A SAD RECORD.—The prop. Argyle is commanded by a son of Capt. Malcolmson, of the foundered prop. Columbia, the latter a cousin of our Mr. S. Malcolmson, barrister. He received the news of his father's fate on his arrival at Detroit. Capt. Malcolmson says that the drowning of his father and two brothers makes thirteen of the Malcolmson family who have perished in the waters of the great lakes in the last fifteen years.

RECEPTION SOCIAL.—A reception social will be held in the North St. Methodist church on the arrival of Dr. Williams from Europe. It is expected to be held on the evening of Thursday, Oct. 13th., at 7.30 o'clock. A reception address will be read, after which fruit, etc., will be served. An interesting programme, consisting of short addresses from the ministers and others of the town, and interspersed with music, will be presented. An enjoyable time is expected. Admission, adults, 15c, children 10c.

A GOOD OPERATOR.—We are pleased to learn that Mr. Charles Noble, who a few years ago was message boy with Mr. Harry Armstrong in the Montreal Telegraph Co., is now occupying an important position in the Western Union Telegraph Company's Office, in New York. About a year ago, while taking a difficult press report in Montreal, the manager of the company stood behind him unobserved, looking over his shoulder. The young operator took it in without a break, and the manager astonished and embarrassed him by exclaiming: "Well done; you're all right, my boy." Since then the more important position in New York has been given him. Mr. Armstrong says that there is a bright future before Charlie, as he is a first class operator, and a decent fellow.

Miss Eva Knight, of Michigan, niece of Mr. Abraham Smith, is visiting her relatives here.  
Some thieves broke into the graperies of Mr. J. R. Miller one day last week and cleared the vines. Such rascality should be stopped.

BIG PUFF BALL.—While visiting his father's place on Sunday last, Mr. Samuel Hick discovered in the woods a monster "puff ball." It weighed four pounds in weight, but looks large enough to weigh 14. It is an odd specimen of that kind of fungus.

Arrangements have been made by which we are enabled to give THE SIGNAL and Weekly Globe from the present date until January, 1883, for \$2.25. No better opportunity can be had of getting home and general news at a cheap rate.

The old white horse belonging to Mr. Thos. Dark of this town, to which reference was made a few months ago, on account of its extreme age, "joined the majority" on Wednesday morning last. The aged equine had put in 43 years and 6 months on this mundane sphere.

On Thursday last the Market By-Law was tested. Mr. Bell, the market clerk, cited one of the grain buyers before his Worship the Mayor, for contravening the by-law, by purchasing grain on a side street. The defendant acknowledged the offence, and was fined \$1 and costs—\$4.75 in all.

A TOG AT LAW.—The tug Mary Anna, of Goderich, was seized at Pike Bay and brought here on the Saturday last by the Marshall. The vessel was owned by Messrs. J. and M. Morton, barristers, at the instance of the captain and crew, and granted by Judge Toms of the Admiralty Court. The claim is for wages and damages.

Mr. W. C. Young, secretary to the British Canadian Lumber Company here, is about to leave to take charge of the office connected with the same company at Goderich. Mr. Young, who is one of the Wardens of Trinity Church, a delegate to the Diocesan Synod, and a leader of the choir, will be a serious loss to the congregation.—[Orilla Packet.

MAGISTRATE'S COURT.—On Wednesday last Charles Jenkins, Daniel McPhail and John Gale, three boys about ten or twelve years of age, were brought before the Mayor, charged with assaulting Norman Campbell, another lad. The case was proven, and they were fined 10c and costs, or four days in goal. This ought to be a warning to them.

One of those "two-sweet for anything" young men who loaf around in front of churches, had a rise taken out of him by an old farmer who brought up his team to take his family home after service on the evening of Sunday last. When the old man undertook to attach his tin-trap, the knob on top of the watcher's shoulders, and the latter contemplated regarding the operation, the wicked granger naively remarked, "Beg pardon; I thought you was a hitchin' post; but com' to think on it, y'e a leetle numerous—a leetle numerous."

GRAPERY.—On Tuesday afternoon we paid a visit to the celebrated graperies of Mr. Chas. McPhee, Colborne. Mr. McPhee has a vineyard containing about 1,000 vines, principally Concord, and although the space occupied is but an acre and a half, it is expected that the yield will be about six tons of luscious fruit. Mr. McPhee prunes closely, and grows the vines on wires, so arranged that all the grapes can be gathered without climbing. The enterprising owner gets more value from his acre and a half of grapes than any other man in Colborne. We understand that the season's yield has been sold to a gentleman in Blyth at a good figure. Our thanks are tendered for a basket of splendid grapes.

