The state of the state of

THE SURVEY PLANS OF G. T. PACIFIC

Opposition Says They Were Kept From House Although Known to Ministers.

Ottawa, March 3. — On account of the death of Mr. E. F. Clarke M. P. for Center Toronto, the House adjourned earlier than usual today.

The subject of most interest introduced was in regard to the Grand Trunk Pacific surveys. It was brought up by Mr. Foster, who asked for information in regard to the surveys, as to which Mr. Hays had recently given some information before a private club, particularly in regard to the terms and grades of the new line. Heretofore, the answer to this request had been that this matter fell within the jurisdiction of the construction commis-sion, over which it was contended that

Parliament had no control. Sir Wilfrid Laurier replied that whatever information the G. T. P.Company had respecting grades and the character of the country through which the surveys ran, the Government were not in possession of it. Later, the Government might have a report on the subject, but at present there was

nothing available. Mr. Boyce (Algoma) remarked that although information in respect to the plans for the Port Arthur and Fort Willilam terminals of the G. T. P. had been refused to the house, he has been informed upon reliable authority that the information contained in the plans had been hawked about after having been passed through the back door of the railways and canals de-

partment. Mr. Emmerson declared that when in August last year the plans for the terminals at Port Arthur and Fort William, as well as on the Pacific, were brought to him by Mr. Schrieber, deputy minister, he instructed the latter that they should be immediately placed under seal. This, he believed. had been done, so that if anyone had acceess to the plans it was in contravention of those instructions. He suggested that Mr. Boyce should know the source of his information in order that an investigation might

Mr. Haggart asserted that if upon investigation the Minister of Railways ascertained who the official was who was responsible for the contents of the plan being divulged that official should be dismissed. "You may depend upon that," plied Mr. Emmerson.

The following bills were introduced and read a first time: Respecting the Monterey Electric and Gas Company, Limited, and to change the name to the Monterey Light and Power Company; respecting the Guelph and Georgian Bay Railway Company; respect-Esquimalt and Nanaimo Railway Company; respecting the Temagamie Railway Company; respecting the Ottawa and New York Railway Company; respecting the Grand Council of the C. M. B. A.; respecting the Bay of Quinte Railway; respecting the Brockville, Westport, and Northwestern Railway Company; respecting the Gi respecting the Montreal and Southern Counties Railway Company.

BOGUS MAPLE SYRUP Association Forming to Prevent the

Wholesale Adulteration. Toronto, March 4. - Mr. M. F. Goddard, of Montreal, who was in charge of the maple sugar and syrup department of the Canadian exhibit at St. Louis, is at the Palmer House.

Those interested in the maple sugar and syrup industry of Eastern Ontario and the Eastern Townships of Quebec are taking steps which will likely lead to the formation of a Canadian Maple Sugar Makers' Association," said Mr. Goddard today.

Why? "Simply to protect an important industry from ruination," was the re-'The operations of a number Toronto and Montreal syrup manufacturers are injuring the legitimate sugar makers' industry. They are compounding and adulterating maple syrups and selling them as the real article at a price at which the farmer cannot compete. The result is that many farmers both in Ontario and the Eastern Provinces are cutting down J. A. YOUNG PREPARES PUPILS FOR their maple orchards and going out of

We will not be satisfied until we regulations prohibiting the use of the term maple syrup or sugar on a compounded or adulterated article, or even the lithographed representation of a maple orchard, a sugar camp, or any sugaring operation that might lead the public to believe that the syrup contained in the package was maple syrup or sugar. Without such misrerepresentation they cannot dispose of their goods in quantities large enough to harm the industry. Several states have legislation equally as stringent. "That the industry is an important to Canada is patent to anyone familiar with the matter. In 1900 Canada produced 18,000,000 pounds of sugar or its equivalent in syrup.
