you Accept Skim Milk? When you Ask for CREAM?

NO! You know that all the goodness has been taken out of skim milk!

But do you know that exactly the same thing is happening today with the so-called Molasses, blends and table syrups with which the Canadian market is flooded?

Do you know they are taking 9 pounds of good sugar out of the gallon of cane syrup and selling you the refuse as Molasses! Or mixing it with common glucose for table syrups?

And now it costs no more than molasses!

Plantations Limited are supplying Canada with the real, old time, whole-sugar Barbados—the pure concentrate of the finest, ripest sugar cane—every barrel branded "Windmill".

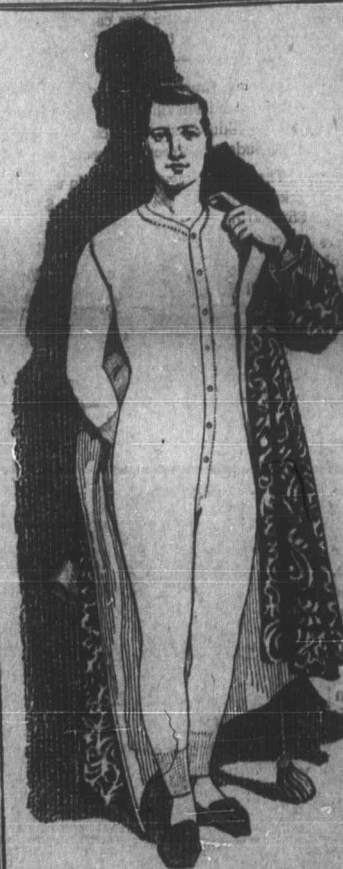

Now you know the facts, help in the good cause by demanding the genuine

Windmill Barbados Super-Fancy

Tell your dealer you MUST have "Windmill" Barbados. He sells it in bulk—any quantity! Never in sealed cans or containers. You cannot imitate the Barbados. It would explode!

Soft as Down

AND warm as the coat of the maritime sheep from which they are made—Atlantic Underwear protects thousands of men from the icy blasts and piercing winds of a Canadian winter.

To wear Atlantic Underwear is merely to transfer the thick, warm, heavy woolen coat of maritime sheep to the back of the purchaser.

Atlantic Underwear will outwear any other line at the same price.

Its cut and fit is one calculated to satisfy the "hardest to please" customer. Try it—then lay in your winter stock.

LOOK FOR THIS TRADE-MARK—IT IS YOUR GUARANTEE

ATLANTIC UNDERWEAR, Limited - Moncton, N.B.

SAVE MONEY!

AND BUY YOUR MILK AND CREAM THE NEW WAY.

Commencing October 1st we will deliver Milk and Cream on the ticket basis. This system is used in many of the large up to date dairies and is giving excellent satisfaction. The customer buys a strip of tickets at the door from the milk-man, and each morning deposit a ticket in the empty bottle to pay for the milk that morning. All tickets will be redeemed for cash in case the customer goes away before using them. This method does away with any book-keeping and allows us to give the customer a substantial discount. This discount will be announced later as the tickets have not yet been printed.
