

## 72 Days of Dish Washing

You spend two hours every day washing dishes. That's 720 hours a year or 72 days of ten working hours each. This means that half the time is wasted. For with Taylor's Borax Soap you finish your work in one hour instead of two.

Isn't it worth five cents to have 36 days a year to yourself—to have cleaner and sweeter dishes than ever before with less than half the work?

# Taylor's Soap

This wonderful soap is unlike any other you have ever known. It digs into the corners of dishes and loosens the dirt almost like magic. It cuts away grease and leaves the surface clean and polished.

Hard water makes hard dish washing, but Taylor's Borax Soap softens the hardest water and so makes the work easy. But it does more than soften the water—it softens the hands and leaves them even whiter than before.

With this soap you have all the bother of rubbing and most of the scouring. You simply have no idea of the work this soap can save—further, the greatest surprise you have ever known.

The glassware has a lustre that fairly sparkles with brilliance. The china ware looks as fresh and inviting as new.

No soap could be purer than this, for during the boiling process we run thousands of gallons of clean water through the soap. Thus every impurity is carried away and the soap is absolutely clean.

Borax also sterilizes and sweetens. It kills every germ and leaves no possibility of contagion. It destroys all odors and leaves a clean scent that is simply delightful.

PROMINENT TORONTONIANS SAID TO BE IN VENTURE.

Object of Trip of Curtiss Machine to Toronto to Evade Injunction Proceedings Begun at the Instance of the Wright Brothers.

New York, Aug. 25.—The American Aeronautic Society is divided over the announcement that the Curtiss biplane, which won the Scientific American trophy by flying thirty miles in 32½ minutes near Mineola, L. I., at the end of last month, and which is the original of the model Glenn H. Curtiss is using in the international races at Rheims, to be taken to Canada for a series of trials. It is said that the real reason for the removal of the "Golden Flier" across the line is that the Wright brothers, Orville and Wilbur, have brought suit in the United States Circuit Court here against the Aeronautic Society of America, of which the brothers are honorary members, charging infringements of patents. The Wrights assert that the society has violated the patent laws by exhibiting the biplane built by Glenn H. Curtiss. It is their contention that Curtiss had appropriated many of their devices. An attempt will be made to restrain the society from further flights.

Toronto, Aug. 26.—A report that a syndicate of well known Canadians would become interested in Canadian efforts at aerial navigation has been in circulation for the past few days. The Curtiss biplane will be brought to Toronto, but the auspices under which it will be exhibited have not yet been entirely determined. The flights have been alternately announced as being under the business direction of the Canadian National Exhibition Association and Scarborough Beach Park. Another report is to the effect that the flights would be under private auspices, and that a syndicate of local men would finance the attempted aerial trips across Lake Ontario. Mr. D. D. Mann, of Mackenzie & Mann, whose name was mentioned in the connection, is known to have expressed a wish that a flight should be attempted at his summer home, Fallingbrook, on the lake shore, near the Hunt Club. Mr. John C. Eaton, head of the T. Eaton Company, has also made arrangements during the past few days to place his clipper yacht, the "Teckla," at the services of Mr. Willard for the local flights. The Teckla will follow the voyage of the "Golden Flier" so far as possible, and will report the progress of the trip by wireless. The apparatus for the wireless messages is installed on the fast yacht and on the Eaton store. Mr. Eaton said he believed the "Golden Flier" would be housed at Scarborough Beach.

## WONDERS OF THE HUMAN BODY

Why Many People Never Need a Doctor.

You have a natural laxative in your body. Why, then, should you use a false purgative to move the bowels? Bile is nature's laxative. It is bile—and bile alone—which moves the bowels as they should be moved. The liver pours forth the bile into the bowels, which stimulates them to move, and thus causes the waste matter to pass from the body.

Constipation is a disease, OF THE bowels, but CAUSED by the liver. When the bowels do not move regularly and naturally, it is because the liver is not giving up enough bile. And the only possible way to cure Constipation, is to cure the liver.

Calomel, cascara, salts, senna, common pills, and sweet lozenges and all the other purgatives do not act on the liver at all. They merely irritate and inflame the bowels.

"Fruit-a-tives" cure Constipation because they act on the liver. The fruit principles stimulate the liver to secrete and give up enough bile to move the bowels, while the tonics and antiseptics tone up and invigorate the muscles.

"Fruit-a-tives" are the only medicines ever discovered that will cure Constipation, Biliousness and all other troubles due to a Torpid or Disordered Liver. 50c a box, 6 for \$2.50, or trial box, 25c, at dealers or from Fruit-a-tives, Limited, Ottawa.

