Central Station Men

Read Extract from letter from another
Central Station Man who saved money
by consulting me * * * * *

DEAR SIR: I am glad I had you to inspect my electric plant. I had thought the expense of such an inspection by an independent man would be money wasted. You have convinced me I can save far more than your fees cost me, and in directions an inexperienced man would never think of. I think no person should do business with electric companies without securing the advice of an independent engineer, as he can save far more than he costs, and get better work done.

Yours truly,

— ELECTRIC Co.
