SAYS HOT WATER WASHES POISONS FROM THE LIVER
Everyone should drink hot water with phosphate in it, before breakfast.

To feel as fine as the proverbial fiddle, we must keep the liver washed clean, almost every morning, to prevent its sponge-like pores from clogging with indigestible material, sour bile and poisonous toxins, says a noted physician.

If you get headaches, it's your liver if you catch cold easily, it's your liver if you wake up with a bad taste, furred tongue, nasty breath or stomach becomes rancid, it's your liver. Sallow skin, muddy complexion, watery eyes all denote liver uncleanness. Your liver is the most important, also the most abused and neglected organ of the body. Few know its function or how to release the damped-up body waste, bile and toxins. Most folks resort to violent calomel, which is a dangerous, salivating chemical which can only be used occasionally because it accumulates in the tissues, also attacks the bones.

Every man and woman, sick or well, should drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, to wash from the liver and bowels the previous day's indigestible material, the poisons, sour bile and toxins; thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Limestone phosphate does not restrict the diet like calomel, because it

MALE HELP WANTED

WANTED—Boys to deliver The Evening Journal in Thorold district...

AGENTS WANTED

MAN to work this city refinishing chandeliers, brass beds, automobiles, by new method. \$10 daily without capital or experience. Write Gunmetal Co., 315 Elm, Decatur, Ill.

SALESMEN WANTED

Sell stock in Oil Companies. Make one thousand dollars week. Hundred dollars invested. Trapschoters paid Sixty Thousand. Supplies free. Write Big Southern Company, Fort Worth, Tex.

LOST AND FOUND

LOST—A MARKER NO. 6993 BETWEEN Thorold and Albionburg or Lundy's Lane. Finder kindly phone 132, Thorold.

APPLICATIONS FOR ROAD SUPERINTENDENT TOWNSHIP OF LOUTH
Applications will be received up to and including April 12, 1919, for the office of Road Superintendent for the Township of Louth for the season of 1919. Services to commence 1st. May.

Any application not necessarily accepted.

M. A. BALL, Clerk, Township of Louth. Dated March 14th, 1919.

can not salivate, for it is harmless and you can eat anything afterwards. It is inexpensive and almost tasteless and any pharmacist will sell you a quarter pound, which is sufficient for a demonstration of how hot water and limestone phosphate cleans, stimulates and freshens the liver, keeping you feeling fit day in and day out.

Dr. Walter Keene Wilkins pleaded not guilty at Minerva, N.Y., to an indictment charging him with the murder of his wife at their Long Beach home on Feb. 27. He was held, without bail, for trial.

One hundred million dollars was advanced by the U. S. War Department to the railroad administration to assist in tiding the roads over the period until additional funds are made available by Congress.

The late Mr. Chas. Haek of Grant-ham, whose funeral took place to-day was a veteran of 1863 and served in the Lincoln troop of Cavalry during the Fenian Raid.

The City of Hamilton has again succeeded in landing a million dollar capitalized factory in that city. It is a branch of a large New York Company engaged in the manufacture of meters.

The J. D. 'Tat' Coy is holding a six days sale this week and offering some special inducements. Journal readers should patronize this progressive firm.

FINE CONCERT AT HOMER CHURCH
The little village of Homer was very much alive on Monday night when the Union Choral Society of Merriton put on one of their splendid programmes in the Methodist Church assisted by a twelve piece orchestra. The Church was packed to its utmost capacity, there not being heating room for a number who had to stand during the programme. During the absence of Rev. Mr. Honey, ex-mayor James A. Wiley of St. Catharines, very ably acted as Chairman, and at the beginning of the programme made a very neat speech. The Union Choral rendered a number of pleasing choruses which were heartily received, but owing to the lengthy program encores had to be declined.

The Programme
—A mixed quartette composed of Miss Ethel Dell, Mrs. Robert Turner, Wm. Suckling and Frank Wilson, sang a southern air by special request, they also being forced to decline an encore. A duet "The Bitter Sweet" (Caroline Lothian) by Mrs. Turner and Miss Ethel Dell, received hearty applause.

Miss Theresa Williamson sang "I love you truly," and for her second number sang "A wearying for you" which was much enjoyed.

