Amherstburg People Stop Work of Will Handle Northwest Freight Next Year-Company Forming.

Toronto, Aug. 21.-By next spring a owners of water lots in Amherstburg new fast freight line of steamships will be doing business on the lakes. A large company is now being formed for the purpose in Toronto. Messrs. William Mackenzie, Senator Cox, Frederic Nicholls and a number of other Toronto men are interested in the scheme. Mr. F. R. McCafferty, a broker of Monteral, with Mr. Peterson. of Peterson, Tait & Co., shipowners, of Newcastle, have been in the city on

It is taken as a matter of course in shipping circles here that the company will be closely allied to the Canadian Northern Railway, of which Mr. Mackenzie is president, and Mr. Nicholls one of the directors, and that it will establish a freight service on the lakes to handle freight from the Canadian Northern.

As to whether it was intended the new line should handle merely an inland trade, or connect with the fast Atlantic line, there was some difference of opinion. One gentleman thought Mr. Peterson only wanted to get rid of some old whalebacks he had on hand, and wanted the new company to buy them. But another gentleman who is considerably better informed on this subject is sure that the purpose of the new concern is to connect with the fast Atlantic line. This would have the effect of diverting considerable trade from New York and Baltimore into Canadian channels.

Must be Tried for Six Months. Toronto, Ont., Aug. 21.-The minster of education has announced that hereafter no text-book will be authorized for use in the schools of Ontario until after it has been published and in general circulation for at least six onths. In this way it is hoped there will be no difficulty in learning the opinions of teachers and experts concerning the book for which authorization is desired. The idea is that when a new text-book appears the author can circulate a few hundred copies of it to judges. Reference will be henceforth made to a committee of experts who will presumably be guided by the general opinion among the teachers.

HYMEN AT UNDERTAKER'S THE POLICE AT SEA AGAIN

Mitchell Was Murdered.

Jury Will Look Further.

Chicago, Aug. 21.—After an investi-gation by the Chicago police extending over a fortnight and a two days' coroner's inquest, the authorities are at West Eighth street and Surf ave-nue, Coney Island, Monday afternoon. murdered woman found at Seventystill in doubt whether the body of the They added that they wanted to get fourth and State streets was really that of Minnie Mitcheli. Three men because of its advanced decomposition Coroner's Physician Springer stated that the body must have been exposed ten or twelve weeks before the brain could have been absorbed. Even the coroner's jury, when it rendered a verdict yesterday, recommending that Oscar Thompson, Edward Counselman and John Claffy be held to explain the death, stated that the body was supposed to be that of Minnie Mitchell. Articles of clothing found near the dead body, however, were identified by the Mitchell family, and a week ago the body was buried as Minnie Mitchell by relatives of the girl, who has been missing since July 30, and who was last seen in the company of her sweetheart. William J. Bartholin.

Two witnesses, Lieut. Healy and W. M. Allen testified that Counselman. an intimate friend of Bartholin, had told them the fugitive wanted money with which to pay for a surgical operation on the Mitchell girl at a north

side hospital.

With this conflicting testimony Bartholin, whom the coroner's jury recommended should be apprehended. The verdict of the coroner's jury practically leaves any further investigation as to the supposed death of Minnie Mitchell to the September grand jury. State Attorney Deneen will return soon and will take up the charges against Thompson, Claffy and Counsel-
