Two Experiences in Kemptville of Interest to Others. MR. HUGH BROWNLEE TELLS HOW HE WAS

From the Kemptville Advance.

One of the best known men in the county of Grenville and the adjacent county of Carleton, is Mr. Hugh Brownlee, of Kemptville. Mr. Brownlee was born in Carleton ville. Mr. Brownlee was born in Carleton and shelter, for their utility, for fencing and county in the year 1834, and until about five years ago resided in the township of North Gower. Having by industry and good business ability acquired a competence he determined to retire from the somewhat laborious life of a farmer, and taking up his abode in life of a farmer, and the pounce of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set trees of some kind for ornament hand to set tree ness ability acquired a competence he determined to retire from the somewhat laborious life of a farmer, and taking up his abode in a beautiful home in the village of Kemptville, has since continued to reside here. It is well known to Mr. Brownlee's friends and acquaintances that he has suffered for years from Sciatica of a violent form, and it has lately been understood that he has at last been relieved from the pangs of this excruciating disease. Recently while in conversation with Mr. Brownlee, a reporter of the Advance asked him to give his experience for the benefit of other sufferers, which he gladly consented to do.

"You are aware," said Mr. Brownlee, are reporter of the business of buying cattle, sheep and lambs. In doing so I was exposed to all sorts of weather and over-exertion, which brought on severe attacks of sciatica. Why do not all farmers and the occupants of cottages in the village indulge more frequently in the luxury of vine-covered trellisces of the agents of the company.

brought on severe attacks of solatica. I suffered for about ten years, trying all sorts of powerful remedies, but without doing me a particle of good. During this long period of suffering I was deprived of much sleep and many a night I tumbled about in bed nearly all night long suffering the most excruciating pains. In fact I was rapidly approaching the condition of a chronic cripple. I had tried so many remedies that I was becoming discouraged, and almost dispaired of obtaining relief. While in this condition I was induced to try Dr. Williams' Pink Pills. I took the pills for some time without any noticeable results, but feeling as if they were a last resort I continued their use. Then came a slight change for the better, and every day added to my steady improvement, until now after the use of about eighteen boxes I am nearly as well as ever I was, being almost entirely free from pain. I am still using Dr. Williams' Pink Pills and feel boxes I am nearly as well as ever I was, being almost entirely free from pain. I am still using Dr. Williams' Pink Pills and feel confident that my cure will be permanent. The builts of the Madeira vine and cinnamon vine may be set each year, and the seeds of the morning Mrs. Brownlee was present and said that she, too, could vouch for the beneficial effects derived from the use of Pink Pills. She had suffered for nearly four years with terrible soreness and pains in the back of the head and neck accompanied by frequent. sena, the perennial climatis and the cleanthus, as plants blooming the second year,

Having heard that Miss Delia Main, a young lady who lives with her parents not far from Mr. Brownlee's residence, had also been greatly benefitted by the use of Pink Pills, the reporter next called upon her. Miss Main is a handsome young lady, eighteen years of age, with the glow of health In her cheeks. In reply to enquiries, Miss Main said that some two years ago she began to be affected with weakness peculiar to many be affected with weakness peculiar to many young girls. Her face was pale, she was troubled with heart palpitation, and the least exertion left a feeling of great tiredness. She had good medical treatment but without getting relief, and at last her condition became so bad that her parents and friends feerade she was going into a decline and almost despaired of her recovery. At this juncture Miss Main was induced to try Dr. Williams' Pink Pills, which are an unfailing specific in cases this kind. Having lost all confidence in medicine, Miss Main took Pink Pills irregularly at first, but finding that Pills irregularly at first plants of the manual proposed ferset or of good fellowship with a neighboring farmer.

Care of Brood Mares.

A writer in the Breeders' Gazette thinks that one of the greatest detriments to horse breeding is that farmers, as a rule, do not realize the importance of kind and gentle treatment of the mares in foal. He firmly believes that the destiny of the future horse is to a great extent determined while in the mother's womb. A great deal is said about Pills I would not be alive to-day, and I

Having lost all confidence in medicine, Miss Main took Pink Pills irregularly at first, but finding that they were helping her she began to take them regularly according to directions. From this time on improvement in her case was steady and rapid, and after the use of a dozen boxes she found her health fully restored. "1 believe," said Miss Main, "that if it had not been for Dr. Williams' Pink Pills I would not be alive to-day, and I Pills I would not be alive to-day, and I strongly recommend them to all girls who find themselves in a condition similar to what mine was." Miss Main's mother was present and fully endorsed what her daughter said, adding that she fully believed Pink Pills had saved her life.

Mr. Angus Buchanan, druggist, who is also reeve of the village, was asked if many Pink Pills are sold. His reply was that they have a larger sale than any medicine, and still the demand steadily increases, which is the best evidence that Pink Pills are a great remedy, and there can be no question of the great good they accomplish. mainly from the mother, and thus it follows

Family Ties. A foreign exchange brings us the story of a rather vulgar personage, only a few months a marquis, who managed to get himself invited to a court ball. The new-fledged marquis could not contain himself for joy, and exhaled proud satisfaction at every pore.

Casting an Olympian glance around the room he chanced to spy among the ladies the tall, angular figure of an elderly matron with pressed lips as though afraid of wasting her breath, and as lean as a lath.

"Who is that nanny-goat?" said the noble With a knowing smile came the reply: "That nanny-goat is the ambassedress of S-, the mother of the kid who is giving
