JAS. MCGREGOR, Esq., Chicago (Produce Cold Storage Exchange.)

Application has been made to incorporate under the Dominion Joint Stock Companies Act, a company, with the object of acquiring the necessary property and buildings for the establishment in Montreal of a Cold Storage business to be constructed and operated on the latest and most improved methods of mechanical refrigeration.

The rapid development during the past ten years of mechanical refrigeration and the practical demonstration of the fact that it possesses great economy and manifold advantages over refrigeration by natural ice have raised this art to one of the leading and best paying industries of the present day, and necessarily impresses itself upon business men and capitalists.

The want of first class refrigeration and suitable Cold Storage facilities, properly located, with Rail and Water connections, whereby perishable products, consigned to Montreal for export account or otherwise, can be scientifically frozen or chilled for shipment, transferred from Refrigerator Cars direct to the Cooler, and reloaded on Ocean Steamers without exposure or deterioration, has become a question of National importance. The Dominion Cold Storage Co. has been organized to meet these requirements. Its Directors have secured valuable railroad and other privileges and have perfected arrangements whereby a first-class, well equipped establishment of this kind will be provided under the most experienced management. This will not only prove of great advantage to producers and shippers, but will undoubtedly become a good paying investment.

The property selected and acquired by the Company for this Enterprise is situated on Mill street, between the Lachine Canal and the River St. Lawrence. It possesses ample water power, rail and water connections, with unexcelled facilities for loading cars and vessels direct from or into the warehouse.

To establish this business on a sound basis 3000 shares of the capital stock at the par value of \$100 per share will be issued. Terms of payment, 10 per cent. on allotment, 20 per cent. on Aug. 1st, and the balance by calls of 10 per cent. each, at intervals of 30 days. One thousand shares of this stock have already been subscribed and the balance is offered to the public.

Application forms for stock, and all other information, can be obtained at the office of the Company.