## The Man Who Whistled

(By Frank H. Williams.)

Maribel Olds was puzzled. Her pretty forehead was creased by a frown of thought and her pretty lips were pursed in speculation. Was it merely accident that made bashful Harry Cochran always whistle some sentimental ditty when he was near Alice Brown? Alice and Maribel were inseparable friends, and consequently Maribel was intensely interested in any little affair of her chum, and when well, Maribel had a tender spot in her heart for Harry herself.

She decided to put the question point blank to Harry. He might answer it or not—at any rate, he would become delightfully embarrassed, and Maribel took an unholty joy in pestering him.

Consequently, when Harry passed the

ASHAMED OF HER WEAKNESS, SHE HURRIED INTO THE HOUSE.

two girls, loudly whistling, "Won't You Be Mah Honey, Baby Mine?" she released her arm from Alice's engaging hand and advanced to Harry.

"Harry," she said, a mischievous light in her eyes, "is it because you're crazy about Alice that you whistle all those lovesick melodies when you see her?"

To Maribel's intense surprise Harry failed to turn red. He merely glanced at her with a whimsical air, and then, touching his hat, walked off. But as he walked he whistled, "Can't You Guess the Answer, Dearly Beloved?"

Although considerably surprised at Harry's self-possession, Maribel decided that his answer was sufficient. He was in love with Alice. She could not suppress an involuntary sigh as she rejoined her chum. Harry was a dear boy, and she felt sure that he would make Alice very happy.

Late that afternoon, after leaving Alice at the latter's house, she again met Harry. He walked home with Maribel and again she was surprised. He did not appear to be embarrassed or bashful in the slightest degree. Evidently being in love had affected a great improvement in him. Then, when he left her at the gate, he started whistling a new tune. Maribel recognized it as the air of a new song, just out. The title of the song was "I'm Longing, Dear, to Hold You in My Arms."

Although Maribel knew that the song was not meant for her, it thrilled her strangely. She felt the blood rush to her face, and, ashamed of her weakness, she hurried into the house.

A night or so later Harry was to call on Maribel. She had debated whether she should allow him, as she felt that he was in love with another girl, but had finally decided that as he was not publicly engaged it would be all right. As Harry mounted the steps of her house that evening she heard his inevitable whistle. This time the tune was that of "Sweetheart, I've a Tale of Love to Tell You."

That was the last straw. Maribel decided that she could not allow Harry to whistle such tunes at her or to her any longer. Of course, she felt that he meant nothing by it, but it was getting on her nerves. Any yet she couldn't directly say anything about it to him, because that would show him that she really cared for him. Accordingly she hit upon the happy plan of instructing him through a song which she would play to him on the piano. The song that she played was this, "Don't Make Love to Me When Someone Else Has Got Your Heart." She played it several times so that Harry could not mistake her meaning.

But Harry only smiled. Then he started whistling again. His tune this time was "It's You I Love—You—You—You!" And somehow, a moment later, Maribel found herself laughing happily, her head upon his shoulder, his arms about her waist.

### Everybody Should Visit Canada's Greatest Exhibition.

On account of the Canadian National Exhibition, the Grand Trunk Railway System will issue return tickets at single fare to Toronto from all stations in Ontario, west to Cornwall and Ottawa, August 28th to September 11th, inclusive. Good returning from Toronto on or before September 14th, 1909.

Special low rate excursions will be run from all points on certain dates, giving patrons of the Grand Trunk an opportunity of visiting Toronto at very small cost.

Don't fail to call on nearest Grand Trunk Agent for full particulars.

### AGAINST SAFETY EXPLOSIVES.

6,000 Coal Miners Strike in the Pittsburgh District.

Pittsburgh, Aug. 25.—Five thousand coal miners in the Pittsburgh district today refused to work, striking against the new safety explosives which have been provided by the State. The trouble threatens to spread and tie up all the mines of the Pittsburgh district. The Department of Mines of Pennsylvania has ordered the abolition of black powder for decades, and instead they order the use of carbonate fulment or other similar explosives named. The angry miners threaten to uncover a great scandal in this connection unless the order is withdrawn.

Christy's Bleached and Fancy Bath Towels, good, useful size; regular good 35c Towels, at, per pair ..... 25c

ESTABLISHED 66 YEARS AGO **THOMAS C. WATKINS** HAMILTON, ONTARIO

## BROKE RECORD.

French Aviator in the Air For Nearly Three Hours.

Covered Eighty-Two Miles—Glenn Curtiss' Flight.

