Mer

Funeral.

The funeral of the late William Sadler on Sunday last, was be rely attended. The Freemason Societ of Chatham marched in procession; and the number marched in procession; and the number was increased by several of the brother At hood from Newcastle lodge. There was a long procession of carriages, and persops on foot. Before the burial ritual ended, a violent storm came on, accompanied with suffocating dust squalls.

The Judge Again Before Court.

Judge Steadman is again before the court for illegal fishing. The Judge and Messrs. Phair and Hanson have lately been on a fishing tour to the Miramichi. and fished off their own lands without ored license, claiming the right to do this as riparians. Mr. Robert Orr the efficient overseer at Fredericton, notified Mr. Venning of the fishing, and the two accompanied by the Deputy Minister of Justice of St. John, proceeded to the spot and found the parties fishing. The trio have been cited to appear before a country magistrate to answer the charge.

A Tramp Caught.

Previous to Friday last, a tramp had been seeking ten-cent jobs from several people here. His objectwas to get a chance to "take something." On Friday night he got into the Montreal Bank building, alarming the inmates. Mr. Carmichael one of the nearest residents, on being awakened went over and secured the prowler. He was taken to the lock up, and the following articles were found upon him:-1 coat belonging to Mr. nedict; 1 handkerchief belonging Mr. Ambrose; 1 bottle of whiskey. owner not stated. Some jet jewellery. On examination the tramp gave his name as Reine, and he was sent to the County jail to await trial.

which office he remained until transferred to the Public Works, 9th December, 1869. Was, while at theState Department, ex officio Registrar-General of Canada, and Superintendent General of Indian aflairs; was acting Minister of Militia and Defence in 1872.

RICHARD DAVIDSON.

The Right Kind of Enterprise.

Last fall Dr. Baxter purchased a farm in Napan Settlement, containing 200 acress of first class land, a large portion of it cleared, and much of it covered with a second growth of trees. Since pur« chasing he has had mechanics employed in building, and there is now erected a first-class farm house, well laid out, and and plastered; likewise a fine substantial and roomy barn, that is not equalled in the settlement. The barn is surmonted by a cupola and will have a vane on the top. When both the buildings are finished, they will be a credit to Napan, and to the well-directed enterprise of Dr. Bax- the ter. It has cost not a little sum to put these buildings up, but is not money so me expended to much better use than lying tive in the savings bank at 4 per cent, or frittered uselessly away? Dr. Baxter has a purpose in this outlay. He has a man on his farm, and this year has put in 12 or 15 acres of grain besides a large quantity of potatoes. The doctor proposes going further than mere farming. He will purchase a large number of chickens, ducks and geese, and will keep : a couple of hundred each for propegat-He will have a man especially to ing. attend to this; and will be able to supply at least a thousand birds to the mar-kets during the year best as an immense a quantity of eggs. He will have the best tocks, and will take care that the reeding is carried on on the best prin- nu i iples. Dr. Baxters idea is we think a s cood one. We know of no more promi sing speculation; and wonder a similar e ffort has not been made before.
