Wherever Fruit Excels Niagara Spray is Used

Our Slogan, expressing a plain and acknowledged truth. It does not follow that the mere using of **NIAGARA SPRAY** produces good fruit, for thoroughness and proper application are important, so also are other essentials in good orcharding, but **we do say** that wherever, on the American continent, a good and clean fruit is produced—**there Niagara Spray is used**—because **NIAGARA IS MADE RIGHT AND STAYS RIGHT.**

Results in Ontario, Nova Scotia and New York, as well as elsewhere this season, demonstrate the superiority of **NIAGARA LIME-SULPHUR** over Bordeaux for Apple Scab.

DO NOT NEGLECT THE FIRST DORMANT SPRAY IN SPRING. This is the most important spray and controls San Jose Scale, Oyster Shell Bark Louse, Blister Mite, Aphis and all insects wintering on trees. It also lays the foundation for later sprays for Apple Scab.

In districts affected by San Jose Scale, Spray **NOW**, and **AGAIN** in Spring.
