You will not mind the cold weather next winter, or the defects of that unsanitary and out-of-date plumbing system of yours, if you have your house heated with a hot-water system and an up-to-date plumbing plant put in. To have a nicely heated house and good sanitary plumbing means a great deal to your health. It keeps away bad colds, influenza and pneumonia, besides keeping each and every one in good humor, which is quite necessary.
Just now is the correct time to have your remodeling done.
We can go at once.

City and District
—Mr. Chester Evans, of 907 Queen's avenue, is leaving Monday next on a trip to Florida, owing to ill health. His many friends hope to hear of his speedy return to health.
Class of Twenty.
A class of about twenty candidates will be sent from Burleigh Preceptory, St. Thomas, to be initiated in the Mocha Shrine here on Friday.
Rushing Work.
Jones Bros. are rushing work on the new hygienic institute, a large gang of men being employed on the excavations. Sing & Peter have the stone and brickwork and Sutherland Bros. the sheet metal work.
Was Discharged.
Mr. Samuel Haggin, of Detroit, who was tried in St. Thomas yesterday on a charge of forgery, preferred by Mrs. Sophie N. Abbott, of this city, was discharged, as there was no evidence to connect him with the case.
Mr. Welch Loses.
The suit brought by Mr. A. Welch of this city, against the Esperanto-Cobalt Mines Company, Limited, to recover the purchase of options on certain properties was dismissed by Chief Justice Mulock yesterday. It was for \$40,000.
Water Main Burst.
A water main burst yesterday afternoon about 4:30 o'clock, at the corner of Horton and Richmond streets, and washed away a considerable portion of the roadway. The waterworks department were soon on the ground, and after working for several hours, the leak was repaired.
Returned to West.
Mr. and Mrs. Joseph Scell and little daughter Beatrice have returned to their home at Moosejaw, Sask., after spending the winter with Mrs. Scell's mother, Mrs. Brett, 476 St. James street, city, and friends in neighboring towns.
A Presentation.
The Presbyterian choir of the Muncey Road Church recently assembled at the home of Miss Dela McLachlan and presented her with a beautiful case of sterling silver teaspoons, as she is soon to be married. The presentation was made by Mr. M. Whight.

Death of Mr. James Noble.
Word has been received here of the death of Mr. James Noble at Miami, Florida. Mr. Noble is an old London boy, having spent his early days in London attending the Central school. Some years ago he went to Florida, and his many friends here will regret to hear of his death.
A Piano Entertainer.
Mr. Leslie Harris, the English piano entertainer, has been engaged to give one of his programmes in London on Tuesday, April 21, in the Y. M. C. A. Hall. Mr. Harris has scored successes in New York, Boston, Toronto and other large cities. He has already appeared in a number of halls, Toronto, and is booked for a further engagement there of two nights after his London engagement.
New Telephone Connection.
The London Township Telephone Company, who have a telephone line from Lucan through Denfield, Vanneck, Telfer and Iderton to Hyde Park, have purchased from the Bell Company the line of poles and wire from the city to Shaw-Woods corner, and will connect it with their line now at Hyde Park. This will give them a trunk line from Iderton direct to London, where a continuous service will be secured.
Chicago Office.
Mr. Calvin S. Parker, of the Parker Car Heating Company, Limited, has returned home after attending a meeting of the Railway Supply Men's Association in connection with the maintenance of ways committee, held in the Annex Hotel, Chicago, last week. While there Mr. Parker opened up an office for the company in the "Old Colony" building, and their future business for the Western and Southern States will be handled by their Chicago office.
In Hamilton Court.
Hamilton Spectator: John Hughes, Charlottetown, P. E. I., was in the dock on a charge of trespassing on the G. T. R. It was charged that he refused to pay his fare from London to Hamilton. He presented steamship transportation, which the company claimed was void after a certain date. Hughes claimed that the G. T. R. agent at Chicago had accepted the transportation, and had checked his baggage through to Charlottetown. The prisoner produced the baggage check, but the magistrate fined him \$5 and costs. Hughes was respectfully dressed, and said he would appeal the case. He also claimed that when arrested he was ill, and that the police refused to give him a drink of water.
One hundred years ago at Wilkesbarre, Pa., Judge Jesse Fell discovered that anthracite would burn, thus starting the great anthracite coal trade. Sixteen years ago "Salada" tea was placed on the market. Canadians have discovered that for rich, uniform, deliciously-flavored tea, "Salada" satisfies the demand. One out of every six Canadians drink it and this number is steadily increasing. 10

Louis Stobasky, London, pedlar.
Henry John Stephens, London, mariner.
Thomas James Motley, London, baker.
Harry Rechinzer, London, accountant.
Lee Poy, London, laundryman.

