VALUABLE PROPERTY FOR SALE

Above we present a plan of one of the choicest properties for sale in Toronto; and while shrewd investors by the score are investing in outside properties, HERE IS EVEN TO-DAY a Central Property which must have escaped their serious and best attention. Now, when all are agreed that the growth of Eastern Toronto has been phenomenal, during the past three years, and will be that the growth of Eastern Toronto will be the only business street worthy the name in the East sure to continue, Queen-Street will be the only business street worthy the name in the East East of Toronto for some years to come; it must therefore clearly follow that Queen-Street East, Toronto, at the price which we can sell the above property, is the place above all others to buy first-class business property to-day for a future substantial advance. Queen-Street as far East as Pape-Avenue will, ere long, discount in every respect her namesake in Parkdale. It is more central, it has none of the disabilities and drawbacks of Queen-Street in the West. It is the only direct route for all traffic to and from the centre of the city eastward; being therefore without a rival, it has to-day a sturdy class of steadily pushing merchants thronging either side as far eastward and even beyond Logan-Avenue. The Woodbine Racing Track, (the Derby race-course of Canada), New Beach, Balm Beach, Pictouque Norway, Victoria Park, the Newmarket Racing Track (where training uniformly begins earlier than on any other race course in Canada), Little York, The Grand Trunk and Canada Pacific Railroad interests rapidly increasing from month to month and the large number of admirable building sites in the immediate vicinity, all combine in contributing their share to the rapid and permanent development of Queen-Street into the chief business street of the east-end of Toronto. It will be observed, that the property shown on above plan comprises all the block including the two grand corners of Booth-Avenue and Logan-Avenue; the total frontage on the north side of Queen-Street being 242 feet by a depth of 201 feet, which can be subdivided into about 425 feet frontage in all without reducing the valuable Queen-Street frontage. On the property are erected buildings all rented to good tenants; the rents of which would aid materially in carrying the property. For further particulars as to price and terms apply or write to