Rheims, A. G. 25.—Paulhan, who was already the hero of the aviation meeting, won fresh laurels this afternoon by breaking the world's record for time of flight and distance covered. Rising at 3.31, he circled the track thirteen times, descending after having been in the air 2 hours, 43 minutes and 24.45 seconds. He came down because his supply of petrol had been exhausted. He had sailed a distance of nearly 131 kilometres, or nearly 82 miles, to the last post passed in the race. How far he went past this post will only be known when the distance is officially measured to-morrow morning. The prize was an aeroplane offered by Voisin, and it was in this machine that Paulhan made his great flight to-day.

About 7 o'clock, when the wind had died out almost to nothing, Glenn Curtiss went out to try to cut down Bleriot's record of 8 minutes 4.25 seconds, made yesterday, and bettered his previous record by 24 seconds, but was over seven seconds behind the mark set by Bleriot. Latham made six attempts at flights to-day, but only succeeded once. This time, in a smaller Antoinette, he established a score of thirteen miles for the Champagne duration prize.

In addition to the foregoing, fifteen attempts were made by various pilots which failed entirely. After the official flying hour for flights had passed, many of the artificial birds took the air. Six could be seen at the same time, flitting around in the dusk.

## CHEQUE WAS WORTHLESS.

Young Bank Clerk Arrested in Chicago—Uncle in R. N. W. M. P.

Chicago, Aug. 25.—James E. Thomas, twenty-two years old, of Toledo, Ohio, a bank clerk, was arrested last night when he attempted to pass a bogus cheque for \$35 at the Brevort Hotel. After admitting that the cheque was forged, he was sent to the Harrison street station. He asked the police to notify his uncle, James O. Wilson, general superintendent of the Royal Northwest Mounted Police of Canada, of his arrest. He said he had been wandering about the country for two years, and that this was his first offence.

## Bowmanville Board of Trade.

Bowmanville, Aug. 25.—A Board of Trade was organized last night, with W. F. Stearns, manager of the Durham Rubber Company, as President; J. B. Mitchell and C. Rehder, Vice-Presidents. Council, Messrs. F. E. Morris, F. J. Horne, Geo. James, C. H. Anderson, Dr. Hazellwood, A. Tait, T. H. Knight, A. E. Lovell and F. C. Vanstone. Treasurer, F. J. Mitchell; Secretary, C. W. Lawton.

## AFRICAN METHODIST

Annual Conference Opens; Large Attendance.

Covered Eighty-Two Miles—Glenn Curtiss' Flight.

Toronto, Aug. 26.—The twentieth session of the Ontario annual conference of the African Methodist Episcopal Church, which continues until Sunday, opened yesterday morning in the A. M. E. Church, Elizabeth street. Bishop C. T. Shaffer, D. D., of Chicago, Ill., presided, and the annual sermon was preached by Rev. J. W. Jarvis, of Chattanooga, Ont., from John xiv, 19. After the sermon the sacrament of the Lord's supper was administered by Bishop Shaffer. Among those present at the conference are: Rev. T. H. Henderson, B. A., of Hamilton, Ont., and Mrs. Henderson; Rev. R. Hatchett, Hamilton, Ont.

The following committees were appointed: Home and foreign missions—Revs. A. W. Hackley and J. P. Stevens, Temperance—Revs. J. P. Stevens and W. D. Shannon. State of the church—Revs. G. H. Henderson and A. W. Hackley. Education—Revs. T. H. Henderson and A. W. Hackley. Ministerial inefficiency—Revs. J. W. Jarvis and T. H. Henderson.

The evening session took the form of a reception tendered by the local church to the members of the conference. Bishop Shaffer presided, and Mayor Oliver gave an address of welcome. Bishop Shaffer brought the day's session to a close by a brief address.

## GIRL MISSING.

Left Welland Hotel, Montreal, For a Chinese Laundry.

Montreal, Aug. 25.—Alice McDonough, a 17-year-old girl, has been missing since Monday night. She left the Welland Hotel, where she was employed, to go to a Chinese laundry on McGill College avenue, a couple of blocks away. The proprietor of the laundry, King Fung Sun, and his assistants, swear that the girl did not come there on Monday night; that the little parcel of laundry she was bringing there was not received.

There seems to have been absolutely no reason why the girl should have disappeared of her own free will. She had gone out without either hat or coat. Wages for the past two weeks were owing to her. She had seemed to please and to hold the position she had taken. She had no friends in the city.

Before coming to Montreal the girl had been employed in a hotel at Rock Island on the Vermont border. Her home is believed to be in Magog.

## FOR ROBBING EMPLOYERS.

Two Nightwatchmen Given Terms in Central Prison.