SUING McCLURE'S
President of Union Refrigerator Company Claims to Have Been Labeled.
New York, March 23.—A case which is expected to develop sensational features came up in the United States court today, when the trial of the suit of Emory L. Phillips, president of the Union Refrigerator Company, of Milwaukee, against the McClure Company, publishers, for alleged libel was begun. Phillips asks for \$100,000 damages, which he claims he sustained through the publication in McClure's Magazine in November, December and January, 1905, and 1906, of a series of articles by Ray Stannard Baker. The charge came in connection with a report of the state railway commission under governor, now senator, La Follette. When the case was called today the plaintiff made an effort to have struck out a portion of the defendant's answer to the suit, which claimed that the publication of the article upon which the case is based was privileged because the facts were taken by Mr. Baker from official reports. The motion was denied by the court.
It was said in the court room today that it is not unlikely that Senator La Follette may be called as a witness in the case.

Canadian-Australian Steamship Line.
The Canadian Pacific-Australian steamship line announce a change, commencing with the April sailing. The S.S. Alowera, which has been sailing on the Canadian-Australian line for some time, will be taken off, and the new S.S. Marama will take its sailings instead. The Marama is a good twin screw boat of 6,437 tons register, and contains every possible convenience, having spacious decks, dining saloon, smoking-room, bath-rooms, etc. The magnificent boat has also special accommodations, for which extra charges are made.
Any information with regard to this steamship will be given by Mr. Wm. Fulton, city passenger and ticket agent.
Finest rubber-tired cabs and coupes. Open day and night. Hueston's Livery.

PRE-NUPTIAL CONTRACTS
The Catholic Church Takes Steps to Avoid Frivolous Engagements.
Hamilton, March 23.—One point specially emphasized in the new marriage laws read in the Catholic churches of the city yesterday deals with matrimonial engagements. The church decrees that every prenuptial contract is void unless it is written and duly attested.
"It will stop frivolous and foolish engagements made today only to be broken tomorrow," said Rev. Dean

NEW DEPARTMENTS FOR HORTICULTURE
Will Be Established by the Western Fair Board.
The horticultural committee of the Western Fair met yesterday afternoon and considered a request from Mr. W. Bartlett, asking that three new sections be placed in the cut-flower department for amateurs.
The board decided to establish two new departments.
The prize list was completely revised, and the board decided to ask the executive committee to make amendments in the exhibits of apples and pears. Six classes of apples and five of pears were added.
In order to make room it was decided to have the honey placed in the dairy building, as in addition to the new departments, part of the horticultural hall will be used for the dog show.
There were present W. W. Gammage (chairman), John Balkwill, Fred Dicks, W. Moore, George McCormick, William McNeill and Secretary Hunt.

MOST SUCCESSFUL CHARITY CONCERT
Given Last Night for the Children's Aid Society.
A most successful charity concert under the auspices of the Children's Aid was given in the Auditorium last night before several hundred people. The programme was furnished by Heaver's Male Quartet, assisted by Mrs. Adam Beck, including numbers by Mrs. V. L. Hewer, Harold Watson, Mr. Charles Mountjoy, Mr. Ernest Saunders, Mrs. Adam Beck, Mr. V. L. Hewer and Miss Vera B. Hewer.
The accompanists were Mrs. F. P. Drake, Mrs. V. L. Hewer and Mr. Harold E. Watson. The proceeds will be devoted to the Children's Aid Home.

MAYOR STEVELY MET PRESIDENT ROOSEVELT
His Worship Is Keeping Good Company in the United States.
Mayor Stevely was in Washington on Saturday and was introduced to President Roosevelt by Representative Bennett, of New York. His worship had quite a chat with the first man in the United States, and was royally treated.
On Monday night he was entertained at the Lambs' Club, New York, by Mr. Arthur E. Rendle, well known in this city. Mayor Stevely reports a splendid time at this function.

