**You Pay For Good  
Wire**

whether you use it or not. If you buy a cheap wire whose quality is kept down to meet a price instead of up to meet a standard, you may pay several times the cost of good wire in replacement of your wiring or the building in which it is installed.

**"Sterling"  
Rubber Insulated Wire**

is kept up to a high standard of dependability and is sold at a reasonable price that makes it available for the cheaper class of buildings. It has always exceeded the requirements of the N. E. C. by a liberal margin which constitutes the purchaser's insurance against the defective wire risk.
