Your Child's Eyes---Do They Need Help?

Though we sympathize with the child who is compelled to resort to glasses, yet, if the eyes need them, it is wrong to deprive them of this comfort. If your child evinces a desire to avoid study, complains of headaches or drowsiness, it may be due to imperfect refraction of the eyes. At all events, don't be in doubt about this, but have us make a careful examination.

POINTS OUT PROSPERITY City's Record for Past Few Years Finds Place in the

Financial Paper.

Gordon Philip, secretary of the board of trade and industrial commissioner, has written an article for the Monetary Times, in which he points out some of the advantages of the city.

Some excerpts from the article in question are: London, Ontario, has had a wonderful record of continued prosperity during the past few years, which has been naintained since the war started. The pulation has increased from 56,358 in 1915 to 58,055 in 1916. In 1891 the population was 31,240. The postoffice revenue a year ago was \$221,911. The annual receipts at the customs port of London during the past few years show a substantial growth and now amount to over \$1,100,000. The bank clearings of the city last year were \$89,774,787. London is an important manufacturing centre. The logical location for a

Canadian branch factory would be some point at which the following renirements are combined: First, a city of sufficient size so that an adequate labor supply is available at all times superior railway facilities, so e made, and the city returned some of that the manufactured product may be the money. It will amount to \$2,000 shipped readily throughout the Dominion; third, the place at which raw CITY WELL REPRESENTED of the Western Ontario peninsula.

Millions of Dollars Given-Millions of Belgians Fed-

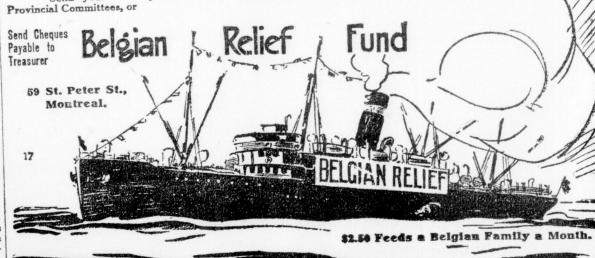

Yet Millions More Are Needed Nothing else has ever so roused the indignation and practical sympathy of the English-speaking world as the fate of Belgium. At the first call for help some of the leading business men of

neutral United States organized the Belgian Relief Committee, arranging with the British Government to co-operate, and with the Germans to keep their hands off-and the work of feeding the starving Belgians began. Germans are driven out. If it is not Since then many million dollars have supplied, all that has been done cannot been contributed to the Belgian Relief Fund, chiefly in the British Empire and save the country from wholesale starvation for two weeks ! the United States, about half of it coming

from Belgians living in these countries. The wonderfully efficient Relief Committee have spent this money so carefully that an average of \$2.50 has fed each dependent Belgian family a month. Thus the nation has been saved alive—so far. But only so far! The number of Belgians dependent on the Fund is steadily growing as their little hoards of food and

If you have been contributing to the Belgian Relief Fund, and so keeping some woman, child, family or families alive, don't leave them to starve! If you have not done much yet, spare a little of your plenty for some of the hundreds who are daily forced to join the bread lines at the Relief stations. The Relief Committee appeal particularly for regular monthly contributions sufficient to feed one, or
