

THE VICTORIA STEM WINDER

\$6

A Challenge Offer.

Crystal Cases, showing interior, richly engraved, heavily gold-plated rim. We now offer this Splendid, Artistic and Gentlemanly Watch, containing all the Newest, Modern and reliable works, and are justified in calling it the Cheapest in the World, and best Watch ever sent from any factory for the money. The "Victoria" Jewelled Watch is of the best cylinder escapement movement, balance action, self-regulating, stem-winder, Jewelled in four jewels, and will keep time with any hundred dollar watch ever made; this is no overdrawn eulogy; their accuracy as time-keepers has been tested with some of the most reliable time-pieces in the country, and found not to vary a second in twenty-four hours. It is a perfectly original novelty, and pleases every one. We guarantee it for five years. The case being very close-fitting, the works remain in perfect order without cleaning for a much longer time than a watch which

requires to be opened when regulated or wound up; we can, therefore, safely assure our patrons that, with ordinary care, it will last a life-time, and give more permanent satisfaction than many twenty-five dollar watches in the market. From \$25 to \$30 would be the ticket retail price of such a watch—could the trade obtain it—but it is our specialty. To Clubs, we send 3 Victoria Stem Winder Watches for \$16.

In British Standard Mint Coin Silver. The Beaconsfield Watch at nine dollars is now made by us a challenge offer. It is guaranteed, and stamped Solid Silver Hunting Case. Best patent lever movement, full Jewelled, artistically and richly chased and engraved, and a time keeper of rare excellence. To Clubs, 3 Beaconsfield Watches for \$24.

We will cheerfully refund the money if unsatisfactory. No necessity to send your money in advance. If you live near a Railway Station, send us \$1.00, to pay Express Company's charges, then you can examine your goods and pay \$6 to the Express Agent. By sending your money in advance, however, you save the dollar, as it costs one dollar extra to send and collect by express. Bring a practical man with you, they will stand examination.

DIAMONDS.

The Wonderful Lefevre Artificial Diamonds
in SOLID GOLD Mountings.

The only fac-simile of the real Diamond in the World.

The Academy of France has pronounced that M. Lefevre has really obtained artificially the true Diamond. The basis of these gems are pure crystals found in the Sierra Leone, from whence they are exported to the Lefevre Laboratory in Paris, France, where they are submitted to a chemical and voltaic

process, by which their surfaces are covered with a coating, imparting to them all the brilliancy and reflective qualities of the natural Diamond, and making them as desirable for WEAR, BRILLIANCY and BEAUTY as the veritable gems themselves. The cuts herewith are exact cuts of the articles they represent. On receipt of TWO DOLLARS we will send to any address in Canada or the U. S., either the ring, studs, shah stud, a two karat brilliant, or ear drops—they are perfectly dazzling—the stones being exquisitely cut and mounted in solid gold guaranteed 14 karat. Money cheerfully refunded if found unsatisfactory. The of rare loose Diamond specimens, 1 karat stone, 40c., 2 for 75c., 3 for \$1. We have on file hundreds of flattering testimonials of the beauty of these goods from all parts of the Dominion and United States.