Mr. William Suckling, in his bass solo "Anchored" pleased to such an extent that he appeared again and rendered a patriotic number.

Mr. Charles Jervis, also received hearty applause when he sang his baritone number "The Veteran Song."

Miss Ariel Flett, gold medalist, of the Owen Sound Collegiate Institute, who is at present engaged at Ridley College, gave several readings in such a humorous style that roars of laughter came from all parts of the audience and she on each number, received double encores. No doubt Miss

WANTED

A working man would like to make the acquaintance of lady about 32. A. Burley, General Delivery, Post Office, St. Catharines.

Be Your Own Boss start a cut-rate grocery business of your own. \$25 to \$50 invested should earn you \$25 weekly. H. V. Martin, Windsor Ontario.

WANTED—A COOK GENERAL wanted. No washing, nice home, good wages, first class girl, references, 454 Queen street, S. Hamilton. m 24 25 26

A CURE FOR THE BLUES
Music is a sure cure for the blues, hence a Victrola will cure the blues for it means music of every kind. Why not call at Heintzman Hall, 88 St. Paul Street, and see some of these instruments and hear some grain records. Very easy terms can be arranged if desired.

Flett will be engaged at Homer again in the near future.

Mrs. Joseph Martin, of Thorold, was in the best of soprano voice, and the applause was so great that she had to make another appearance. Her second number was received equally as well as her first one.

Not too much can be said of the twelve piece orchestra that rendered several selections during the evening. This orchestra has only been organized a short time, and the artistic music used as well as the feeling displayed will no doubt make a very popular musical organization in the very near future.

GERMANY WILL NOT SURRENDER TERRITORY

(Special to The Journal)
Berlin, March 26.—I take a most solemn oath that the Government will not surrender to the enemy one inch of German territory, either east or west," said Dr. Schiffer, Minister of Finance in the new cabinet. In addressing a great crowd in front of the Chancellor's palace on Sunday.

NEW SILVER RATE
(Special to The Journal)
London, March 26.—The Government has fixed a new maximum price for silver, dating from today. It is equivalent at the current rate of exchange to 95 cents per standard ounce.

FORMER PREMIER MURDERED
(Special to The Journal)
Berne, March 26.—According to an unconfirmed rumor reaching Prague from Budapest, former Premier Karolyi of Hungary has been assassinated.

Cereal Grains for Bread-making.
On this continent and in Europe we use wheat in much larger quantities than any other grain. This is because the flour made from wheat contains the constituents necessary to form gluten. Rye contains a similar substance to a lesser extent, while the other grains do not have any of this material. Gluten is a tough, elastic, tenacious substance, capable of considerable expansion. Consequently when the gas liberated through the action of yeast seeks to make its way out of wheat flour dough the gluten expands, retaining the gas and causes the dough to rise. When the bread is baked the gluten is "set" or coagulated, and this accounts for the light porous structure of wheat bread. When surrounded by a proper crust the moisture is retained and the bread may be kept for several days and still be an attractive article of food. Rice, oats, corn and barley cannot be used alone to prepare bread of this type. They cannot be expanded by means of yeast for their is no cohesion in the mass. They may be used in making biscuits and cakes or quick breads, which breaks easily, dries out readily, cannot be safely transported, and must be consumed within a few hours after being prepared.

On the other hand, there is comparatively little difference in the composition of the various cereal grains and consequently one will furnish about as much digestible nutrients as another. If, then, in a time of wheat shortage like the present, we substitute some of the flour of corn, oats, barley, buckwheat, etc., for wheat flour in making bread, we do not decrease its nutritive value. We do dilute the gluten and thus limit the power of expansion of the dough and we make the bread darker, but we have retained the desirable features of bread. Silkeness of texture and whiteness of crumb were counted points of excellence in the bread of the old high patent flour, but under the present conditions of longer extraction of the wheat grain and the introduction of substitutes, it is wrong for the consumer to place a high valuation on these points.—Prof. R. Harcourt, O. A. College, Guelph.

SENATOR TAYLOR DEAD
(Special to The Journal)
Ottawa, March 26.—Senator George Taylor of Gaitanogue died this morning.

Mr. Robert Patterson, the well known meat vendor of St. Paul Street east, is said to be very ill.

FALL FAIRS PAY WELL
Prepare Now to Harvest and Store Root Crops.