THE VERY BEST SHOES AT THE VERY LOWEST PRICES.
Hudson Bay is a striking example of what can be accomplished with conservative management and a low capitalization. The company is capitalized for \$25,000, with barely 8,000 shares of stock issued, and the company has two patented fourth acre claims, as well as controlling seven properties in the heart of the proven district by leasehold from the Government. The company began operations in 1905, paying \$2 per share of a dividend from the first car of ore shipped. In the spring of 1906 the company sold out about fifty acres of its holdings to the Silver Queen Mining Company at \$50,000 cash. From the sale of the Silver Queen a dividend of \$90 per share was paid on the stock, leaving working capital in the treasury amounting to \$75,000. A considerable amount of development work was carried on on this property close to the Silver Queen, and, while some values were located, the company shifted its base of operations to one of the north lots adjoining the Trethewey and Nipissing. On March 28 last the company started to sink the main shaft on the top of the hill above, where a massive silver nugget was discovered in surface prospecting. Development work was carried on with a small steam plant up to the first of October, when the big new compressor plant was put into commission.

broken tomorrow," said Rev. Dean Mahoney, of St. Mary's Cathedral, yesterday. Some people, he said, were engaged half a dozen times before they were married. "In case of a breach of promise such a document would also prove very valuable in the courts of the law," he added.
According to Dean Mahoney, a very mistaken view has got abroad through the papers of how the new law will affect mixed marriages.
"It has been stated," he said, "that there will be no more mixed marriages. This is entirely incorrect. The power of the bishop will be exactly the same after the law has gone into effect as in the past. The bishop will have the same power to grant dispensations. This explanation is not made with a view of encouraging mixed marriages. You know very well it is only with great reluctance and sorrow that these dispensations are granted."

RUSH IS ON TO MONTREAL RIVER
Good Reports Coming In From New Field—Activity in the Larder District.
Cobalt, March 22.—F. Howard Collins, of New York, who has spent the last fifteen months in the Cobalt district, Larzer Lake and Montreal River, has just returned to Cobalt after a trip to Larder. Mr. Collins states that the journey is slow at present by any of the three routes, Tomstown, Englehart or Boston, although Boston is slightly preferable, being the shortest of the routes. According to Mr. Collins, considerable activity is in sight in Larder. The population of the town is close to one hundred. The Mining Recorder has announced that affidavits showing 90 days' work must be filed before June 1, 1908, on all claims recorded fifteen months prior to that date. The welcome sound of a steam whistle was heard on the Harris-Maxwell on the 11th, indicating that they had steam up at the new 10-stamp mill. Great interest is being manifested in this mill, as it is calculated to determine whether an immense dike of rock supposed to average \$10 to the ton in gold can be worked to profit. Taking everything into consideration, Larder has shown up as well as could be expected. Among some of the properties now working are the Cobalt and Under Lake. The Martin Larder Lake, which is reported to be preparing to install a plant. The North Canadian Gold Mining Company, is also doing some work; the Lucky Boys Company has a carload of machinery at Boston on route, and to be hauled in on the snow roads. The New Ontario Exploration Company, of which Hugo Von Hagen, of New York, is president, is also reported to be planning extensive development work during the coming season.
Interest in Montreal River country is rising every day. The publishing of a local paper there promises to be a good factor in the new district. During the past week several young men of Cobalt have decided to go into business in the new townsite. Good reports continue to come from the new roads, the New Ontario Exploration Company, of which Hugo Von Hagen, of New York, is president, is also reported to be planning extensive development work during the coming season.
Charles Gifford has his new steam plant on the ground, and will be in operation during the next few days.
On July 4 last, in the north end of the town of Cobalt, Nipissing took out several hundred pounds of nuggets from a new vein about four inches in width. A shaft has been started on the site of the vein, and extensive operations are planned at this point. In the other workings on the Nipissing property work has been pushed ahead with a force of nearly 200 men.—A carload of high-grade ore was sent out last week to New York. The company is reported to be making preparations for milling large quantities of their low-grade ore at the plant of the Cobalt Concentrators Limited, located on the Nipissing ground. In the Foster mine Superintendent Macdonald is paying more attention to work than shipments. The main shaft is now down 200 feet, and at a depth of 210 feet a station will be cut and another level started and extensive underground work carried on. Meanwhile the development work is being kept up at the 140-foot level, and the results are most encouraging. Some time ago nearly all hands were laid off at the King Edward penning some surface alterations. Recently the company has resumed underground operations with a reduced force and a cut in wages of miners. The Mining Union has appealed to the Government for a board of arbitration to adjust the wage scale, but nothing definite has been stated as to when the board shall meet as yet. The company sent out a carload of ore to Denver, Col., last week.
The article appearing in the Globe on Saturday, March 14, suggesting an adjustment of the capitalization of Cobalt companies to appoint where reasonable dividends might be maintained has caused considerable comment in the camp. One prominent mining man said the statement could be very much emphasized to the good of the camp. The Temiskaming and
