The Governor of the Soldiers' Home, at Dayton, O., Boycotted.

Dayton, G., April 28.—Much discussion has arisen between Irish citizens of Dayton and the Soldiers' Home in relation to the action of Gen. Patrick, Governor of the Home, who recently refused to permit Redpath to lecture there on "Irish Grievances." He stated that, as the United States was at peace with England, he would permit no agitators to declaim against the English Government. He refused to make any reply or explain any letters addressed to him by the Land League, and last evening a circular was issued and distributed about the Soldiers' Home declaring Governor Patrick "Boycotted." The action has occasioned much surprise, but is generally understood to be approved by the Land League. Gov. Patrick is sustained by many leading citizens, who regard his action justifiable, and say the Irish desire to have him removed, as he is too strict in the discipline of the Home.

The institution numbers upwards of 4,000 inmates, nearly 2,000 being Irish. The action of the Land League is more important as the first instance of "Boycotting" in the United States.

## Loyalty or Cupidity?

The professed loyalty to the Queen seldom weighs anything when men contemplate a removal. The children of the Dominion settle under another flag without a pang. The question of dollars and cents is doing more to decide the political destiny of young Canadians than any sentiment of loyalty or preference for this or that form of government. [Brant Review.]
