EARLY CABINET MEETING

Government Will Not Make Any Appointments Before Quitting.

Early Rosignation.

The Premier and the other members of the Government will hold a cabinet meeting as early as possible next week after the return of the ministers to the city. Following the usual precedent, the outgoing Government will clear up the accumulated arrears of routine departmental business before resigning. In 1896 Sir Charles Tunner took two works after. ness before resigning. In 1896 Sir Charles Tupper took two weeks after the election before formally tender-ing his resignation to the Governor-General. After being in office for fif-teen years Sir Wilfrid and his ministers will, probably require a fort-night or so to wind up their affairs, isters will, probably require a fortnight or so to wind up their affairs, clean up private correspondence on file in their offices, and leave things in shape for the new Administration to take hold without any confusion. In 1896, before the Tupper ministry retired, an attempt was made to fill vacancies in a number of important offices in the afft of the Government. At that time the Government. At that time the Government, and offices in the afft of the Government. Sir Wilfrid Laurier will, of course, leave to his successor the filling of all positions now vacant, including two sensate vacancies, a high court judgeships. The post of Canadian is formally tendered, will be Mr. Borden's first apple of discord