Best Mixtures and Methods of Making Bread With Flour of Various Cereal Grains.

(Contributed by Ontario Department of Agriculture, Toronto.)

TO the general farmer who grows good grain for seed to the specialist in garden and truck crops, and particularly to the live stock man the Fall Fair offers an opportunity. It pays to advertise and the Fair is the place where the people see the goods produced, and seeing is believing. Moreover, the papers report the windings and through these the exhibitor gets a large amount of advertising free which would otherwise cost him a considerable sum of money. Winning in close competition under a competent judge adds dollars to the value of stock shown and increases the market price of any commodity as well as giving the exhibitor a standing not only in his own community but over a section of a country corresponding to the size and influence of the show at which prizes are won. The Fair is a good place to advertise and to see the goods of the exhibitor made and enquire about the breeding stock at home. Stockmen show at Fairs largely to make sales rather than to win prizes and the latter is a factor in the sales and they are not disappointed as evidenced by the growing interest in the Fall Fair. Showing a newspaper advertising policy, which should never be neglected, is good business. The two go together and work hand in hand. It pays to let others know of your good stock. Use printers' ink and show at the Fall Fair—Prof. Wade Tote, O. A. College, Guelph.

Hints on Harvesting Root Crops.
Root crops should be taken up before the weather becomes too wet and disagreeable in the fall if in any quantity. It is slow work at any time and more so when the weather is cold and damp conditions. Lift the roots with a digging fork and twist off the tops, putting them in piles and covering with the tops. If a large area is to be lifted, and one is expert with a sharp hoe, he can very quickly remove the tops, but they will not keep quite as well. The roots should be ploughed out, throwing them as much as possible on the top. If the soil is sticky and bottom should be used for storage where possible, as this gives the roots a chance to sweat. If the storage room temperature is above 40° F. cover them with sand. Celeriac should not be deeper than two feet in bins, others may be four feet. Where cellar storage is not available use pits. These should be three feet wide, two or three feet high and of any length. Run a trench and sow wheat where possible, and have them on well-drained ground. Put a layer of straw on the ground and cover first with straw 6 inches deep then 8 inches earth, and as the frost gets harder cover with fresh straw manure. Have ventilators every 15 or 20 feet, as all roots sweat in storage. These may be filled with straw during cold periods.

All roots should be as free from dirt as possible when put in storage. It is often advisable to leave a few days in small piles so that at the second lifting any adhering will be removed.—A. H. MacLennan, B.S.A., Ontario Vegetable Specialist.

CHATHAM, ONT.—As a girl I was wonderfully helped by taking Dr. Pierce's Favorite Prescription. I had become all run-down, weak and nervous. I suffered with terrific headaches. I also suffered from depression and pain. My mother gave me "Favorite Prescription," and it so completely regulated my condition that I have never had any trouble since. There is nothing so good for girls or women who suffer as Dr. Pierce's Favorite Prescription.—Mrs. Wm. Mason, 136 Wellington Street, E.

WRIGHT'S HOME-MADE BREAD
Now that the restrictions are off regarding the use of substitutes, our Bread is back to the high Standard we set previous to the war. Our genuine Home-made Bread is scarcely touched by hand, having in our equipment the most sanitary system of handling it. This machine costs a lot of money, but we believe it is hygienic and more sanitary than by hand. Therefore it pays in these days when germs are so easily spread, the handling of food stuffs should be carefully done. We believe the public will appreciate our system of doing this.

SUFFERED TERRIBLE AGONY

"Fruit-a-tives" Alone Gave Him Quick Relief

Buckingham, Que., May 3rd, 1915.
"For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, and I had chronic Constipation. I tried many remedies but nothing did me good. Finally, a friend advised 'Fruit-a-tives'. I took this grand fruit medicine and it made me well. To everyone who has miserable health with Constipation and Indigestion and Stomach, I say take 'Fruit-a-tives', and you will get well."

ALBERT VARNER.
50c. a box, 6 for \$2.50, trial size 25c.
At Dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

As will be noticed by the reports of proceedings, the City Council has approved of a report from the Committee on Works which proposes a rather extensive programme of construction of pavements in the city.

