

# LIBRARY of SCIENCE.

The attention of Teachers and other intelligent readers is called to these books, a list of which is given on page 2 of cover. It will be observed that all are standard works written by eminent authors; and, until they appeared in this form, the usual price was from *one to three dollars* a volume. Thus for less than one-tenth of their former cost the student or general reader may add to his library a number of the best literary productions of the age. A number of these bound together make a handsome and valuable volume.

I will send any number, from a single volume to the entire set, to any address in Canada or the United States, postage paid, on receipt of price.

A. J. PINEO.

## Exchanges Wanted.

Having for a number of years, out of pure love for the work, been collecting in the best and justly celebrated mineral localities of Nova Scotia, I have accumulated a large and valuable stock, the greater part of which I wish to dispose of in exchanging with collectors in other countries. I desire minerals, shells and fossils from all parts of Canada and the United States. The following is a list of what I have for exchanging: Acadiaite, Alabastu, Albertite, Amethyst, Amygdaloid (cavities lined with red and white heulandite) Amphibrite, Apophyllite, Barite, Calcite, Chabazite, Chalcedony, Diabantite, Dolerite (hap), Gypsum, do, Fibrous, Hematite, Heulandite (white and red) Jasper, Laumonite, Limenite, Manganese, Natrolite, Pyrolusite, Quartz, (milky) Satin Spar, Selenite, Stilbite, (white, yellow and brown), Thomsonite, Tripestone, Ulexite, Winkworthite.

I have a few others than those mentioned above, while of some of them I have only a limited quantity. I have besides many others from other localities which I shall catalogue soon. I desire to exchange for Minerals, Shells and Fossils from all parts of Canada and the United States. Collectors having such to exchange should send lists. Exchanges should be made by mail or freight not by express,