Toronto, Aug. 26.—The seriousness of breach of faith to an employer's trust was emphasized by Judge Denton yesterday when John Le Page and Hugh McDonald, two nightwatchmen, appeared before him, charged with robbery. Le Page had been employed by the Heintzman Piano Company for some time, and was left in complete charge of the premises during the night. This position of trust he abused from time to time by robbing from the company. His Honor considered the offence too serious to receive lenient treatment and sentenced the prisoner to six months in the Central Prison.

Hugh McDonald, a colleague of Le Page, was arraigned on a similar charge. As nightwatchman for the Comfort Soap Company he had used his position to rob and steal. It appeared that Le Page had persuaded McDonald to take the first false step. For this reason His Honor made the sentence three months in Central Prison.

## BRIDE KILLED.

Angered Because Young Man Married Sister of Girl Selected For Him

Threatened to Ignore Disobedient Son in Will and Met Defiance.

South Norwalk, Conn., Aug. 25.—Infuriated because his son had eloped with the sister of the bride he had selected for him, James Cavanaugh, a retired brass worker, shot and killed his pretty daughter-in-law to-day and then fired a shot into his own head, from which he died in a few minutes.

The murder and suicide took place in the presence of Mrs. Peter Barry and Miss Mary Cavanaugh, the step-daughter of the dead man.

There has been bitterness in the Cavanaugh home ever since James Cavanaugh, jun., came home with his wife. He had abandoned Sarah Fitzgerald for Nellie Fitzgerald, who was younger and prettier. The father resented this change of heart, and he and his new daughter-in-law had frequent quarrels. To-day the elder Cavanaugh declared his intentions of cutting off his son and daughter in his will and of driving them out of his house.

"I'm satisfied as long as I've got Jim," replied the bride, and at that he shot her twice in the head. She fell dead.

"I'm glad I did it, but this is no place for me now," remarked the murderer, and while Mrs. Barry and the step-daughter ran screaming from the house he fired a bullet through his brain. The dead man was sixty years old and his victim twenty-six.

## DOCTORS ASK FOR

Dominion Registration and Some Provinces Have Already Agreed.

Winnipeg, Aug. 25.—The Canadian Medical Association to-day almost unanimously committed itself to the principle of Dominion registration. This important question formed the principal topic of discussion, and the debate was keen and protracted. The pronouncement carries great weight because of the fact that the convention was a very representative one. Four of the western provinces are contemplating such action and really have an understanding now. The attendance was the largest on record, 342 members being registered, which is ten more than ever before. The attendance was distributed according to Provinces as follows: British Columbia, 8; Alberta, 16; Ontario, 72; Quebec, 11; Maritime Provinces, 8, and complimentary, 18.

Toronto was selected as the next place of meeting, and officers were then elected as follows: President, Dr. Adam H. Wright, Toronto; Vice-President, Dr. H. B. Small, Three Rivers; General Secretary, Dr. Elliott, Toronto; Treasurer, Dr. H. B. Small, Ottawa; Local Secretary, Dr. R. P. Campbell, Montreal.

The convention proceedings concluded with a delightful steamboat ride on the Red River this evening.

## Thought Circus Performers Were Spies

The performance at a Belgrade circus of which Herr Schmidt, an Austrian, is the proprietor, was broken up yesterday by a hostile demonstration of a political character.

The cause of the disturbance was a newspaper report that the circus performers were really Austrian officers disguised for espionage purposes.—From the London Evening Standard.

## RANK INGRATITUDE.

Patriot Brunet Turned Down by Aldermen He Helped.

Montreal, Aug. 25.—Rodolphe Brunet, the patriotic friend of the French-Canadian, had a hard time of it to-day before the Royal Commission. Yesterday he was quite communicative, but to-day information had to be dragged from him. He finally became angry, and stated that the Royal Commission was worse than the Spanish Inquisition. He was compelled, however, to answer, and finally admitted accepting commissions or take-offs from the Lawrence firm of paving contractors and of using his "influence" with the aldermen to get their products accepted. He also furnished a list of the amounts he contributed towards the election of certain aldermen, as follows: Mr. Resther (1902), \$75; Mr. Larocque, \$75; Mr. Rochon, amount not specified; Mr. Houde, amount not specified; Ald. Duquette, \$100 to \$200; Ald. Lamoureux, \$50; Ald. Sadler, carriages; Ald. J. B. A. Martin, amount not specified (several hundred dollars); Ald. Major, \$300 to \$400; Ald. Noe (recently \$200; Ald. Labrecque, \$100 (recently elected for Delorimier).

In this connection Mr. Brunet had to relate two pathetic incidents: both to relate to his lack of farm help.

