At the unveiling of the memorial on Saturday, Sept. 10th, Sir William Mulr stated that subscriptions for the monument had been received from every church in every part of the country. While passing through Calcutta, in 1846, he and lady Muir breakfasted with Dr. Duff, and afterwards visited the schools. It was a sight to see the Doctor in his theatre produced such unparalleled results in of the native Church. the intellectual advancement of India, and in the growth of many admirable specimens of the Christian character. Indispensable for professional and business men. Ink in these stands is preserved in its natural colour, kept free from duct; no ever ration, thus a saving of 60 to 90 per cent, will not spill when tipped over. The ink springs up at each dipping of the pen, then goes back into the stand, where it is kept practically air-tight. The reaction is caused by a float which always has the same elasticity; being constructed of hard rubber and glass, will last a lifetime. No blots on books or papers from it of formation of the funnel—the surplus is taken from the penersy time. Money invested in there stands will yield from 50 to 100 per cent yearly. No Universal Remedy

has yet been discovered, but, as at least four-fifths of human diseases have their source in Impure Blood, a medicine which restores that thild from a depraved to a healthy condition comes as near being a universal cure as any that can be produced. Azer's Sarsaparllla affects the blood in each stage of its formation, and is, therefore, adapted to a greater variety of complaints thun any other known medicine.

Boils and Carbuncles,

which defy ordinary treatment, yield to Ayer's Sarsaparilla after a comparative-

Mr. C. K. Murray, of Charlottesville, Va, writes that for years he was alflicted with boils which caused him much suffering. These were succeeded by carbuncles, of which he had several at one time. He then began the use of Aver's Sarsaparilla, and after taking three bottles, the carbuncles disappeared, and for six years he has not had even a pimple.

That insidious disease, Scrofula, is the fruitful cause of innumerable complaints, Consumption being only one of many equally fatal. Eruptions, ulcers, sore eyes, glandular swellings, weak and wasted muscles, a capricious appotite, and the like, are pretty sure indlcations of a scrofulous taint in the system. Many otherwise beautiful faces are disfigured by pimpler eruptions, and unsightly blotches, which arise from impure blood, showing the need of Ayer's Sarsaparilla to remedy the evil.

All sufferers from blood disorders should give Ayer's Sarsaparlila a fair trial,—avoiding all powders, cintments, and washes, and especially cheap and worthless compounds, which not only fail to effect a cure, but more frequently aggravate and confirm the diseases they are fraudulently advertised to remedy.
