

Lucyfield-Farm, 1st May, 1878.

SEVERAL litters of fine Yorkshire (Eli-mere) pigs will be ready to send away about the end of May. In order to maintain the high character of the stock, and ensure its improvement, only a few of the very finest specimens of each litter are picked out and sold, with pedigrees, at \$10 each, five weeks old. The remainder, although thorough-bred, will not be pedigreed but sold at reduced rates. may 1

HORSES.

THE following items are from the *Colchester Sun*:—"Jim Fisk."—We are instructed to say that the Midland Stallion, "Jim Fisk," will be in Truro on or about the 1st of May, on his way to Cumberland. Returning once a fortnight to Great Villiage. He will be regularly advertised in this paper as soon as his route and stands are arranged. He is decidedly a good horse.

"DANIEL MORRILL."—This fast trotting Stallion will visit Truro, Shubenacadie and places East, in a few days.

MARKET GARDENERS:

SEND FOR

ROOT'S GARDEN MANUAL for 1878, full of instruction on gardening topics, and price list of CHOICE SEEDS, sent for 10cts., allowed on first order for seeds.

Address J. B. ROOT, Rockford, Illinois. may 1

CHEMICAL

SUPERPHOSPHATE OF LIME.

The Grand Substitute for Barn-yard Manures.

CARLOADS of the above supplied on advantageous terms, delivered at any station on the W. & A. and Intercolonial Railroads. Smaller quantities can be shipped at Halifax. Orders for the above are respectfully requested to be sent to the subscriber as early as possible to ensure prompt delivery.

Apply to

JOSEPH S. BELCHER, Bennett's Wharf, General Agent for Nova Scotia. may 1

STALLION FOR 1878.

"HARTFORD,"

Deep Bay Horse, Foaled July, 1874. Bred by J. P. WISER.

PEDIGREE.—By Rysdyk, by Rysdyk's Hambletonian, 1st dam Belle by Rysdyk's Hambletonian, 2nd dam Rhoda, by Amos C. M. Clay (sire of American Girl, record 2.16).

HARTFORD stands 16 hands, and weighs 1150lbs.; is a horse of rare excellence, destined to make a trotter of the first water. His form and carriage correspond with his royal pedigree, and his great power is manifested in every movement.

He will be allowed to serve a limited number of mares, at \$40 to insure, during the season. Mares from a distance treated with every attention, and kept at reasonable rates—accidents and escapes at owner's risk.

Also—Gentlemen's Driving Horses constantly for sale, at reasonable prices.

Address the Subscriber, at Bill Town, King's County, N. S. may 1 C. R. BILL.

STUD HORSE BRUTUS

WILL travel for the season and stand at the following places, viz:

North River, Onslow, Isgonish, Debert, Clifton, Truro and Salmon River.

For further information see handbills. Conditions will be made to suit the times.

MURDOCH MCKENZIE.

Upper North River, April 10th, 1878. may 1

GEORGE WHITMAN,

Auctioneer & Real Estate Agent, ROUND HILL, ANNAPOLIS, N. S.

THE Subscriber is instructed to sell at Private Sale,

FARMS & OTHER REAL ESTATE

in the County of Annapolis, at prices from twelve hundred to eight thousand dollars each. Full particulars can be obtained on application to me at Round Hill.

Flour and all articles consigned for sale at auction, will receive due attention, if sent to any railway station in the County, on receipt of advice addressed to me at Round Hill, and sales attended in the County where ordered.

GEORGE WHITMAN, Auctioneer. may 1

EGGS FOR HATCHING,

FROM

Thorough-bred Fowls.

LIGHT BRAHMAS AND PARTRIDGE COCHINS,

THREE DOLLARS PER DOZEN.

AFTER years of experience in Breeding Fowls, the result has been to select the above as the best for all purposes in existence. My stock is made up by careful selections from the first strains in America, and my success with the Asiatics is shown by the numerous honors conferred on my stock at the several shows held in Nova Scotia. At the Exhibition of the Nova Scotia Poultry and Floricultural Association, held at Masonic Hall, Halifax, Feb. 26-28, 1878, I exhibited THREE COOPS, and received

EIGHT FIRST AND SPECIAL PREMIUMS, among which was a

SILVER MEDAL,

presented by Dr. W. H. Merry, of Toronto, Canada for the best collection.

Eggs carefully packed and sent to any part of the Province.

YOUNG FOWLS FOR SALE IN THE FALL.

Address,

THOMAS GOUDGE,

may 1 P. O. Box 369, Halifax, N. S.

WANTED.

WANTED by the North Sydney Agricultural Society, a yearling Bull, and two Cows or Heifers of the Jersey breed. Persons or Agricultural Societies having the same to dispose of will correspond with

A. G. MUSGRAVE, Secretary N. S. Ag. Society.

North Sydney. March 15th, 1878.

THE DUNNING PATENT CORRUGATED

STEEL HORSE SHOE,

THOS. CLARK, General Agent,

TRURO, . . . NOVA SCOTIA,

IS THE GREATEST BLESSING TO HORSES ever introduced into this or any other country.

Hundreds of testimonials can be furnished from the most prominent stables and horsemen, if necessary; but put a set of Shoes on your horse and judge for yourself.

Fair play and no favour (and no prejudice) is all we ask.

The Patent for the Dominion is owned by a few enterprising men in Truro and Halifax, and the Shoes are made by the "Starr Manufacturing Company," at Dartmouth.

Encourage Home Industry and Home Manufacture!

N. B.—It has taken nearly two years, and exhausted a large amount of money, to perfect the machinery for making the *Corrugated Steel Shoe*, but it is now complete, and we are able to offer a Horse Shoe to the public that, for general appearance, workmanship, and endurance, is without a rival.

A FEW OF THE ADVANTAGES OF THE "DUNNING PATENT STEEL HORSE SHOE" OVER THE ORDINARY IRON SHOE:

1. It is the only Shoe that affords an even bearing all round the foot, which is the natural position, thus preserving the natural hoof, and preventing the many evils that result from the common mode of shoeing.
2. The calks being continuous prevent slipping, sideways or otherwise.
3. It is a *self-clearing* Shoe, and can never "ball up."
4. It is suitable for all purposes and for all seasons, and after worn too smooth for winter use is admirably suited for summer wear.
5. Your horse can be shod as cheaply with the Patent Steel Shoe as with the common iron shoe.
6. It will wear *twice as long* as the ordinary iron shoe (if properly tempered) thus effecting a saving of at least fifty per cent. in your shoeing bills every year.
7. A blacksmith can shoe three horses with the Patent Steel Shoe in *less time* than it will take to fit and calk a single set of shoes, and shoe one horse, with the common iron shoe.
8. A blacksmith can *make more money* by using the Patent Steel Shoes than by making the iron shoes if he got the iron for nothing—that is, if he considers his time worth anything.

TEMPERING.

When the Shoe is properly fitted to the foot and ready for tempering, use a pan or bucket with about a quarter of an inch of water of even depth. Bring to a bright cherry red heat, and lay the calks of the Shoe down in the water, and allow to remain until cold.

The trade supplied by,

THOS. CLARKE, General Agent, Truro, N. S.

Retailed at Truro by F. LAWSON & CO., Inglis Street, and by the trade generally.

N. B.—Insist upon your horse being shod with the **PATENT STEEL SHOE**. Try it once and you will use no other.

For the purpose of giving them a trial,—on receipt of \$1 by mail, and size of horse's foot, a set of the Patent Steel Shoes will be sent to any address, express paid. may 1
