

Dr. Jones supported the "case" method of teaching; and from personal experience he favours the English system of clinical clerkships and dresserships as the most feasible, practicable and thorough for the development of medical teachings. He referred to the question of Dominion Registration, and pointed out two serious objections to Dr. Roddick's Bill: First, the great number of the representatives on the Council, entailing expenses beyond at least our immediate resources; and second, the fact that one of the contracting parties to Dominion Registration may secede, and the elaborate fabric, the work of many years, tumble to the ground. The able paper of Dr. Jones was received with much gratification by the Association.

Dr. R. B. Nevitt, Dean of the Woman's Medical College, Toronto, in moving a vote of thanks to Dr. Jones for his able paper, stated that he had placed his finger on the weak point of Medical Education. Dr. S. J. Tunstall, of Vancouver, seconded the motion for the vote of thanks and also congratulated Dr. Jones for the excellent manner in which he presented his subject.

DOMINION REGISTRATION.

Dr. T. G. Roddick, of Montreal, who has so long and so ably advocated this much-to-be-desired measure, delivered a stirring address on the subject, ably reviewing the subject of inter-provincial registration from the time of its inception to the introduction of his Bill at the last session of the House of Commons. The special committee appointed on this subject had not yet reported, so the discussion was postponed until the committee had a chance to meet and report later on in the session. Dr. Roddick now seems to hold to the opinion that the suggestion of Dr. Britton, of Toronto, that representation by population, for Ontario at least, would be advisable.

INFECTIOUS PNEUMONIA.

Dr. W. S. Muir, Truro, Nova Scotia, read this paper. He reported four cases, all of which had occurred between