He added: "The excursions have not been so large this year as we expected, but we still hope that those that are to follow will be more largely patronized. There is work, as I have stated, for at least eight thousand men in Manitoba and for possibly as many more in the Provinces in the west. Wages are, I think, reasonably good, running from two to three dollars a day, according to the strength and ability of the man. Eastern Canada is largely interested in the crop being safely garnered, and we appeal to them to assist nered, and we appeal to them to assist the young men they can spare to save the best crops the west has ever been blessed with."

Hon. W. R. Motherwell, Minister of Agriculture for Saskatchewan, who is here to-night, declares that there is a serious shortage of farm labor in that Province. He is anxious to have at least five thousand more harvesters from eastern Canada. Unless this number of men is secured soon, the farmers will lose heavily. From all points urgent calls for additional help are coming in.

## FOR MURDER.

Police Description of the Fugitive, John Robinson.

The authorities at Sudbury request that the following official circular be given publicity in the hope of securing the apprehension of the man named therein:

Wanted for murder—James Robinson, of the township of Hugel, seven miles from Warren, Ont., seduced his eldest two daughters, and by him the elder, barely 19, has given birth to two infants, and the younger, not yet 18, is about to be delivered of her third. Mrs. Robinson has confessed to the murder of two of these infants in one week, March, 1908, and implicates her husband as accomplice. When last seen, on or about Aug. 12 last, Robinson wore a dark suit, black fedora hat, black shirt with white stripes, No. 7 hand-made boots. Description: Aged 30, grayish light red hair and mustache, peculiar clear blue eyes; reddish purple complexion, especially in cheeks, one tooth missing near front of mouth; height, 5 feet 7 or 5 feet 8; weight, 150 to 155 pounds; walks with short nervous quick steps, speaks quickly, slightly ruptured, left foot angles out. Probably making for some lumber camp, as he is a skilled woodsman, but likely to keep moving, seeking further escape. Will travel under alias, likely Ross. Has brother working in tannery near Sault Ste. Marie, Mich. All information thankfully received by the sheriff or the crown attorney at Sudbury, Ont.

## MANITOBA'S CRY.

REQUIRES MANY MORE HARVESTERS TO SAVE CROPS.

Eight Thousand Are Required and Not Quite Five Hundred Are in Sight—Saskatchewan is Also in Need of Men.

Winnipeg, Man., Aug. 25.—That Manitoba will soon be in desperate straits unless sufficient help be immediately secured to garner her big crop was the gist of an important statement made to-night by Premier Roblin. "The grain in this Province is not only ripe," said Mr. Roblin, "but is nearly all out. The serious problem at this moment is how it is to be taken care of until it reaches the elevator. The supply of farm laborers is totally inadequate to the demand. Eight thousand men are wanted to-night in this Province, and there are not more than five hundred in sight at present. The grain that has been cut is lying at it fell from the binder, and thrashing machines are standing idle. Rain or unfavorable weather at this time would do millions of dollars' worth of damage, and all this for lack of farm help."

He added: "The excursions have not been so large this year as we expected, but we still hope that those that are to follow will be more largely patronized. There is work, as I have stated, for at least eight thousand men in Manitoba and for possibly as many more in the Provinces in the west. Wages are, I think, reasonably good, running from two to three dollars a day, according to the strength and ability of the man. Eastern Canada is largely interested in the crop being safely garnered, and we appeal to them to assist nered, and we appeal to them to assist the young men they can spare to save the best crops the west has ever been blessed with."

Hon. W. R. Motherwell, Minister of Agriculture for Saskatchewan, who is here to-night, declares that there is a serious shortage of farm labor in that Province. He is anxious to have at least five thousand more harvesters from eastern Canada. Unless this number of men is secured soon, the farmers will lose heavily. From all points urgent calls for additional help are coming in.

## LOST THIRTY DAYS.

Man Lived All the Time on Berries and Roots.

Fort William, Aug. 25.—Lost in the wilderness for thirty days, during which time he subsisted entirely on berries and roots, is the almost unheard of experience of Herbert Reeves, aged thirty years, who was admitted to the hospital here this morning.

Wanted in form, he was found by a band of Indians near Gull River, forty miles from Schreiber, where for many days he had lain almost too weak to procure the scant food which he had been eating before.

When the Indians discovered him he was almost demented, and endeavored to hide himself, but he fainted in the effort.

Reeves had been working in a lumber camp, but he left over a month ago to walk overland to the Canadian Pacific and was lost en route, and was without food or a gun. He still remembers, but only at random, some instances of his terrible pilgrimage. He says his home was formerly in Macon, Georgia, and that he had served in the U. S. Army.
