SMITHS FALLS 3rd June, 1890.
 We are highly pleased with the No. 36 Superior Furnace which you placed in our St. Andrews Church last season, and which heated our Church and Sunday School Room adjoining, containing in all 70,000 cubic feet, to our entire satisfaction. All other furnace manufacturers claimed that two furnaces would be necessary. Your furnace is easily managed, free from dust and gas. The system of ventilation in connection with the heating has proved highly satisfactory. We have effected a great saving of fuel and labour, and are well pleased in every way.