In undertaking this work, the committee recognizes that many pavements which have been petitioned for have been held up owing to the war and the uncertainty that prevailed as a result. Improvements that were more or less urgent were laid over.

Now a double purpose is to be served in undertaking an active season, one is to put the streets in a good condition to meet the traffic of the city, the other is to furnish as much employment as practicable during the period of reconstruction.

It is considered wise policy, if these pavements are needed and it is pointed out that they are to carry on as much construction as possible this year and thereby help to make times as good as they can be made and thus minimize unemployment.

Pavements are demanded by the public today on all streets where traffic is at all heavy. The motor car has come into such general use that it is running, not only in the summer but practically all winter, and mud streets through which a horse and vehicle could pass a few years ago are next to impossible today with the automobile and its quick travel.

A LOSING BUSINESS
As will be shown by statements and figures produced at tonight's meeting of the City Council, the city gas plant has been a losing proposition practically ever since the corporation took it over from the company which originally owned it. There see a now no reason why the business should be continued as a going concern, though we believe it should be kept, in case a change in conditions might arise in a few years which would bring it into usefulness.

What suggests itself as rather remarkable is that the true financial phases of the enterprise were not made more clear to the ratepayers prior to the time that the plant was turned over to the Public Utilities Board. That body has found out definitely just what the cost of the plant has been, how much the loss has been and has reported definitely on what should be done. The annual interest and sinking fund charges have rightfully been taken into account in calculating the fixed charges that have to be met. These items are charges against the operation of the business just as much as the wages or supplies.

The public should not spring to the idea that the failure of this plant to pay its way is a reflection on civic ownership of public utilities. All kinds of private concerns fail also, and some of them under conditions more favorable than those surrounding the gas plant. Circumstances such as the entrance into the field of natural gas with its greater heat units and its much less cost, the coming to electricity and the greatly increased cost of producing artificial gas have been causes over which the management of the plant could exercise no control. They explain the situation.

FARMERS WIN
Government Will Accede to Their Wish and Discontinue Daylight Saving.

(Special to The Journal)
Ottawa, March 25.—Despite protests from cities it is understood that the Government is determined to accede to the demands of the farmers and discontinue daylight saving this summer. It is expected that an announcement along these lines will be made this afternoon.

DISTRIBUTE MILK BY PNEUMATIC TUBES
New York, March 25.—Distribution of New York city's milk supply through underground pneumatic tubes formerly used for mail service, as a means of lowering the cost of milk was suggested at the continuation here yesterday of the John Doe inquiry into the high cost of milk.

Carriers with a capacity of six quart or ten pint bottles could be sent at the rate of one every six seconds through tubes covering a great portion of the city, it was said.

TEN ARMORED CARS LANDED AT DUBLIN
(Special to The Journal)
London, March 25.—In reporting the issuance of the proclamation at Dublin forbidding any meetings and processions in that city on the date of Professor Edward DeValera's arrival and reception, the Mail says there was some military activity in Dublin on Monday. The newspaper states that ten armored cars were landed from a steamer during the day and that their passage through the streets of Dublin attracted much attention.

TERRIBLE AGONY
Saskatoon, March 25.—Three men were smothered under several tons of grain here yesterday, when a Canadian National railway train rashed into an elevator, which burst and engulfed the engine, baggage and express cars, with its contents.

The dead are: W. F. McCalfe, engineer, and E. Armstrong, fireman, both of Saskatoon and a discharged soldier from Wiseton. The passengers escaped injury.

The accident was due to a faulty switch, which diverted the train from the main track. The engine left the rails in taking the sharp turn and struck the base of the elevator structure, which toppled over.

JUMP FROM BED IN MORNING AND DRINK HOT WATER
Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman half the time feeling nervous, despondent, worried; some days headachy dull and unstrung; some days really incapacitated by illness.

If we all would practice inside bathing, what a gratifying change would take place. Instead of thousands of half sick, anaemic looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy, checked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. In every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out like its ferments and forms poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but it sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

WOOD'S PHOSPHATIN
The Great English Remedy
Tones and invigorates the whole nervous system, makes new blood, builds up old veins, cures, Nervous Debility, Mental and Great Weakness, Depression, Loss of Energy, Impotency of the Heart, Failing Memory. Price \$1 per box, six for \$5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. Also prepared by mail from THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Weston)
