

LOCAL AND SPECIAL.

Sunshine and snow-showers is April's programme.

Owing to an accident to our typesetting machine a quantity of local news must be held over for next issue.

Easter Monday was bright and clear but cold. The following morning the ground was thickly covered with snow.

The split-log drag was used on Granville Street on Monday. You'd hardly notice it, but that was not the fault of the machine.

The sermon of Rev. Robt. MacDonnell, on the Emmanuel movement, which we promised our readers, has been crowded out by other matter but will appear shortly.

The semi-annual session of the Municipal Council opened yesterday morning. The adjustment of conditions to meet the requirements of the new Road Act is the principal business before the Council. It is probable the business will be finished to-day.

Dr. Armstrong is taking possession of his new home purchased from G. D. Fisher, and is having many alterations and improvements made in the interior including putting in a bathroom and furnace. The situation is very central and the location a pleasant one.

The rumor has been revived that Hampton is to have a summer hotel. We trust it may materialize in fact. Hampton is yearly growing more attractive to the summer visitor, and now that a steamer from St. John makes periodical trips to this port, nothing is needed but accommodations to develop the tourist trade satisfactorily.

An interesting series of ads. commencing in the Monitor in this issue on behalf of the "Sunshine Furnace, manufactured by McClary Mfg. Co., London, Canada. Newspaper advertising is a part of the McClary publicity programme and works hand in hand with an extensive follow-up system. The series of ads. were prepared by A. A. Briggs, Advertising Manager of the McClary Company, and placed by McConnell-Ferguson Advertising Agency, London.

We regret to learn that our usually genial barrister, O. S. Miller has got himself into a little difficulty with the Supreme Court judges at Halifax through adverse criticism of their action in regard to the Hutchison vs. Bent case in which he was interested. He was yesterday adjudged guilty of contempt of court. The penalty of a fine of \$50 was imposed, and apology to the court required to close the unfortunate breach of professional etiquette.

After almost a famine in the way of entertainments Bridgetown is promised two good ones shortly. The Royal Scots Concert company gives a return engagement here on Saturday evening, May 9th, to the delight of the many music lovers who heard them here last fall. Thursday evening the 4th, Pauline Johnson, the well-known Indian poetess and reader, with the assistance of Walter McTavay, entertainer, will fill an engagement here under the auspices of Antigonish Lodge, Miss Johnson as is well-known, gives a high-class entertainment. Both will draw large audiences.

On the 1st of May the Town Clerk shall charge customers for water from that date until the end of December 1908 and thereafter from January to July and July to January in advance.

It was ordered that a license be granted to A. Gastonguay to exhibit moving pictures in town for one year for fifty dollars.

Councillors Chute, Charlton and DeWitt were upon motion appointed a committee to examine the rate book and after examining the same the committee reported that the rate book was correct and upon hearing said report the town council accepted and approved said book. Whereupon it was resolved that June 1st 1908 be fixed as the date on or before which the rates as rated and set down in the rate book in respect to property and income shall be payable.

Minutes read and approved. Council adjourned.

There is no mistaking the superiority of a tea that in sixteen years has built up a market in almost every part of the North American continent that has had the most enormous increase in sales, year after year, until over 18,000,000 packages was the immense output for 1907. This continental endorsement of "Salada Tea" proves conclusively their right in offering it to the public as the most delicious and healthful tea in the world.

"Health Coffee" is really the oldest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoop of Racine Wis. Not a grain of real coffee is in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for coffee. No 20 to 30 minutes tedious boiling. "Made in a minute" says the doctor. Sold by J. E. LLOYD.
