Word comes from Sault Ste Marie Ont. that Mr J. B. Miller has discovered what said to be the richest nickel deposit in Canada, near Worthington, in Northern Ontario. A vein one hundred feet wide and almost pure metal, was found. Cleveland and Pittsburg capitalists, who are supposed to be close to the Standard Oil group, which controls the nickle field in in Canada, are trying to get it.

With the prize almost within his grasp, abez Wolffe. the amateur swimmer, who had already made four unsuccessful attempts to swim the English Channel, was again deprived of his victory at Dover by an adverse tide on the 7th. Wolfle had accomplished a record swim from the bouth Foreland getting within three quarters of a mile of Cape Blanc, France, in fifteen and a half hours when the turn To the Student making the Highest Marks of the tide and an adverse wind carried him away from the land, and necessitated the relinquishment of his attempt, which was the second he made this year. R. D Heaton, of Liverpool on the previous day also attempted to swim the Channel, but gave up when four and a half miles from the French coast.

It is expected the new Canadian min when opened for business, next year, will ssue between sixteen and twenty Canad ian coins a year. The royal mint, in London is now coining sixteen million coins a year for Canada. It is understood there will be one new coin put in circula the value of two cents and coined from WM. MORAN, Prin. nickel. Although nickel is one of Canada's great minerals, hitherto it has not been used for Canadian coinage.

A patient at the Misericordia Hospital at Edmonton while temporarily insane, made a dash for the window of his room in the upper story and got out in the stone McLean & McKinnon cornice a foot wide which runs around uilding on a level with the window sills Along this he walked for some time and finally reached a tower at the corner of the hospital.
