THIS MORNING'S MARKET A BIG ONE FOR HAY

Many Loads Sold at Fourteen to Fifteen Dollars a Ton.

There were many loads of hay sold this morning at \$14 to \$15 a ton. Oats were firm at the same price. A shipment of live ogs was made at 50 cents ewt. less then last week.

The better prospects for hay seem to have induced armers to sell. They held it back for the greater part of last week, oming in with it now.

Considerable comment has been passed upon the letter published in a local newspaper by Mr. R. McElheran, in which he endeavors to explain his statement made recently beore the Synod of Huron Diocese, to he effect that "women were works of

The Advertiser this morning interriewed a number of ladies, members f the different Anglican churches of London, in regard to Mr. McElheran's statement. The general feeling appeard to be that of amusement at Mr. Mc-Elheran's letter, and his attitude, rather than resentment.

"It is too ridiculous to pay any attention to," said one South London lady. "Anyone with any reasoning powers whatever knows that the women workers in our church are not the type of women he describes.

A Pertinent Question. A second church member, when asked her opinion of the matter, was also much amused. "I had quite a smile over that letter," she told The Advertiser. "What interested me the most s to know where Mr. McElheran got his information about women who painted theier faces. He seemed so

horoughly well informed. Mrs. H. A. Boomer, who has taken an active interest in the matter of women on church vestries, stated to The Advertiser that although the issue was defeated this year, she felt convinced that it would be brought up at the next synod and would doubtless be carried then.

"I should like to tell those church members who helped us and who gave their names to the petition circulated throughout the diocese, not to be disouraged. The fact that it has been considered by the synod at all is importnt, and the discussion has been a good education.

Fixing the Tariff. The principle by which rates should be fixed was the cost of moving traffic Ordinarily minimum rates should be the Ordinarily minimum rates should be the cost of carrying, and the carrier should obtain a fair profit.

It was a difficulty that there were three roads to be dealt with, so that the government council proposed to take the Canadian Pacific as a specific example. It would follow the principle of all modern business systems, and determine the cost of moving freight and then add 50 per cent for gross profits to cover add 50 per cent for gross profits to cover interest on investments and taxations. The main difficulty was in segregating freight and passenger expenses. Sucl tems as maintenance of way and equipment, for instance, were common to both. However, Mr. Bicknell considered it was impossible. He had had a series of exhibits prepared by Mr. J. P. Muller, a United States expert, whose system of counting charged more operating ex-

UGH! HOW CHILDREN HATE CASTOR OIL

'clock.

To Clean the Little One's Stomach, Liver and Waste-Clogged Bowels Give Gentle "Syrup of Figs."

Look back at your childhood days. Remember the physic that mother insisted on-castor oil, calomel, cathartics. How you hated them, how you ought against taking them. With our children it's different. The

day of harsh physic is over. We don't force the liver and 30 feet of bowels now; we coax them. We have no dreaded after effects. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. ittle stomachs and tender bowels are

injured by them. If your child is fretful, peevish, half sick, stomach sour, breath feverish and hief of Miss Littzen, and addressed to its little system full of cold; has ner lover, after assuring him of her diarrhoea, sore throat, stomach-ache; doesn't eat or rest well-rememberlook at the tongue, if coated, give a ossession.