THE CROPS.—We are pleased to find that the crop report gathered by the G. T. Railway concerning the state of the crops in the districts through which its lines pass, confirm the opinion that for once the field is going to exceed the expectations formed during the growing season. The reports themselves are not numerous, nor is the system pursued calculated to give a precise idea of the meaning of the reports. Only a general impression can be gained. A synopsis of the reports gives the following result:

|              | Average. | Average. | Total. |
|--------------|----------|----------|--------|
| Fall wheat   | 35       | 11       | 39     |
| Spring wheat | 35       | 11       | 39     |
| Oats         | 35       | 11       | 39     |
| Peas         | 35       | 11       | 39     |
| Barley       | 35       | 11       | 39     |

### THE FIERY TRIAL.

The Michigan Disaster Heavier Than is Generally Supposed.

Great Devotion, Notwithstanding Noble Responses From Many Generous Hearts.

"When I left there on Thursday last it looked worse than it did when I first entered the district just after the fire."

The speaker was a little man, with a light colored chin whisker. His eyes were blood-shot, and he looked like a man who had been "roughing it" for a few weeks.

It was Mr. E. M. Cady, of Port Huron, relief agent to the Michigan sufferers, who spoke in reply to a question asked by the writer as to how the burnt district looked when he left it.

"It's a mighty sight worse than people imagine," he continued, as he seized himself in the sanctum chair. "Twenty one townships are pretty cleanly swept. Here and there a house has escaped, but the destruction has been terrible."

Mr. Cady, who was introduced to the writer by Hon. John Hibbard, had been sent by the Relief Committee with supplies after the fire, and had traversed the entire region devastated by the flames in his good work. He spoke freely and with terrible earnestness, of the sad sights he had witnessed, and the stories of sorrow which had been told him. We have room only for some of the more striking things told us by the narrator, whose appearance gave evidence that he must have spent many weary days in the noble work of relief.

"The fire made a pretty clean sweep for about 65 miles north and south, and 30 to 35 miles east and west. There were small fires burning at various points in the district, but a tornado came along and swept the entire range in about two hours. Many houses and trees, I observed as I travelled through the desolated region, gave evidence of having been blown down before the fire touched them. The air in some places was full of roofs of houses, planks, etc., which were lifted up and borne for a considerable distance, sometimes all ablaze."

"It travelled very fast, didn't it, Cady?" asked the Hon. Mr. Hibbard.

"It went awfully quick," was the response. "You know Jenks, of Sand Beach?"

The Consul nodded affirmatively.

"Well, he was in Bad Axe, and there was no sign of fire very near; thirty minutes after he left the whole place was in a blaze and only the Court House escaped. Twenty minutes after he left Verona that place was all destroyed, save the big hotel, in which over seventy people assembled, almost scared out of their life. That mill owner at Verona and his wife had a narrow escape. They were lifted off their feet and planted in a corn field. Although midway, it was as dark as night. He had been through the fire of 1871, and crept back for a blanket and a pair of water. He and the hired man covered his wife and her sister with the blanket, and wet it by sprinkling water over it every little while. The men took turns in caring for the women, and rested by placing their faces to the ground and inhaling the fresh air. He lost all his lumber, houses, sawmill and seventeen horses."

"Were there many lives lost?" asked the writer.

"Some 273, I saw where twenty were buried in one day. Many persons are bearing the marks of the burns yet, and there are a number still in Minden Hospital."

At this juncture Mr. Samuel Pollock, who was in Bad Axe during the conflagration, put in an appearance, and confirmed Mr. Cady's description of the desolated tract.

"There has been about 2,000 farms destroyed," said Mr. Cady "and perhaps 6,000 buildings. The timber has been utterly ruined, and lumber is scarce. People are living almost anywhere now, and I tell you there were some fine farms and splendid houses there. Now there is not even a bit of green timber growing; not one fruit tree in a hundred, certainly, gives evidence of life. There has been a pretty clean wipe out. In three weeks I didn't see in the burnt region a chair, a table or any article of household furniture except one cupboard. We sent in a stove, plow, harrows and harness to every farmer, and are giving seed wheat to each one. The area of fall wheat sown there is larger than ever."

"Are all the people in houses yet?"

"No, but as fast as shanties can be built and lumber supplied they are getting under their own roof again. In one school house 104 people were huddled together for days, and they hadn't a dish amongst them. The number had dwindled down to 30 when I left. It was a splendid timber country, but I don't think there's much stuff for lumber left in it."

Mr. Cady is at present purchasing hay and other fodder for the sufferers. The hay will be packed, and forwarded in bales. He says that the people are still badly in need of bedding, blankets, etc., and that much suffering still exists. He says that many of the settlers are Canadians who have gone to Michigan since the fire of 1871.

The following card has been handed in for insertion:

Oct. 6th, 1881.

To the Citizens of Goderich.

Fifteen thousand people who have been burned out and lost their all, have to be housed and fed during the coming winter. Grateful for the donations al-

ready made, I am compelled to ask you to continue in this great work of charity for these Michigan sufferers. I can only renew the assurance that contributions will be faithfully used, and am confident that this appeal for aid will not be in vain. Ward committees are urgently requested to give all the time they can spare in soliciting contributions, and hand in what money they may have in hand. Bedding and money are what is most needed now.

JOHN HIBBARD,  
Chairman of Relief Committee.
