CONTRACTS AND EXTRAS.

Estimates Always Exceeded—Firehall Requirements—Draft Agreement Re Tollgates.

Ald. Sheppard presided at the meeting of the Property Committee yesterday. The other members present were Ald. Frankland, Blong, Jolliffe, Davies Burns and Rowe.

Ald. Jolliffe complained that the by-law which provided that vegetables, fruit and other articles of provision, should not be exposed for sale unless the same are two feet from the pavement was not being strictly enforced. The City Commissioner will go on a tour of inspection and report offenders to the chief constable.

New Firehall Requirements.

The City Commissioner reported that the appropriation for the addition to Lombard-street fire hall, $5000, had been expended save $700. The architect recommneded that the Richmond-street annex be heated by hot water apparatus. It was resolved to advertise for tenders for the same forthwith.

Architect Denison wrote that it had been found necessary to excavate four feet deeper than the original specifications called for in the erection of the new Dundas-street fire hall. This would entail an extra outlay of $100.

The Chairman protested that no city contracts were ever kept on the original lines or estimated cost. This $100 might be all right in this case, but the principle was wrong.

Commissioner Coatsworth and the architect will confer as to the heating of the new fire hall.

Market Fees and Tollgates.

The draft agreement between the city and the county of York for the reciprocal abolition of market fees and toll gates was read to the committee. On motion of Ald. Davies the draft was approved and the date of the agreement coming into force was fixed at Dec. 31, 1895.

City Solicitor Caswell pointed out that in one or two instances, notably on the Kingston-road, the county roads came into city property. He would endeavor to have these strips of road transferred to the city. The townships would not object, as they would be relieved from their repair.

Ald. Blong said he thought the county by the agreement got the best of the bargain.

Ald. Davies said all should be pleased at the prospect of settling this tollgate question, which had been a bone of contention for the last 15 years.

The Old Drill Shed.

The Militia Department have officially notified the committee of their surrender to the city of the old drill shed, which is now being used by the fire department.

Ald. Burns was anxious to know the future use of the building. He suggested it would be suitable for market purposes—either fruit or fish.

The City Commissioner said he had not yet considered the question.

Toronto Ferry Company's Lease.

Ald. Jolliffe and Davies and the City Solicitor were appointed a sub-committee to confer with the Toronto Ferry Co. re a desired transfer on the part of the city of the company's interest in the Turner water lot. The company will be asked to maintain their wharves as at present, and a rent will be charged them for the water lot they filled in which was outside the area originally granted them.

Ald. J. J. Graham, secretary of the Children's Aid Society, wrote asking for the appropriation of a room in the new court house for the work of the society.

Ald. Davies said it would be time enough to allocate rooms when the building was finished and the city had obtained possession. The chairman concurred, and the application was filed.

York-Street Bridge.

The City Engineer returned from Montreal this morning, where he had been interviewing the Grand Trunk and Canadian Pacific Railways regarding the John-street and York-street bridges. The Grand Trunk Railway has promised to have the plans of the York-street bridge prepared by Sept. 9. By the Esplanade agreement, the company will have to go on with the work as soon as the plans have been approved of by the City Engineer.

Fined After Practising Forty Years.

Mrs. Ruth Beasley, 303 Danforth-avenue, was charged in the Police Court yesterday with breach of the Medical Act. Inspector Wasson prosecuted, and defendant, who told the Magistrate she had prescribed medicine for 40 years, was fined $25 and costs or 30 days. The evidence caused much amusement in court as the witnesses told of the vaunted merits of the medicine they bought of the old lady.

Had La Grippe.—Mr. A. Nickerson, Farmer, Dutton, writes: "Last winter I had La Grippe and it left me with a severe pain in the small of my back and hip that used to catch me whenever I tried to climb a fence. This lasted for about two months, when I bought a bottle of Dr. Thomas' Eclectric Oil, and used it both internally and externally, morning and evening, for three days, at the expiration of which time I was completely cured."

DODGE PATENT WOOD SPLIT PULLEYS

Over a million Dodge Pulleys are now in successful operation. They are given the call almost unanimously by the manufacturers of this country, and in many foreign markets. Imitation is said to be the sincerest flattery. Since the "Dodge Pulley" has been on the market there have been many so-called "wood split pulleys" invented, some direct infringements of our patents and some of an evasive character. That their success has been questionable amply demonstrates that the public knows a good thing and recognizes merit and originality, as well as superior methods of construction and quality of material, as contained in our pulley. ASK FOR THE "DODGE." HAVE NO IMITATION. All sizes in stock at 36
